*Advances in Physiology Education

Subject Index to Volume 272

A

A-23187

- and active transport enzymes in turtle bladder epithelial cells, R1379
- pulmonary vascular response to, in newborn, chronic hypoxia and, H2436
- and thromboxane formation from porcine cells, C1821

Abdominal aortic aneurysm

- surgery for, preservation of renal function after, IGF-I and, F257

Acetazolamide

- and bicarbonate and carbon dioxide transport in frog skin, R640
- and intracellular chloride in cardiomyocytes, H735

Acetoacetate

- and malonyl-CoA regulation in skeletal muscle, E641
- metabolism, quantitative analysis of, in AS-30D cells, E945

Acetogenesis

- in mammalian hepatic lipid metabolism, R1641

Acetylcholine

- bronchial submucosal gland secretion in response to, L203
- calcium release in response to, nitric oxide and, in porcine tracheal smooth muscle cells, L1
- and colonic motility, G1607
- conducted vasodilation induced by, H1364
- dynamic intracellular calcium response to, in tracheal smooth muscle, L588
- and hyperpolarization and relaxation in mesenteric arteries, H2306
- and insulin secretion by cultured islets from *ob/ob* mice, E304
- and intracellular contractile pathways in esophageal muscle, G1523
- mesenteric arterial response to, in hypertensive rats, H493
- and mucus secretion by airway submucosal glands, L372
- pulmonary vascular response to, in newborn, chronic hypoxia and, H2436
- and reactivity of skeletal muscle arterioles, during chronic myocardial infarction, H2403
- release from rat airway cholinergic nerves, origin and modulation of, L8
- and rostral ventrolateral medulla, in rats, R249
- venular response to, in skeletal muscle, H2541

Acetylcholine receptors

- nicotinic, in nucleus of solitary tract, studies in rats, R869

Acetylcholinesterase

- in fast and slow skeletal muscle, C68

Acetyl-CoA carboxylase

- regulation, in muscle, E262

N-Acetyl cysteine

- and ischemic renal failure, F292

Acid-base status

- see also **Acidosis**; **pH, intracellular**
- changes, and magnesium uptake in distal convoluted tubule cells, in mice, F759

- in leopard frog, R640
- pituitary hormones and, F736
- regulation, in fish, R84

Acid-base transport

- at basolateral membrane
- chloride-coupled, and intracellular pH in avian renal proximal tubules, R341
- sodium-coupled, and intracellular pH in avian renal proximal tubules, R341
- in distal colon, of rats, G54

Acidification

- intracellular, in avian renal proximal tubules, R341

Acidosis

- see also **pH, intracellular**
- and ATP cost of muscle contraction, C485
- and control of respiration in skeletal muscle, C491
- intracellular, activation of c-Src, C886
- and magnesium uptake in distal convoluted tubule cells, in mice, F759
- metabolic
- and osteoblastic *α₂I* and type 1 collagen, C1450
- ovine fetal leucine kinetics and protein metabolism during, E275
- and renal expression of carbonic anhydrase IV, in rabbits, F551
- and renal thiazide receptor density, R2004
- and thyroid function, F648
- and permeability of cultured intestinal epithelial monolayers, G1007
- recovery from, during anoxia, in turtle heart, R6
- and regulation of branched-chain keto acid dehydrogenase flux, C2031
- during reperfusion, and myocardial infarct size, H2071
- systemic, acid excretion during, R1904

Acid secretion, gastric, see Stomach, acid secretion

Acinar cells, pancreatic

- apoptosis, G1489
- AR42J, monitor peptide mRNA expression in, G794
- calcium-mediated damage to, G1489
- membranes
- EGF-induced activation of phospholipase C- γ_1 in, G1276
- PLC- β isoenzymes in, agonist-induced activation of, G135
- monitor peptide mRNA expression in, regulation by cholecystokinin, G794
- oxidative stress on, functional effects of, G1489

Acinar cells, salivary

- parotid, TGF- α in, TEM localization of, G553
- submandibular, calcium-activated potassium channels in, and salivary fluid secretion in rats, G454

Aconitine

- and rat soleus muscle contractility, R1402

Acquired immunodeficiency syndrome

- mouse model, pulmonary mechanical and immunologic dysfunction in, L699

Actin

- α -actin, gene expression, in smooth muscle, C582
- and airway smooth muscle hypertrophy induced by mechanical stress, L20
- in colonic smooth muscle, in megacolon, G1560, G1571
- effector proteins, F430
- and epithelial sodium channel regulation by CFTR, C1077
- F-actin, and epithelial chloride secretion and Na-K-2Cl cotransport, C254
- fibers, codistribution with fibronectin, in vascular system, H2188
- filaments
- disruption, in smooth muscle, C1960
- in gastric parietal cells, and morphological changes with HCl secretion, G246
- in intestinal epithelial cells, and nitric oxide-induced hyperpermeability, G923
- in intestinal subepithelial myofibroblasts, C1513
- properties of, F430
- in pulmonary vasculature, TNF- α -induced alterations in, nitric oxide and, L979
- regulation of, F430
- regulatory proteins, F430

Actin cytoskeleton, see Cytoskeleton

Action potentials

- cardiomyocyte
- L-type calcium currents and, H227
- modulation of, H1759, H1798
- oxidative stress-induced changes in, ATP and, H1598
- duration
- in cardiac hypertrophy, H2853
- cumulative changes in (memory), and cardiac Purkinje fibers, H1826
- relaxin and, H1798
- with ventricular hypertrophy, H1078
- in ventricular tissue, H107
- myocardial, recording, H1917

Activator proteins

- AP1
- and nuclear factor- κ B, in glucocorticoid receptor signaling, L838
- in ozone-induced epithelial injury, L504
- and vasopressin activation of aquaporin-2 promoter, F443
- CRE, and vasopressin activation of aquaporin-2 promoter, F443

Activity

- dietary restriction and, in monkeys, E901

Acute respiratory distress syndrome see also Lung injury, endotoxin-induced

- A₁-adenosine receptor antagonism and, L353
- gelatinases in, L442
- pancreatitis-associated, and protective effect of PGE₁, in rats, G23
- rat model, protective effect of hemoglobin in, L268
- surfactant metabolism in, L335
- rabbit model, L872

Adenosine

- and adrenergic neurotransmission, in pulmonary artery, H1100

Adenosine (*continued*)

antagonist, effects on glucose transport in erythrocytes, C1415
 apical, effects in HT29cl.19A cells, C931 and ATP-sensitive potassium channels, synergism, in memory of ischemic preconditioning, H334
 cardioprotective effects, H1857
 central, and defense response, studies in rats, R195
 endogenous, and inhibitory tone in myenteric ganglion networks, G38
 and flow-induced dilation in coronary microvasculature, H1571
 formation, cardiac, inorganic phosphate and, H913
 in human pediatric cardiomyocyte preconditioning, H1220
 infusion, effects on pulmonary and systemic circulation, in sheep, H921
 in metabolic depression in *Sipunculus nudus*, R350
 and muscle glycogenolysis, E762
 and myocardial metabolism, during coronary stenosis, H2195
 negative chronotropic effects, H1898
 and norepinephrine release, in pulmonary circulation, H1100
 output from muscle, in hypoxia, intracellular lactate and, H318
 and pulmonary vasodilation in response to birth-related stimuli, in fetal lamb, H2377
 regulation of mast cell degranulation, and arteriolar constriction during vascular stunning, H2154
 stimulation of DNA synthesis, in human endothelial cells, H1470
 in working guinea pig heart, H371

Adenosine 3',5'-cyclic monophosphate
 in active thermoregulatory vasodilation, R975
 and altered hepatocyte signal transduction after hemorrhagic shock, ATP-MgCl₂ and, G1347
 and ATP-conductive pathway, in shark rectal gland cells, C466
 and bicarbonate conductance through CFTR, in human airway epithelia, L752
 and calcium-dependent potassium conductance in rat submandibular acinar cells, G454
 and carbachol inhibition of β -receptor subtypes, H2726
 and chloride channels, in cortical collecting duct cells, C657
 and endocytic vesicles, C1123
 and hormone-induced calcium oscillations in rat hepatocytes, G954
 inhibition of potassium currents in rat taste receptor cells, mechanisms of, C2005
 in inner medullary collecting duct cells, epinephrine and, in rats, F192
 in muscle glucose transport, cholera toxin and, E7
 and neutrophil-epithelial adhesion, L580
 and opioids, in hypoxic vasodilation, H1350
 in phenotypically distinct pulmonary endothelial cells, L51

in phospholamban-knockout mouse hearts, β -adrenergic regulation of, H785
 production
 in mesangial cells, adrenomedullin and, F691
 in nephron segments, adrenomedullin and, F691
 and relaxation of airway smooth muscle, L865
 in skeletal muscle, contraction-induced signaling, GLUT-4 concentration and, E118
 and sodium channels, in cortical collecting duct cells, C657
 and T lymphocyte migration in Peyer's patches of rat small intestine, G92

Adenosine diphosphate

and bleeding time in hemolysis, H2875
 calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954
 and chloride ion secretion by intestinal epithelial cells, C1862

Adenosine monophosphate

in working guinea pig heart, H371

Adenosine receptors

A₁
 activation, and modulation of ATP-sensitive potassium channels in cardiomyocytes, H325
 antagonists, and endotoxin-induced lung injury, L353
 β -blockade and transregulation of, H1672
 and defense response, studies in rats, R195
 in pulmonary vasculature, H1100
 subtypes
 detection in outer medullary descending vasa recta, RT-PCR for, H1231
 in neural stunning of sympathetic coronary innervation, H25

Adenosinetriphosphatase

calcium, *see* **Calcium ATPase**
 hydrogen-potassium, *see* **Hydrogen-potassium ATPase**

P-type

evolution of, C715
 primary structure of, C715
 in *Tetrahymena thermophila*, C715
 sodium-potassium, *see* **Sodium-potassium ATPase**

Adenosine 5'-triphosphate

activation of adenosine receptor on type II pneumocytes, L187
 ATP-sensitive potassium channel sensitivity to, alterations in heart failure, H1656
 in cardiac recovery with ischemia-reperfusion, heat acclimation with exercise and, H2085
 in cultured intestinal epithelial monolayers, acidosis-related depletion, G1007
 and cytosolic calcium levels, in proximal tubule cells, C1169
 depletion
 in Hep G2 cells, by nordihydroguaiaretic acid, C1429
 and myosin I β cellular location, in LLC-PK₁ cells, C1680
 and renal cell actin cytoskeleton, amelioration by heat stress, F347

and early cytotoxicity after oxidant injury, in LLC-PK₁ cells, F729
 electrodiffusional movement of, by shark rectal gland cells, C466
 extracellular
 and chondrocyte intracellular calcium metabolism, C1611
 and ion transport in middle ear epithelium, C827
 and potassium secretion in human airway epithelium, L1084
 regulation of transcellular permeability, C1602
 extracellular, arteriolar responses to, in skeletal muscle, H1886
 hydrolysis
 in muscle bioenergetics, C1739
 during myocardial ischemia, H2563
 intracellular, and calcium current regulation in vascular smooth muscle, H814
 membrane voltage response to, in mesangial cells, F704
 metabolism, in brain, C1567
 myocardial, production, in mammalian heart, H769
 and oxidative injury in cardiomyocytes, H1598
 and pulmonary vasodilation in response to birth-related stimuli, in fetal lamb, H2377
 regulation of prolactin release, E1117
 release, from epithelial cells, CFTR-independent, C1058
 stimulation of surfactant secretion, in type II pneumocytes, L187
 supply, for sodium pump, in renal epithelium, C697
 synthesis, during myocardial ischemia, H2563
 vagal reflex triggered by, H1898

Adenovirus

E1A, upregulation of IL-8 gene expression, L1046
 as gene transfer vector, intrapericardial administration of, H310

Adenylate cyclase

see also **Pituitary adenylate cyclase-activating peptide**
 activity, in neonatal cardiomyocytes, cytokines and, H1937
 in skeletal muscle, contraction-induced signaling, GLUT-4 concentration and, E118

Adenylate kinase

mitochondrial, in guinea pig myometrium and heart, C399

Adenyl cyclase

activity
 dietary modification of, in white and brown adipose tissue of rat, E1043
 in heart failure, H884
 and β -adrenergic receptors, in distal convoluted tubule cells, F712
 and cardiac contractility, H1672
 in phenotypically distinct pulmonary endothelial cells, L51

Adhesion biology

see also **Intercellular adhesion molecule; Vascular cell adhesion molecule**
 and apoptosis of bronchial epithelial cells, L28
 in apoptotic human endothelial cells, C15

- in confluent epithelial cells, C1654
neutrophil-epithelial, cAMP and, L580
in neutrophils, C295
pulmonary, in mice, L219
- Adhesion molecules**
see also **Intercellular adhesion molecule-1; Selectins; Vascular cell adhesion molecule**
in cerebral circulation, H2622
in mesenteric microvasculature, H2584
in polymorphonuclear cells, H2852
- Adipocytes**
cell surface aminopeptidase, insulin stimulation of, E600
insulin stimulation of, and insulin receptor kinase activity, in humans, E576
lactate production by, in pigs, E957
MMP-2, and multicellular organization in culture, C937
3T3-L1
glucose transporter, dominant negative effect of PI 3-kinase and Ras on, E326
insulin responsiveness, oxidative stress and, E935
- Adipose tissue**
see also **Fat, body**
in *Sminthopsis crassicaudata*, R78
triacylglycerol species profile, weight cycling and, in rats, R43
visceral, and metabolic response to exercise, E248
- Adipose tissue, brown**
adenylyl cyclase inhibitory pathway in, dietary modification of, in rats, E1043
IGF-I gene expression in, transient up-regulation in cold-exposed rats, E453
leptin gene expression in, β_2 -adrenergic-mediated suppression of, E1031
and obesity, in transgenic mice, R1088
renin activity in, C989
thermogenesis
and heart rate regulation during cold challenge, in infant rats, R1308
sucrose-induced changes in, in rats, R840
and thermoregulation in newborn lambs, R1931
- Adipose tissue, white**
adenylyl cyclase inhibitory pathway in, dietary modification of, in rats, E1043
and energy regulation in Siberian hamsters, R783
leptin expression, F333
 β_3 -adrenergic-mediated suppression of, E1031
seasonal fluctuations, in Siberian hamsters, R68
sympathetic activity during fasting, studies in rats, R656
- Adiposity, abdominal**
and age-related increase in muscle sympathetic nerve activity, E976
and growth hormone secretion in adults, E1108
- Adrenal glands**
see also **Hypothalamic-pituitary-adrenal axis**
aldosterone production, in neonatal rabbits exposed to hypoxia from birth, R1084
- and carotid body chemoreceptor hyperglycemic reflex, R392
catecholamines
and $ET_{A/B}$ receptor function, in vivo, R1290
and plasma renin levels during water deprivation, R1197
response to vasoactive intestinal polypeptide, inhibition by PACAP-(6—27), in dogs, R1606
development, in AT_{1B} deletion mutant (*Agtr1b* $-/-$) mice, F299
in rat model of psychological stress, R776
and salt balance, in rats, F538, F545
tyrosine hydroxylase and norepinephrine transporter, dehydration and, in rats, R1897
- Adrenergic nerves**
excitatory, in anorectal smooth muscle, G1075
and insulin secretion, in mouse pancreatic islets, R1371
- β -Adrenergic receptor kinase**
and cardiac function, studies in transgenic mice, H590, H1553
- Adrenergic receptors**
activation, and cardiovascular response to feeding, studies in calves, R607
signaling, altered in transgenic mice, cardiac function with, H1553
- α -Adrenergic receptors**
 α_1
and acute cardioadaptation to ischemia-reperfusion, R718
agonists, and muscle metabolism, H2146
antagonists, and muscle metabolism, H2146
in cerebral arteries, high altitude-induced changes in, R669
 α_{1C} , human, modulation of potassium channels coexpressed in *Xenopus* oocytes, H1275
 α_2
in carotid body, in rabbits, C628
in inner medullary collecting duct cells, in rats, F192
presynaptic, in control of glutamate release, in rat brain stem, G654
antagonists, and myocardial pH, regulation during hypoxia, H2664
and IL-6 induction by central lipopolysaccharide, R1880
in preoptic recess, effects on cardiovascular responses to hyperosmolality, R1283
signal transduction by, and sympathetic modulation of vasomotor activity, H485
- β -Adrenergic receptors**
 β_1 , carbachol inhibition of, H2726
 β_2
in airway epithelium, effects of catecholamines on, L916
carbachol inhibition of, H2726
 β_3
and leptin gene expression, in rats, E1031
in rat antrum, G1000
agonists
and diaphragmatic microcirculation, H2173
and neutrophil-epithelial adhesion, L580
- stimulation of smooth muscle cells, H244
blockade
and cardiovascular response to stress, in borderline hypertensive rats, R1588
metabolic and circulatory effects of, E678
splanchnic metabolic and circulatory effects of, E678
and transregulation of inhibitory receptors, H1672
cardioselective, H2726
in distal convoluted tubule cells
molecular and functional identification of, F712
subtypes, F712
in inner medullary collecting duct cells, in rats, F192
myocardial, in canine heart failure model, H478
and plasma renin levels during water deprivation, R1197
regulation of cAMP and protein phosphorylation, in phospholamban-knockout mouse hearts, H785
signal transduction, in asthma, L644
- Adrenocorticotrophic hormone (corticotropin)**
chronic stress and, in rats, R813
plasma, response to infection, studies in rats, R1562
secretion, modulation in ovine fetus, R1128
in stress response, in calorically overloaded rats, R840
- Adrenocorticotropin**
cardiac effects of, H2115
- Adrenomedullin**
gene expression, intraglomerular, F691
hemodynamic, hormonal, and renal effects, in sheep, R2040
microinjected into area postrema, effects on blood pressure, R1698
in nephron segments and mesangial cells, of rat, F691
renal actions of
prostanoids and, F260
renal nerves and, F260
and thiazide receptor density, in rats, F410
vasodilator effect
adrenomedullin-(22—52) and, R234
in cats, R1047
- Adult respiratory distress syndrome**
see **Acute respiratory distress syndrome**
- Aging**
anorexia of, evidence for, R243
and baroreflex function, H776
and blood pressure variability, H776
and blood volume in females, exercise and, H2534
cardiac function in, exercise training and, H995
circadian rhythm changes with, in mammals, R509
decreased vasodilator sensitivity in skin with, H1609
decreased visceral sensation with, G1
deglutitive upper esophageal sphincter opening in, effect of exercise on, G1518
and diaphragmatic contractility, in *mdx* and transgenic *mdx* mice, C2063

Aging (continued)

- and diaphragmatic electrical properties, in *mdx* mice, C333
- dietary restriction and, studies in monkeys, E901
- effects
 - on Fos expression in suprachiasmatic nucleus, in rats, R422
 - on locomotor behavior in Syrian hamsters, R1219
- and gastroesophageal reflux events induced by pharyngeal water stimulation, G233
- and growth hormone secretion, E1108
- increased muscle sympathetic nerve activity with, abdominal adiposity and, E976
- parathyroid hormone release in, calcium-regulated, changes in, E139
- and protein import into cardiac mitochondria, H2983
- protein utilization in, effects of recombinant human growth hormone and IGF-I on, E94
- and renal function
 - in female rats, R1985
 - nitric oxide and, in rats, R1747
 - protective function of L-arginine, R1768
- resistance to IGF-I associated with, attenuation by exercise, E397
- and response to LPS and stress, in rats, R1252
- and serotonergic modulation of light-induced phase advances, in golden hamsters, R509
- skeletal muscle cells in
 - myosin isoform expression, C638
 - shortening velocity, C638
- thirst attenuation in, mechanism of, R148
- vasopressin V₂ receptor expression and, in rat kidney, R1775

Agmatine

- and glomerular filtration, via nitric oxide synthase, F597

Air pollution

- particulate, lung injury due to, L426, L521

Airway

- see also **Bronchi; Muscle, smooth**
- ATP diphosphohydrolase in
 - immunohistochemical localization, L939
 - purification, L939
- chloride-secretory and sodium-absorptive, differential effects of polycationic proteins on, L762
- cholinergic nerves in, localization, in guinea pigs, L731
- cigarette smoke-induced cell proliferation in, BQ-610 effects on, L614
- endocrine cells, response to low pH and bicarbonate, L178
- hyperreactivity
 - inhibition by IL-4 receptor blockade, in mice, L253
 - mechanisms of, C1757
- inflammation
 - see also **Asthma**
 - airway epithelial cell IL-2 in, L276
 - allergic, nitric oxide production in, L124

- antigen-induced leukocyte recruitment in, in mice, L219
- cell-cell interactions in, L1070
- defensin release in, and IL-8 in airway epithelial cells, L888
- elastase inhibitory function in, L533
- monocytes/macrophages in, SP-A and, L996
- neonatal, in rabbits, L471
- protection against, Clara cell CC10 protein in, L1142
- methacholine reactivity, in lung explants, L68
- mucociliary clearance, and inflammation, in cystic fibrosis mice, C853
- parasympathetic innervation, L8
- parenchymal interactions, in lung explants, L68
- smooth muscle
 - intracellular calcium oscillations in, C966
- nonselective cation currents in, C341
- submucosal glands
 - cystic fibrosis transmembrane conductance regulator in, C131
 - mucus glycoconjugate secretion in cool and hypertonic solutions, L1121
- mucus secretion, anion transport inhibition and, L372
- secretory response to acetylcholine, L203
- serous cells, cystic fibrosis transmembrane conductance regulator in, L690
- visualization in situ, L203
- tachykinins in, inhibition by PAMP, in guinea pigs, L1066

Alanine

- absorption, in small intestine, capsaicin treatment and, G815
- metabolism, in normal postabsorptive humans, E437

Alcohol

- see also **Ethanol**
- withdrawal, effects on thyroid hormone metabolism, E191

Alcoholism

- thyroid hormone metabolism and, E191

Aldosterone

- see also **Angiotensin-aldosterone system**

- circulating, and renal function, in humans, F364
- effects of neonatal hypoxia on, in rabbits, R1084
- and epithelial sodium transport, in cystic fibrosis mice, G393
- and induction of avian intestinal sodium channels, C270
- nongenomic effects of, in porcine endothelial cells, E616
- and potassium absorption in distal colon, G54
- and regulation of channel-inducing factor mRNA, F617
- secretion
 - potassium-induced, in bovine glomerulosa cells, R183
 - in pregnancy, calcium channels and, E18
- and sodium-dependent hypertension in dogs, R1162
- and sodium transport
 - in kidney and colon, C1482
 - protein prenylation and, C1928

Alkaline phosphatase

- gene expression, in osteoblast response to thyroid hormone, E212

Alkalosis

- see also **pH, intracellular**
- and magnesium uptake in distal convoluted tubule cells, in mice, F759
- metabolic
 - pathophysiology of, F736
 - and renal thiazide receptor density, R2004
- and recovery from cerebral ischemia, H2557

Allergic reaction

- airway inflammation in, and nitric oxide production, L124
- inhibition by IL-4 receptor blockade, in mice, L253

Altitude

- acclimatization to, cerebrovascular changes during, R669
- cardiac enzymatic adaptation to, H1690
- high
 - and chronic mountain sickness, menopause and, R90
- hypoxia with, and inositol 1,4,5-trisphosphate receptors in cerebral vasculature, R1954

Alveolar cells

- see also **Epithelial cells, alveolar; Macrophages, alveolar**
- in radiation pneumonitis, in rats, L651
- surfactant secretion and reuptake, surfactant protein A and, L479
- type II
 - cell cycle kinetics, L1031
 - DNA synthesis, fibroblast-derived factors and, L619
- extracellular matrix assembly, L908
- gap junctions in, L1105
- gene expression, heat shock and, L132
- γ -glutamyltransferase production, in neonatal rat, L739
- growth, on pulmonary extracellular matrix over fibroblasts, L413
- nitric oxide and, L1092
- ozone-induced injury, L504
- PKC isozymes, L171
- proliferation, parathyroid hormone-related protein and, L394
- recruitment of monocytes, L830
- sodium channels, regulation of, C1262
- sodium-potassium ATPase in, hyperoxia and, L542
- surfactant phospholipid secretion, PKC isozymes and, L171
- surfactant secretion, adenylate cyclase-coupled ATP receptor and, L187

Alveoli, pulmonary

- see also **Alveolar cells; Epithelial cells, alveolar; Epithelium, alveolar**
- formation, L494
- hyperoxia-induced changes in, in neonatal rats, L433
- liquid clearance, in acute lung injury, L631
- retinoic acid-induced increase in, in neonatal rats, L792
- septal wall thickness, in murine model of AIDS, L699

Amiloride

- see also 5-(*N*-Ethyl-*N*-isopropyl)-**amiloride**
 and epithelial sodium transport, in cystic fibrosis mice, G393
 and pH regulation in pancreatic ducts, G124
 stimulation of magnesium transport, in distal convoluted tubule cells, F249

Amino acids

- absorption, in small intestine, G815
 availability
 vs. dextrose, and protein flux after metabolic stress, E36
 during postexercise recovery, effects on muscle protein synthesis, in dogs, E1023
 bipolar, transport across luminal membrane of small intestine, R1060
 branched-chain, metabolism during exercise, E233
 in humans, E1037
 in muscle, C2031
 branched-chain, myocardial concentration of, H1063
 cationic, transport across luminal membrane of small intestine, R1060
 excitatory
 receptors, and exercise-pressor reflex, H2774
 in transmission of sympathetic baroreflex, studies in rats, R800
 interorgan exchange, after metabolic stress, E36
 metabolism
 in humans, E585
 in insulin-dependent diabetes mellitus (IDDM), E59
 intestinal, and dietary protein supply, G257
 myocardial concentration of, in coronary artery surgery, H1063
 neutral, uptake in opossum kidney cells, F632
 osmoregulation of, in MDCK cells, C804
 and ovine fetal insulin secretion, E68
 suppression of proteolysis, in newborn, E592
 taste sense for, transduction mechanisms, C1
 transport
 myocardial, H1063
 in regulatory volume decrease, in NIH/3T3 cells, C1798, C1804
 renal, F205
 uptake, in L6 myocytes, vanadium compounds and, C156

Amino acid transporter B⁰

- intestinal, molecular and functional characterization of, G1463

3-Aminobenzamide

- and cardiomyocytes, after oxidative stress, H1598

Aminoglycosides

- tolerance, cellular mechanism of, C1309

Aminoguanidine

- nitric oxide synthase inhibition by, effects in acute endotoxemia, H843

Aminopeptidase

- activity, in adipocytes, insulin stimulation of, E600

4-Aminopyrazolo[3,4-d]pyrimidine

- and phospholipid synthesis, L106

Ammonia

- excretion, in trout, carbonic anhydrase activity and, R1754
 vacuolation of gastric epithelial cells by, C48

Ammonium chloride pulse

- and regulation of intracellular pH in avian renal proximal tubules, R341

Amphibians

- skin, and acid-base balance, R640

Amylase

- pancreatic, secretion, trypsin inhibitor complexes and, G340

Amylin

- effects
 in rat kidney, F13
 on thiazide receptor density, F410
 on urinary calcium excretion, in rats, F410
 gene expression, glucose regulation of, in rats, E543

Anaphylatoxin

- porcine C5a, and thromboxane formation from porcine cells, C1821

Anaphylaxis

- intestinal, myenteric neurons in, G181

Androgens

- circulating, and luteinizing hormone release, R464
 regulation of cystic fibrosis transmembrane conductance regulator, in fetal rat lung, L844

Androstenedione

- and ACTH secretion in fetal sheep, R1128

Angiogenesis

- adenosine-stimulated, H1470
 in kidney development, F79

Angiotensin

- see also **Renin-angiotensin system**
 in regulation of renin release, in rats, R1359

Angiotensin-aldosterone system

- and salt balance, in rats, F538, F545

Angiotensin-converting enzyme

- activity, along rat nephron, F405
 and angiotensin processing in brown adipose tissue, C989
 inhibition
 and aortic viscoelasticity, H859
 and arginine vasopressin and baroreflex function, in normal humans, E429
 and cardiomyocyte apoptosis, in spontaneously hypertensive rats, H2313
 in low-renin hypertension, H679
 and modulation of genetic hypertension, F229
 and regional myocardial effects of bradykinin, H1266
 and tissue antioxidant defenses, in mice, R514

Angiotensin I

- infusion in ovine fetus, renal, hormonal, and cardiovascular responses to, R1912

Angiotensin II

- see also **Renin-angiotensin system**
 activation of phospholipase C- β 1, C1558
 and bicarbonate reabsorption after nephron loss, F799
 blockade, in acute effects of angiotensin-converting enzyme inhibitors, H679
 and cardiomyocytes, cardiac neurons involved in, R766

- drinking response to, in rabbits, R1515
 endogenous, and sympathetic reflexes in conscious rabbits, R1816
 formation, renin and, C989
 hypertension induced by, neonatal sympathectomy and, H648
 mesenteric arterial response to, in hypertensive rats, H493
 and myocardial contractility, H1131
 and postprandial drinking, in sheep, R1055
 preglomerular response to, during intrarenal nitric oxide synthesis inhibition, verapamil and, R1670
 pressor response to, in feline pulmonary vasculature, effects of PLA₂, 12-lipoxygenase, and cyclooxygenase inhibitors on, L573
 and renal afferent arteriolar smooth muscle cells, F389
 in renal segmental resistances, in dogs, R1670
 responses, in AT_{1A} receptor-deficient mice, F515
 secretion, in cardiomyocytes and endothelial cells, H958
 and stress-induced responses, studies in rats, R26
 subfornical organ neurons responsive to, afferent renal inputs to, R1684
 sympathetic nervous system interaction with, AT₁ receptor blockade and, E415
 and tonic baroreflex suppression, H2204
 and vascular smooth muscle cell proliferation, C2019
 vasoreactivity to, in hypoxia, H1945
Angiotensin III
 and tonic baroreflex suppression, H2204
Angiotensin II receptors

AT₁

- antagonism, chronic effects, in heart failure, H2139
 antagonist, effects on thirst and sodium appetite in cattle, R1940
 and baroreflex function in early life, R1862
 blockade, and sympathoadrenal response to insulin-induced hypoglycemia, E415
 and cardiovascular remodeling, H2131
 central, and stress-induced responses in rats, R26
 expression, during early renal morphogenesis, R662
 expression, in hypercholesterolemia, H2701
 and role of endogenous angiotensin II in sympathetic reflexes, R1816

AT_{1A}

- in angiotensin type 1B receptor gene knockout mice, F299
 gene knock out, in mice, F515

AT_{1B}

- in blood pressure regulation, F515
 gene knock out, in mice, F299

AT₂

- in apoptosis, H2313
 expression, during early renal morphogenesis, R662
 and tonic baroreflex suppression, H2204
 blockade, and aortic viscoelasticity, H859

Angiotensin II receptors (*continued*)

non-AT₁, non-AT₂, F299

Angiotensinogen

gene expression

developmental, in rodents, R142
in genetically obese hypertensive rats, R1704

Anguilla anguilla, *see* **Eel**

2,5-Anhydro-D-mannitol

and food intake and estrous cyclicity in Syrian hamsters, R935
hyperpolarization of hepatocytes by, effects on food intake in mice, R874

Anion channels

cAMP-activated, and cerebrospinal fluid secretion, C1899
in cell volume regulation, intracellular electrolytes and, C1766
in mouse zygotes, C1854
in regulatory volume decrease, in NIH/3T3 cells, C1798, C1804
volume-sensitive organic osmolyte, *see* **VSOAC**

Anion exchanger

AE1, and taurine transport in rat erythrocytes, C1457
AE2, in *Xenopus* oocytes
activation of, C1232
and secondary regulatory volume increase, C191
activity, in autosomal dominant polycystic kidney disease, C1748
electroneutral, in teleost kidney, R1143
in 3T3/CFTR clones, C1642

Anion selectivity

in renal proximal tubules, C837

Anisotropy

in ventricular tissue, H107

Annexins

in liposome aggregation and fusion, C1279

Anorexia

of aging, evidence for, R243
and cardiac adaptation to hypoxia, H1690

Anoxia

intracellular pH regulation during, in turtle heart, R6
metabolic depression under, in *Sipunculus nudus*, R350

Antiarrhythmic agents

class III, mechanism of action, H1292
and reentrant arrhythmias, in subacute myocardial infarction, H299

Antimitogenesis

nitric oxide-induced, mechanism of, H1342

Antioxidants

see also **Catalase**; **Superoxide dismutase**

activities, in murine tissues, angiotensin-converting enzyme inhibitors and, R514
adaptation to endurance exercise training, R363
and air blast-induced pulmonary oxidative stress, L320
in asthmatic airway epithelium, L148
and early cytotoxicity after oxidant stress, in LLC-PK₁ cells, F729
expression, in experimental hydronephrosis, F789
and hepatic fibrogenesis in chronic dietary iron overload, G116

and lipid peroxidation after exercise, R1258
in postischemic skeletal muscle, H83
pulmonary, in rats with congenital diaphragmatic hernia, prenatal hormonal modulation and, L1059
and sphincter of Oddi motility, in opossum, G1050

Antisense oligodeoxynucleotides

and peptide release from neurohypophyseal system, R1441

Antisense oligonucleotides

TRH receptor, intracisternal, and gastric motor function, G1372

Antithrombin

heparin cofactor II and, comparative metabolism and distribution of, in rabbits, E824

Anus

external anal sphincter
denervated, myosin isoform shift in, G698
embryology of, G698
internal anal sphincter
innervation, G1075
nitric oxide synthase expression in, C1790

Aorta

compliance, in pregnant rats, H1260
remodeling, flow-induced, H851
stiffness, and cardiac function, H2211
viscoelasticity
angiotensin-converting enzyme inhibition and, H859
angiotensin II receptor blockade and, H859

Aortic arch

baroreceptors, and heart rate control, H2343

Aortic depressor nerve

stimulation, response of NTS neurons to afferent inputs from, in rabbits, R519

AP-1 activity

and histidine decarboxylase promoter, G822
and TGF- β 1 expression, and diminished retinoic acid signaling in hepatic stellate cells, G589

Apamin

and myogenic response in mesenteric arteries, H2306

Apnea

laryngeal reflex, and hindlimb muscle contraction in sheep, R586

Apolipoprotein

apo A-IV, intestinal, synthesis and secretion of, R1170
secretion, by intestinal epithelial cells, in newborn swine, G935

Apoptosis

in acute renal failure, F640
in adherent neutrophils, C295
in alveolar epithelium, L1031
in B cells, inhibition by CD40, C950
bile salt-induced, G1109
Bcl-2 protein and, G1587
of bronchial epithelial cells, L28
cardiomyocyte, during transition to heart failure, in spontaneously hypertensive rats, H2313
cholangiocyte, development and application of in vitro model of, G106
in circulating neutrophils, H2852

endothelial cell

induction, stress gene responses in, C1543

nitric oxide and, H760
of gastric chief cells, C48
hepatocyte, bile salt-induced, G1109
intracellular calcium-release channels and, H597
in kidney development, F79, F640
lipid peroxidation during, C675
vs. necrosis, endothelial cell stress gene responses and, C1543
in pancreatic acinar cells, G1489
repressor gene *bcl*, and S49 cells, C1241
repressor gene *bcl-x_L*, expression in B cells, C950
in S49 cells, calcium and, C1241

APP, *see* **4-Aminopyrazolo[3,4-d]pyrimidine**

Appetite

and aging, R243

Aprotinin

and zonal glomerular filtration rate, in rats, F312

Aquaporin

aquaporin-1, and outer medullary descending vasa recta volume efflux, F579, F587

aquaporin-2

exocytosis, by LLC-PK₁ cells, PKA phosphorylation and, F816
gene expression, F183, F443
recycling of, F183
regulation by vasopressin, F3, F183, F443

aquaporin-3

dehydration and, in renal collecting ducts, F235
immunolocalization of, in renal collecting ducts, F235
expression, during kidney development, in rats, F198

Arachidonic acid

and A-type potassium currents, in smooth muscle cells, C860
and cardiomyocyte contraction, H350
metabolism
and cell volume regulation, in Hep G2 cells, C1429
in endothelial cells, hypoxia and, H1426
metabolites

inhibitors, effects on responses to bradykinin, in rat hindquarters vascular bed, R631
pulmonary vascular effects, L573
vasoactive effect in pulmonary vasculature, L823
modulation of voltage-gated sodium channels, mechanism of, C592

Arginase

activity, and macrophage arginine metabolism, E181

Arginine

metabolism
in enterocytes of cortisol-treated pigs, G474
macrophage, differential regulation of, E181
and ovine fetal insulin secretion, E68
synthesis, in enterocytes of postnatal pigs, G1382

L-Arginine

and bleeding time in hemolysis, H2875

- dietary supplementation, effects on regional blood flow in Dahl rats, R1013
- labeled, for measurement of nitric oxide synthesis during acute phase response, R1888
- protective effect in aging kidney, R1768
- and reactivity of skeletal muscle arterioles, during chronic myocardial infarction, H2403
- reversal of nitric oxide synthase inhibition, in humans, F178
- transport, in hypoxic porcine pulmonary arterial endothelial cells, L78
- Arginine-glycine-aspartic acid (RGD) sequence**
- peptide containing, and integrin-mediated vasodilation, H2065
- Arginine vasopressin, see Vasopressin**
- Arginosuccinate synthetase**
- endotoxin-mediated induction of, in pulmonary endothelial cells, hypoxia and, L934
- Arrhythmias**
- ectopic focus, modulation of, H1759
- human atrial L-type calcium currents and, H227
- ionic mechanisms of, H236
- myocardial repolarization/conduction velocity measurement and, H1917
- reentrant, lidocaine and, H299
- sinus, in humans, H123
- ventricular, H1826
- Arteries**
- cerebral, *see Cerebral arteries*
- contractility
- endothelin-1 in, H2385
- and myosin isoform expression, C1532
- coronary, *see Coronary arteries*
- endothelin-1 gene expression in, H2385
- hydraulic conductivity, H2023
- injury, macromolecular transport in, H1560
- internal elastic lamina fenestrae, H2023
- intima
- compaction, H2023
- compressible, fiber matrix model for filtration in artery wall with, H2023
- lipid liposome growth in, modeling of, H1033
- matrix, H2023
- intrapulmonary, relaxation, postnatal maturation of, chronic hypoxia and, H2436
- large, compliance, in pregnant rats, H1260
- mesenteric
- ACh-induced relaxation in, H2306
- adrenergic responses in, vasopressin and, H1087
- developing myogenic contraction in, cytosolic calcium and protein kinase C in, H1165
- endothelium-dependent hyperpolarization in, H2306
- myogenic response, calcium-sensitive potassium channels and, H2241
- norepinephrine release in, nitric oxide and, H207
- organ culture, effects on myosin isoform expression, C1144
- repair, autocrine C-type natriuretic peptide in, H2919
- resistance
- adrenergic sensitivity, estrogen and, H2264
- chaotic vasomotion in, smooth muscle calcium stores and, H1696
- contractile properties of, myosin isoform expression and, C1144
- small
- developing myogenic contraction in, cytosolic calcium and protein kinase C in, H1165
- iloprost dilation of, H1147
- structure, in pregnant rats, H1260

- Cardiomyocytes**
 β_1 - and β_2 -adrenergic receptors, carbachol inhibition of, H2726
 angiotensin II secretion in, H953
 anoxic, cytosolic calcium, sodium, and pH in, H2679
 apoptosis, during transition to heart failure, in spontaneously hypertensive rats, H2313
 ATP-sensitive potassium channels
 alterations in heart failure, H1656
 modulation by adenosine, H325
 atrial
 secretory granule-associated GTPase in, C1594
 secretory pathway in, C1594
 basic fibroblast growth factor in, H958
 calcium channels in, inhibition by external cadmium ions, H2164

Cardiomyocytes (continued)

- calcium fluxes, in pressure-overload hypertrophy, H2425
- cell volume, endotoxin and, H2989
- chloride current component, induced by cardiac hypertrophy, H2500
- contractility
 - arachidonic acid and, H350
 - carnosine modulation of, H462
 - dysfunction, in diabetes, H148, H159
 - cytokine-activated, neutrophil adhesion to, inhibition by nitric oxide, H2807
- delayed rectifier potassium current, effects of intracellular magnesium on, H1292
- depolarization, swelling-induced chloride currents and, H1904
- development, regulation by 1,25-dihydroxyvitamin D₃, H1751
- DNA synthesis, in injured myocardium, H220
- effects of angiotensin II on, cardiac neurons involved in, R766
- electrogenic lithium/lithium exchange in, C1186
- excitation-contraction coupling in, H657, H2164, R1432
- frequency of calcium sparks in, H657
- gap junctional uncoupling, by 2,3-butanedione monoxime, C875
- from genetically engineered mice, single-cell phenotypes, H2513
- growth, regulation, in adult, H2902
- human atrial, L-type calcium currents in, H227
- human pediatric, preconditioning, adenosine and protein kinase C in, H1220
- hypertrophy, captopril and, H211
- inducible nitric oxide synthase in, functional significance of, H35
- intracellular calcium in
 - carnosine modulation of, H462
 - U-50488H effects on, pertussis toxin and, C560
- intracellular free zinc, oxidants and, H2095
- intracellular pH, and ischemic preconditioning, H544
- inward rectifier potassium channels in, development of, H1741
- L-type calcium channels
 - function, phospholamban and, H606
 - inactivation, mechanisms of, H1625
- lysophosphatidylcholine production in, thrombin activation of PLA₂ and, H1972
- mechanical behavior, myocardial infarction and, H360
- neonatal
 - cytokines and, H1937
 - effects of endothelin-1 on, H130
- opioid receptor interaction with β -adrenergic receptors in, H797
- oxidative injury, ATP and, H1598
- PLA₂ activity in, IL-1 β stimulation of, C450
- potassium channel expression, IGF-I regulation of, in neonatal rats, H2599
- proliferation and hypertrophy, regulation by 1,25-dihydroxyvitamin D₃, H1751

- protein kinase C- α expression, in adult rats, H2485
- rapid cooling contractures, hypertension and, C1000
- relaxin effects on, H1791, H1798
- sarcoplasmic reticulum, upregulation by TGF- β 1, H2639
- single, contractile activity, EMD-57033 and, C1586
- sodium/calcium exchange in, inhibition by external cadmium ions, H2164
- sodium-independent inward chloride pumping in, H735
- sodium pump, dietary cholesterol and, H1680
- sodium uptake and efflux, thyroid status and, H1589
- subcellular structure, psychological stress and, R776
- transient outward current in, H1
- ventricular
 - IL-1 β -induced inhibition of calcium current in, ceramide and, H2591
 - L-type calcium channels, in teleost fish, R1432
- volume, in pressure-overload hypertrophy, H2425

Cardiomyopathy

- dilated, in transgenic mice, H2513
- induced by cardiac G α overexpression, H585

Cardioplegia

- and myocardial concentration of amino acids, H1063

Cardioprotection

- see also **Ischemic preconditioning**
- and acute cardioadaptation to ischemia-reperfusion, in rats, R718
- by fumarate, in isolated rat heart, E74

Cardiopulmonary receptors

- and somatosensory influences on renal sympathetic nerve activity, in rats, R982

Cardiorespiratory oscillator

- in cats, R1314

Cardiovascular disease

- pathogenesis of, endothelin-1 in, H2385

Cardiovascular system

- and alerting reactions in rabbits, R208
- central regulation, in rats, R126, R731
- cod bradykinins and, R710
- deconditioning, in simulated microgravity, in rats, R570
- development, and antenatal maternal betamethasone, R1972
- exercise pressor reflex, in chicken, R759
- fetal
 - adaptation to long-term hypoxemia, in sheep, R201
 - response to angiotensin I infusion, R1912
 - response to sustained vasopressin elevation, R1069
- reflex responses to ischemia, H791
- regulation, H1866
- afferent renal nerves in, R1684
- response to feeding, in calves, R607
- stress response
 - baroreflex resetting and hemodynamics in, in rats, R1588
 - effects of central nitric oxide on, R1447
- Cardiovascular system identification**
 - autonomic blockade and, H448

Carnitine

- and coenzyme A profiles in rat liver, with hypoglycin inhibition of multiple dehydrogenases, E359

Carnitine palmitoyltransferase

- activity, during exercise, E1065

Carnosine

- modulation of cardiac intracellular calcium and contractility, H462

Carotid body

- α_2 -adrenoceptor-mediated inhibition in, in rabbits, C628

- receptors, hyperglycemic reflex, R392

Carotid sinus

- baroreceptors, and heart rate control, H2343

Cartilage

- fluid load, and proteoglycan synthesis, C1499

Catabolism

- cytokine-induced, mechanisms of, in rats, E333

- during sepsis, studies in rats, R849

- serum cortisol levels and, E476

Catalase

- expression, in experimental hydronephrosis, F789
- and sphincter of Oddi motility, in opossum, G1050

Catecholamines

- adrenal, response to vasoactive intestinal polypeptide, inhibition by PACAP-(6-27), in vivo studies in dogs, R1606
- and β_2 -adrenoceptor system in human airway epithelial cells, L916
- adrenomedullary
 - and ET_{A/B} receptor function, in vivo, R1290
 - and plasma renin levels during water deprivation, R1197
- central, in diet-induced obese rats, R1365
- chronic stress and, in rats, R813
- circulating, effects on renin secretion during hypoxia, R1105
- immunocytochemistry, in dogs, R821
- and insulin secretion, in mouse pancreatic islets, R1371
- lipolytic responsiveness to, in diabetes, E1130
- production, in response to neuroglucopenia, histaminergic contribution to, R1918
- secretion
 - endothelin-1-induced, and ET_{A/B} receptor function, in vivo, R1290
 - in response to endotoxin, studies in rats, R1525
 - and transient induction of lipoprotein lipase gene expression in human skeletal muscle, E255
- turnover, during fasting lipolysis, studies in rats, R656
- Cation channels**
 - cyclic nucleotide-gated
 - in airway epithelia, C911
 - cloning of, C1335
 - CNG1, C911, C1335
 - CNG2, C911, C1335
 - CNG3, C911, C1335
 - and sodium absorption in inner medullary collecting duct cells, C901
 - tissue distribution of, C1335

- hyperpolarization-activated, in rat pituitary cells, E405
 muscarinic receptor-evoked, in single ileal smooth muscle cells, effects of protons on, G215
 nonselective
 in airway myocytes, C341
 in *Drosophila* phototransduction, C27
 potentiation by hypotonic swelling, in guinea pig ileum, C231
- Cats**
 cardiac sympathetic premotor neurons in, R615
 coupled sympathetic and respiratory oscillators in, R1314
 exercise pressor reflex in, H48
 heart, papillary muscles, effects of angiotensin II on, H1131
 hindlimb vascular bed, response to CGRP or adrenomedullin, effects of adrenomedullin-(22-52) on, R234
 lower esophageal sphincter, intracellular calcium stores, and experimental esophagitis, G1523
 pulmonary vasculature, effects of PLA₂, 12-lipoxygenase, and cyclooxygenase inhibitors in, L573
 skeletal muscle
 contraction, ATP cost of, acidosis and, C485
 slow-twitch, control of respiration in, acidosis and, C491
 vasodilator responses
 to proadrenomedullin amino-terminal 20 peptide in, R1047
 to T-kinin, H1491
- CCAT/enhancer binding protein**
 and fetal intestinal differentiation, G534
- C/EBP, see CCAT/enhancer binding protein**
- Celiac artery**
 occlusion, reflex response to ischemia with, H791
- Cell-cell interactions**
 in airway inflammation, L888
 in alveolar epithelial cells, L1105
 and apoptosis of bronchial epithelial cells, L28
 in cardiomyocytes, C875
 in cell adhesion, L494
 electrical, in early ascidian embryo, C1445
 in endothelial cells, and differential regulation of connexins, C405
 endothelium-erythrocyte, in sickle cell disease, L597
 in epithelial cell inhibition of mast cell degranulation, L1181
 fibroblast-epithelial cell, L619
 in kidney development, F79
 in neutrophil-endothelial adhesion, L418
 in neutrophil-epithelial adhesion, cAMP and, L580
 in nonspecific airway reactivity, in mice, L1053
 and proliferation of type II alveolar cells, L394
 in pulmonary inflammation, L1070
 and regulated expression of membrane-bound leukocyte elastase on neutrophils, L385
 in RSV-infected airway epithelial cells, L512
- in type II pneumocyte recruitment of monocytes, L830
 in vascular endothelial cell response to leukocyte/platelet activation, L608
- Cell cycle**
 see also **Mitogenesis**
 endothelial cell, hypoxia and, C1700
 nitric oxide and, in smooth muscle, H1810
 plasma membrane calcium ATPase and, in vascular smooth muscle, C1947
- Cell death**
 in hepatocytes, C1286
 programmed, see **Apoptosis**
- Cell differentiation**
 of adipocytes, C937
 in gastrointestinal epithelium, C957
 inwardly rectifying potassium channels and, C894
 MDCK cell, MAP kinases and, C383
 renal, growth factor/receptor axis and, F222
 signal transduction by Gα₁₂ protein and, F273
 smooth muscle, endothelial cell-conditioned medium and, C582
- Cell membrane, see Membrane**
- Cell migration**
 see also **Chemotaxis**
 smooth muscle cell, T cell lymphokines and, C392
 vascular cell, in tunica media of canine vessels, C847
- Cell morphogenesis**
 of adipocytes, C937
- Cell proliferation**
 in airway smooth muscle, synergism of endothelin-1 and epidermal growth factor in, C1492
 EGF-induced, in renal vascular smooth muscle, C1836
 endothelial cell, nitric oxide and, H760
 in gastrointestinal epithelium, C957
 opioid growth factor and, R1094
 in kidney development, F640
 MDCK cell, MAP kinases and, C383
 in muscle, volume-activated chloride currents during, C667
 smooth muscle, C582
 nitric oxide and, H1810
 vascular smooth muscle
 estrogen and, H1996
 G protein-coupled receptors and, C2019
 regulation by plasma membrane calcium ATPase, C1947
- Cell shrinkage, see Cell volume**
- Cell swelling, see Cell volume**
- Cell viability**
 of human pediatric cardiomyocytes, H1220
- Cell volume**
 in cardiomyocytes
 effects on chloride current in, H1904
 endotoxin and, H2989
 changes, measurement of based on fluorescence quenching, C1405
 imaging, in chondrocytes in situ, C1040
 and proteoglycan synthesis in intervertebral disk, C1499
 regulation
 see also **Osmoregulation; Regulatory volume decrease; Regulatory volume increase**
- ATP-sensitive taurine channels and, C1429
 in corneal endothelium, C1405
 in C6 rat glioma cells, C318
 in distal nephron cell line (A6), C1890
 in glial cells, C1968
 in MDCK cells, C804
 by mouse zygote, C1854
 in NIH/3T3 cells not expressing P-glycoprotein, C1798, C1804
 organic osmolyte/anion channel VSOAC and, C1766
 in trout erythrocytes, C1099
 in *Xenopus* oocytes, C191
- Central nervous system**
 see also **Brain**
 cardiovascular oscillator, in humans, H123
 in febrile response, in guinea pigs, R675
 infectious disease of, metabolic and endocrine function during, R1880
 lymphatic drainage of, in sheep, R1613
- Ceramide**
 bombesin-stimulated production, and MAP kinase activation in intestinal smooth muscle, G1615
 and IL-1β-induced inhibition of calcium current in ventricular myocytes, H2591
- Cerebral arteries**
 calcium sensitivity, H2271
 contractility, traumatic brain injury and, H1406
 histamine-evoked membrane currents in, H638
 nitric oxide and potassium channels in, H256
 norepinephrine receptor-second messenger coupling, in altitude-related acclimatization, R669
 occlusion, infarct size with, basic fibroblast growth factor and, H1401
 physiological variations in, in sheep, H2271
- Cerebral blood flow**
 capillary flow heterogeneity, after blood exchange, H1833
 dexmedetomidine and, H2547
 epinephrine and, H1666
 and glucose metabolism
 epinephrine and, H1666
 uncoupling after brain injury, H2859
 neuronal nitric oxide synthase and, H1315
 postischemic, alkalosis and, H2557
 regional, basic fibroblast growth factor and, H1401
 response to hypercapnia, neuronal nitric oxide synthase and, H559
- Cerebral infarct**
 reduction, by basic fibroblast growth factor, H1401
- Cerebral vasculature**
 α₁-adrenergic receptors, high altitude-induced changes in, R669
 inositol 1,4,5-trisphosphate receptors in, R1954
 inositol 1,4,5-trisphosphate responses in, high altitude-induced changes in, R669
- Cerebrospinal fluid**
 drainage, in sheep, R1613
 protein transport to plasma from, effects of lymphatic diversion/ligation on, studies in sheep, R1613

Cerebrospinal fluid (*continued*)

secretion, C1899
sodium in, and postprandial drinking,
in sheep, R1055

Cervical cells

paracellular resistance, regulation of,
C511
paracellular transport, regulation of,
C1602

Cesium ions

cesium-133, as active potassium analog
for NMR spectroscopy, C1618,
C1635

cGMP, *see* **Guanosine 3',5'-cyclic monophosphate****Channel-inducing factor**

gene expression, differential regulation
by potassium intake and aldosterone,
F617

Chaos theory

and nonlinear dynamics in heart rate
variability, R1149

Chaperonins

and mitochondrial biogenesis, H2983

Charybdotoxin

and arterial chaos, H1696
effects

in rat lung, L787

on spontaneous activity of guinea pig

ileum longitudinal muscle, G962

and myogenic response in mesenteric
arteries, H2241, H2306

Chemical biopsy

in tracing liver metabolism, E51

Chemokines

see also **RANTES**

C-C, regulation of HIV-1 replication in
macrophages, L1025

in immobilization of rolling neutrophils,
H114

synthesis of, in human epidermal keratinocytes,
C1988

in upper respiratory disease, L512

Chemoreceptor reflexes

carotid, respiratory effects of, NMDA
receptors in phrenic nucleus and,
R302

central angiotensin and, in rabbits,
R1816

Chemoreceptors

carotid body, hyperglycemic reflex, R392

in heart failure, very low frequency

rhythms and, H438

peripheral, in rats, R1135

and urinary bladder, in rats, R695

Chemoreflexes

carotid, and 5-HT₃ receptors in nucleus
of solitary tract, H1250

coronary, nicotine-evoked, somatic component of,
H827

muscle, latency of, H1981

Chemotaxis

monocyte, and chemoattractant release
by type II pneumocytes, L830

neutrophil, in neonatal acute pulmonary
inflammation, L471

Chest pain

esophageal, age-related changes in,
intraesophageal balloon distension
studies, G1

Chickens

food intake in, cholecystokinin and,
R334

gastrocnemius muscle, static contraction of,
pressor response to, R759

jejunum, basolateral hexose transport
in, R1330

renal proximal tubules, intracellular pH
regulation in, R341

rhythmic oscillating complexes in gastrointestinal tract of,
and motilin,
G916

Chloride/bicarbonate exchange (exchanger)

in autosomal dominant polycystic kidney
disease, C1748

electroneutral, in teleost kidney, R1143
in intrahepatic biliary tree, G1064

in isolated pancreatic ducts, of guinea
pig, G124

in *Xenopus* oocytes, C1232

Chloride channels

see also **Chloride currents**

activation of, by psoralens, C976

in bovine pancreatic duct epithelial
cells, G1328

cGMP-gated, in airway epithelia, C911

ClC-K, renal distribution of, F678

in cortical collecting duct cells, cAMP
and, C657

glycine-gated

in Kupffer cells, G1581

synthetic peptide developed from, and

epithelial fluid secretion, C1672

intracellular calcium-activated, in skeletal
muscle sarcoplasmic reticulum,
C324

in mouse choroid plexus epithelial cells,
C1899

in NIH/3T3 cells not expressing P-glycoprotein,
C1798, C1804

in pancreatic duct epithelial cells, characterization,
G172

in regulatory volume decrease, in NIH/3T3
cells, C1798, C1804

synthetic, and epithelial fluid secretion,
C1672

voltage-gated, ClC-2, C778

Chloride currents

see also **Chloride channels**

calcium-activated, in regulation of pulmonary
vasomotor tone, L959

in cardiac hypertrophy, H2500

in human lung epithelial cells, nitric
oxide and, L1098

inward, sodium-independent, in cardiomyocytes,
H735

outwardly rectifying, in endocardial endothelial
cells, H1770

receptor-mediated calcium-dependent,
inhibition by inositol tetrakisphosphates,
C1160

swelling-induced, effects on atrial electrophysiology,
H1904

voltage-activated, osmosensitivity of,
C778

volume-sensitive

downregulation during muscle differentiation,
C667

in pigmented ciliary epithelial cells,
C212

Chloride ions

conductances

in lactotrophs, C1178

in renal proximal tubule S3 segment,
C837

in T84 cells, C1222

and contraction of renal afferent arterioles,
F389

and endocardial endothelial cell resting
membrane conductance, H1770

excretion, in salt-depleted rats, F538,
F545

intracellular, in cell volume regulation,
C1766

molecular sieving of, in outer medullary
descending vasa recta, F587

and potassium-induced aldosterone secretion,
in bovine glomerulosa cells,
R183

secretion

in Caco-2 cells, purinergic receptors
and, C1862

colonic, neural reflex pathways for,
G238

in cultured human airway epithelium,
extracellular ATP and, L1084

in cystic fibrosis, L690

epithelial, F-actin and, C254

G proteins and, C794

regulation of, C1069

in shark rectal gland cells, C466

transepithelial, synthetic peptide
from glycine receptor and, C1672

transport

in epithelial cells, C1058, C1672

in *Xenopus* oocytes, C1232

Chlorothiazide

and intracellular chloride in cardiomyocytes,
H735

Cholangiocytes

apoptosis, development and application
of in vitro model of, G106

basolateral membranes, bile acid transport by,
G1416

heterogeneity, G1064

in intrahepatic biliary ductal system,
molecular and functional heterogeneity
after bile duct ligation, G289

sodium-dependent glucose transporter
in, in rats, G1168

Cholecystokinin

actions

on area postrema neurons, in rat
brain slices, R1625

in cholelithiasis, intracellular pathways for,
G838

on gastric acid secretion, before and
after vagotomy, in dogs, G1236

on pancreatic microcirculation, G310
and pancreatic secretion, in dogs,
G1550

on phospholipase C- β isoenzymes, in
rat pancreatic acinar membranes,
G135

on p90^{msk}, in rat pancreatic acini,
G401

in sphincter of Oddi ganglia, G1365

disruption of migrating myoelectric
complex, vagal afferent fibers and,
G100

and food intake

in chickens, R334

vagal afferent and efferent contributions to,
R1245

gallbladder responsiveness to, mechanisms of,
G770

gastric vagal afferent response to, in
rats, R1726

regulation of monitor peptide mRNA
expression in pancreatic acinar
cells, G794

Cholecystokinin receptors

see also **Gastrin/CCK-B receptors**

CCK-A, in sphincter of Oddi, activation by cholecystokinin, G1365
cellular handling of, G488
immunolocalization of, G488
and protein-induced food intake suppression in rats, R1826
vagal, G100

Cholelithiasis

cholecystokinin actions in, intracellular pathways for, G838
pathophysiology of, G770

Cholera toxin

and endosome acidification, C1123
and glucose transport in skeletal muscle, E7

Cholestasis

hepatocyte Bcl-2 expression in, G1587
hypothalamic nitric oxide synthase in, in rats, G1034
liver injury in, G1109

Cholesterol

biliary, quantitation by mass isotope distribution analysis, G367
blood/serum levels, see **Hypercholesterolemia**
dietary, and sodium pump function in cardiomyocytes, H1680
feeding, and renal hemodynamics in rabbits, R940
plasma, quantitation by mass isotope distribution analysis, G367
synthesis, quantitation by mass isotope distribution analysis, G367

Choline acetyltransferase

antiserum, L731
as marker for cholinergic nerves, in airways, L731

Cholinergic nerves

control of mouse small intestinal longitudinal muscle, IL-4 and, G1135
excitatory, in anorectal smooth muscle, G1075

Chondrocytes

activity, and fluid load, C1499
epiphyseal, oxygen status of, C1134
four-dimensional imaging of, in situ, C1040
intracellular calcium, extracellular adenosine nucleotides and, C1611
volume imaging of, in situ, C1040

Chorda tympani nerve

and sugar taste discrimination, studies in rats, R1210

Chorion

prostaglandin-endoperoxide H synthase-2 expression and activity in, peripartum, in humans, E832

Choroid

prostanoid receptors in, vasomotor effects, regulation, studies in newborn pigs, R995
prostanoids in, vasomotor effects, regulation, studies in newborn pigs, R995

Choroid plexus

sodium-potassium-two chloride cotransporter BSC2 expression in, C173

Chromaffin cells

adrenergic, C476
exocytosis, caffeine-sensitive calcium store and, C1211
noradrenergic, C476

subpopulations, calcium channel types in, C476

Chronic mountain sickness

development of, menopause and, R90

Chronic obstructive pulmonary disease

viral protein in, and synthesis of inflammatory cytokines, L1046

Chronotropism

cardiac, angiotensin II and, cardiac neurons involved in, R766

Chrysemys picta belli, see **Turtle****Chylomicrons**

and synthesis and secretion of intestinal apo A-IV, in rats, R1170

Chymotrypsin

secretion, trypsin inhibitor complexes and, G340

Cilia

primary, of renal epithelial cells, bending behavior of, F132

Ciliary beating

frequency, muscarinic signaling and, L301

Ciliary epithelium

of eye, volume-sensitive chloride current in, C212

Ciona intestinalis

zygotes, gap junctional units expressed in, C1445

Circadian pacemaker

development of, in rats, R1039
in female Japanese quail, R172

Circadian rhythms

see also **Diurnal rhythms**

of activity, aging and, in hamsters, R509
in seasonally changing environment, R1219

of body temperature, melatonin and, R1178

in night workers, R948

environmental effects on

in Siberian hamsters, R887

in Syrian hamsters, R1219

manifestation, under constant light, and lighting conditions during lactation, in rats, R1039

of motor activity, and T4 light/dark cycles, studies in rats, R95

and nocturnal bright light stimuli, melatonin effects on, R482

phase advance, melatonin and, R1178, R1189

serotonergic control of, aging and, in golden hamsters, R509

Circulation

magnesium and, in newborn piglets, H511

collateral, response to serotonin, H2409

coronary, and myocardial water balance, H706

fetoplacental, nitric oxide and, studies in mammals, R441

integrated regulation of, during dynamic exercise, H1157

maternal, physiological adaptation to pregnancy, nitric oxide in, studies in mammals, R441

mesenteric, nitric oxide and, G612

peripheral, response to heat stress, aging and, H1609

pulmonary

adenosine infusion and, in sheep, H921

dipyridamole infusion and, in sheep, H921

hepatic cirrhosis and, in rats, L139
in neonatal acute pulmonary inflammation, L471

nitric oxide in, in fetal pulmonary hypertension, L1005, L1013

norepinephrine release in, adenosine and, H1100

persistent endothelial nitric oxide synthase in, during development, L969

regional perfusion parameters, H1537

splanchnic

ischemia in, reflex response to, H791
regulation of, H99

systemic

acute liver injury and, G617

adenosine infusion and, in sheep, H921

dipyridamole infusion and, in sheep, H921

uteroplacental, nitric oxide and, studies in mammals, R441

Cirrhosis, hepatic

pulmonary capillary changes in, in rats, L139

Citrate

and malonyl-CoA regulation in skeletal muscle, E641

Citrate synthase

muscle activity, adaptation to endurance training, role of diet in, R1620
tissue, and dietary obesity in rats, R188

Citric acid cycle

flux

estimates, from NMR- and GC-NMS-determined [^{13}C]glutamate isotopomers, C2049

kinetic model for, C2037

and gluconeogenesis, E476

intermediates, in human muscle, at rest and during exercise, E239

pyruvate entry into, and lipogenesis in tumors, E945

in rat model of polycystic kidney disease, F63

tracing, using labeling pattern of liver glutamate, E51

Citrulline

synthesis of, in enterocytes of postnatal pigs, G1382

c-Jun

gene expression, in intestinal cells, stimulation by glutamine, G943

Clara cells

γ -glutamyltransferase production, L739

Clara cell secretory protein

10-kDa (CC10)

anti-inflammatory effects, L1142

gene expression, IFN- γ regulation of, L1142

Clenbuterol

- and myogenin expression, in immobilized rat muscles, E941
- scoliosis reduction by, in spinal-cord-injured rat, mechanisms of, E712

cMOAT, see Canalicular multispecific organic anion transporter

CNT, see Nucleoside transporter, concentrative

Cod

- bradykinins, R710

Cold stress

- physiological response to, and low- and high-intensity walking, R2025

Colitis

- experimental
 - anaerobic bacteria in, G10
 - neural mechanisms in, G272
- stress-induced enhancement, in rats, G84

Collagen

- in combustion particle-induced chronic lung injury, L521
- extracellular matrix, degradation, in bovine pulmonary microvascular endothelial cells, L813
- fiber orientation, in myocardial scar, functional implications of, H2123
- in hepatic fibrogenesis induced by chronic dietary iron overload, G116
- myocardial, during progression of left ventricular hypertrophy, H2416
- type 1, osteoblastic synthesis of, extracellular pH and, C1450

Collagenase/gelatinase, see Matrix metalloproteinase

Collectins, see Surfactant proteins

Colon

- distal, hydrogen-potassium ATPase in, regulation by dietary sodium and potassium depletion, C685
- electrolyte transport in, regulation of, G1338
- flora, gas production, G1028
- folate transport in, G1408
- gas production, physiology, G1028
- hydrogen and potassium ion fluxes across, G54
- hydrogen-potassium ATPase in, chronic hypokalemia and, in rats, F22
- hypoxia-induced damage in, in newborn, G760
- mechanosensory afferent input to superior mesenteric ganglion, in mice, G357
- motility
 - in inflammation, effects of tachykinins on, G1607
 - somatostatin and, G689
- proximal
 - smooth muscle morphology and function, maintenance in organ culture, G669
 - sodium absorption in, in rabbits, G435
- secretory reflexes, substance P and, G238
- smooth muscle
 - A-type potassium channels in, arachidonic acid and, C860
 - IGFBP and IGF-I receptor expression in, G482
 - somatostatin receptors in, G689
 - sodium transport proteins in, aldosterone and, C1482

- surfactant-like particles in, isolation and characterization of, G425

Colonic carcinoma cells

- mucin secretion, protein kinase C- ϵ and, G31

Colonic cells

- T84, ionic conductances, complex activation by G proteins, C1222

Comparative Nutrition Society

- formation of, E1145

Compartmental model

- of glucose kinetics in interstitial fluid, E494

Complement

- C5a, effects on isolated coronary arteries, H12

Congenital diaphragmatic hernia

- lung hypoplasia with, in mice, L362
- prenatal hormonal modulation with, in rats, L1059

Congenital heart disease

- in transgenic mice, H2513

Congestive heart failure, see Heart failure

Connexins

- in endothelial cells
 - Cx37, C117, C405
 - Cx40, C117
 - Cx43, C117, C405
- in gap junctions, C117, C405
- gene expression, in alveolar epithelial cells, L1105

Copper, dietary

- deficiency, hepatic fatty acid synthase gene transcription in, E1124

Copper ions

- intracellular pools, in rat hepatocytes, characterization of, G1400
- transport, intracellular, in rat hepatocytes, G1400
- uptake, in rat hepatocytes, G1400

Copper-zinc superoxide dismutase

- deficiency, in asthmatic airway epithelium, L148

Coronary angioplasty

- ischemia during, cardiac sympathetic response to, H2079

Coronary arteries

- isolated, effects of C5a on, H12
- smooth muscle, estrogen-induced relaxation of, via nitric oxide and cGMP, H2765
- surgery, amino acids and, H1063
- vasoreactivity, hypoxia-induced hyperpolarization and, H1462

Coronary artery disease

- see also Arteriosclerosis; Atherosclerosis
- myocardial blood volume changes in, H567

Coronary blood flow

- see also Coronary arteries
- cardiac contraction and, H1516
- intramyocardial pressure and, H2320

Coronary vasculature

- reactivity, ovarian steroid modulation of, H2645
- ventricular contraction and, H2963

Coronary vasospasm

- drug-induced, calcium release mechanism of, H2645

Corticosteroids

- inhalation, effects on copper-zinc superoxide dismutase deficiency in asthmatic airway epithelium, L148

- prenatal application, modulation of lung histology and antioxidant enzymes, in rats, L1059

Corticosterone

- activation of ubiquitin pathway, in rat skeletal muscle, C1007
- and myocardial infarct size, in rats, R2017
- and osmotically stimulated vasopressin release, from hypothalamic-neurohypophyseal explants, R158
- plasma, response to infection, studies in rats, R1562
- reflex control of, angiotensin II infusion and, in rabbits, R487
- in stress response, in calorically overloaded rats, R840

Corticotropin-releasing factor

- cardiac effects of, H2115
- and experimental colitis, studies in rats, G84
- meal-related changes in, R268
- in medial preoptic area, R311

Corticotropin-releasing hormone

- brain-to-blood transport of, acute modulation of, E312

Cortisol

- plasma/serum levels
 - and gluconeogenesis, E476
 - and sodium-dependent hypertension in dogs, R1162
- in regulation of arginine and glutamine metabolism in enterocytes, G474
- secretion, in lactate-induced panic attacks, H2630

Cotransport inhibitory factor

- in inbred Dahl rats, F356

Coturnix coturnix japonica, see Japanese quail

Coxsackievirus B3

- myocarditis, interstitial fibrin deposition in, captopril and, H211

CP 96,345

- injection into dorsal vagal complex, gastric acid response to, G987

C-peptide

- serum levels, effects of IGF-I infusion on, E352

C protein

- phosphorylation, in phospholamban-knockout mouse hearts, H785

Creatine

- in contracting skeletal muscle, GLUT-4 concentration and, E118

Creatine kinase

- activity, in muscle bioenergetics, C1739
- cardiac, adaptation to altitude, H1690
- isozymes, in trained heart, H409
- in metabolic support of sodium pump, C697
- mitochondrial
 - in guinea pig myometrium and heart, C399
 - human ubiquitous form of, in liver of transgenic mice, C1193
 - in liver of transgenic mice, C1193
- in regulation of brain ATP metabolism, C1567

Creatine phosphate

- in contracting skeletal muscle, GLUT-4 concentration and, E118

- Cremaster muscle**
leukocyte rolling in, P-selectin and, in mice, H1725
- CRIP**, *see* **Cysteine-rich intestinal protein**
- Cromakalim**
and coronary arterial diameter, in hypoxia, H1462
- Cross-bridge kinetics**
in single cardiomyocytes, EMD-57033 and, C1586
and skeletal muscle contraction, in frogs, C1664
- Cryobiology**
of wood frog, R1480
- Cryogen**
endogenous, in mice, R563
- Cryptdin**
gene expression, in developing mouse small intestine, G197
- C-type natriuretic peptide**
autocrine, in arterial repair, H2919
and cGMP accumulation in renal cells, PKA effects on, C82
- Cyanide**
and pulmonary endothelial thiazine uptake, L673
- Cyclic ADP-ribose**
in sea urchin gametes, C416
- Cyclic nucleotides**
see also **Adenosine 3',5'-cyclic monophosphate; Guanosine 3',5'-cyclic monophosphate**
in active thermoregulatory vasodilation, R975
in intracellular signaling, for growth regulation by serotonin, L795
- Cyclin D₁**
in airway smooth muscle growth, L1205
- Cyclooxygenase**
see also **Prostaglandin endoperoxide G/H synthase 2**
COX-1, localization in human kidney, F460
COX-2, localization in human kidney, F460
COX II, gene expression, silica-induced, in alveolar macrophages, nuclear factor- κ B in, L779
in endotoxin-induced fever, in rats, R1712
gene expression, in rat brain, fever and, R1712
inhibition, effects of
on cardiovascular and renal actions of vasopressin, in rats, R370
in feline pulmonary vasculature, L573
on responses to bradykinin, in rat hindquarters vascular bed, R631

in cholangiocyte apoptosis induced by beauvericin, G106
- Cysteine-rich intestinal protein**
immunohistochemical localization, in rat small intestine, G751
- Cystic fibrosis**
airway glandular defect in, model for, L372
and bicarbonate conductance in human airway epithelia, L752
chloride conductance in, and potassium conductance, L1084
chloride transport in, C1160
mouse model
airway mucociliary clearance and inflammation in, C853
colonic sodium absorption in, G393
pancreatic pathology in, G172
serous cell secretion in, Calu-3 cells as model for, L690
- Cystic fibrosis transmembrane conductance regulator**
bicarbonate conductance, in human airway epithelia, L752
in Caco-2 cells, as chloride ion exit pathway on apical membrane, C1862
chloride channels
dephosphorylation of, C142
modulation by calyculin A and genistein, C142
chloride secretion independent of, L1084
and colonic sodium absorption, G393
in cortical collecting duct cells, cAMP and, C657
in duodenal epithelial bicarbonate secretion, G872
dysfunction, F434
in epithelial cells, C1058
epithelial sodium channel regulation by, actin in, C1077
in fetal rat lung, regulation by sex hormones, L844
gene expression
in mouse, C1899
in pancreatic cells, G1328
selective, in transport biliary epithelia, G289
in thyroid epithelium, C1299
gene mutation, and airway mucociliary clearance and inflammation in transgenic mice, C853
and intracellular pH regulation, C1642
openers, psoralens as, C976
in pancreatic duct epithelial cells, characterization, G172
in respiratory epithelium, C131
in serous cells of airway submucosal glands, L690
- Cytochrome a**
myocardial, in mammalian heart, H769
- Cytochrome P-450**
products, and pulmonary vascular tone, L823
- Cytokines**
in acute phase response to inflammation, studies in mice, R563
and adenyl cyclase activity, in airway smooth muscle cells, L644
and brain-to-blood transport of corticotropin-releasing hormone, E312
and calcium current in ventricular myocytes, H2591
and CD14 regulation in bronchoalveolar macrophages, L925
control of neutrophil phagocytosis, C1352
effects on sleep and serotonin metabolism, studies in rats, R601
and febrile response
in guinea pigs, R675
with peripheral lipopolysaccharide, studies in rats, R857
with tissue inflammation, studies in rats, R862
- gene expression**
during chronic toxoplasmosis, E908
by hepatic macrophages, role of iron in, G1355
in hepatic inflammation, G207
hepatic injury induced by, mechanisms of, G727
host wasting induced by, mechanisms of, in rats, E333
immune response to, in lactating females, studies in rats, R16
and inducible nitric oxide synthase expression in skeletal muscle cells, C35
induction
by central lipopolysaccharide, α -adrenoceptor mechanism for, R1880
by peripheral lipopolysaccharide, and febrile response, studies in rats, R857
inflammatory, synthesis, adenovirus E1A and, L1046
in inflammatory bowel disease, and electrolyte transport in distal colon, G1338
in intestinal epithelial cells
and inducible nitric oxide synthase gene regulation, G1499
regulation of fibroblast growth factor receptor 3 IIb, G885
knockout mice, sickness behavior in, R621
and leukocyte rolling in arterioles, H1725
lung, in murine model of AIDS, L699
lung-specific gene therapy with, L852
and neonatal cardiomyocytes, L1937
neural-immune interaction and, R1966
production
in LPS-induced pulmonary vascular injury, prevention by activated protein C, L197
by THP-1 monocytes, regulation by SPA, L996
in zinc-deficient humans, E1002
proinflammatory, and surgery in patients with obstructive cholestasis, G1034
pulmonary epithelial cell damage due to, nitric oxide and, in mice, L707
and regulated expression of membrane-bound leukocyte elastase on neutrophils, L385
release, antigen-induced, inhibition by IL-4 receptor blockade, in mice, L253
and sodium-potassium-two chloride cotransporter in cerebral microvessels, C1829
and splenic vasoconstriction, in rats, R2048
- Cytoskeleton**
and anoxic plasma membrane disruption in renal cells, C1319
in ATP-depleted renal epithelia, C439
disruption, in smooth muscle, C1960
and epithelial chloride secretion and Na-K-2Cl cotransport, C254
in intestinal subepithelial myofibroblasts, C1513
ischemic alterations, pathophysiology of, F430

Cytoskeleton (continued)

- mechanics, in confluent epithelial cells, C1654
- in proximal tubule cells, C1680
- protective effects of heat stress on, F347
- and regulation of albumin endocytosis, in opossum kidney cells, F668
- in regulation of epithelial sodium channels by CFTR, C1077
- of renal epithelial cells, F214, F425

D**Dahl rats, see Rats, Dahl****Deer mice**

- female, immune function, effects of photoperiod and metabolic stress on, R1762

Defensins

- and IL-8 in airway epithelial cells, L888

Deferoxamine

- and nitric oxide-induced hyperpermeability in intestinal epithelial cells, G923

Deglutition, see Swallowing**Dehydration**

- and aquaporin-3 in renal collecting ducts, F235
- aquaporin trafficking in, F183
- effects on tyrosine hydroxylase and norepinephrine transporter, in rat adrenal gland, R1897
- fibrinogen upregulation by freezing and, in wood frog, R1480
- fluid intake during, in humans, R1740
- in older adults, R148
- and renal distribution of ClC-K chloride channels, F678

Denervation

- baroreceptor, effects on blood pressure, in dogs, R2034
- cardiopulmonary receptor, effects on blood pressure, in dogs, R2034
- of external anal sphincter
- fecal incontinence with, G698
- myosin isoform shift with, G698
- renal, and hemorrhage-induced vasopressin release, in NTS-lesioned rats, R1540
- sinoaortic baroreceptor
- and cardiovascular response to stress, in borderline hypertensive rats, R1588
- and hemorrhage-induced vasopressin release, in NTS-lesioned rats, R1540
- sympathetic, chemical, in rats, E227

2-Deoxy-D-glucose

- intracerebroventricular administration, in dogs, R1918
- metabolic response to, histaminergic contribution to, R1918

Desmin

- and airway smooth muscle hypertrophy induced by mechanical stress, L20

Detrusor-sphincter dyssynergia

- cold stimulation and, in rats, R1271

Devazepide

- and protein-induced food intake suppression, in rats, R1826

Development

- adrenal gland, in AT_{1B} deletion mutant (*Agtr1b* $-/-$) mice, F299
- brain, in sheep, R1235

cardiomyocyte, regulation by 1,25-dihydroxyvitamin D₃, H1751

cardiovascular system, and antenatal maternal betamethasone, R1972

and cerebrovascular response to high-altitude hypoxia, R669

gastric myoelectrical activity and, G1022

gastrointestinal tract

IGF-I and IGF-I peptides and, G522

milk-borne IGF-I and, in neonatal rat, R1532

heart

protein kinase C isoform expression during, H1636

ζ -opioid receptors in, R1841

and inositol 1,4,5-trisphosphate receptors in cerebral vasculature, R1954

kidney, *see* **Kidney, development**

lung, *see* **Lung, development**

metanephric, angiotensin II receptor expression during, R662

milk-borne IGF-I and, in neonatal rat, R1532

pancreatic, impairment, in undernourished rats, E634

postnatal, muscle glucose uptake during, in rats, E446

salivary gland, P2Y₁ nucleotide receptors in, C1388

skeletal muscle, in rats, R1461

stomach, in normal and transgenic mice, G1209

Dexamethasone

maternal treatment with, effects on pulmonary Na-K-ATPase, in fetal rats, L665

prenatal application, modulation of lung histology and antioxidant enzymes, in rats, L1059

Dexmedetomidine

and cerebral blood flow, H2547

Dextran

and skeletal muscle microvascular damage in ischemia-reperfusion, H1710

Dextrose

vs. amino acid availability, and protein flux after metabolic stress, E36

Diabetes mellitus

autonomic neuropathy in, and heart-beat variability, H1094

and cardiac thyroid hormone receptors, E856

complications of, effects of pioglitazone on, in rats, E989

and contractile dysfunction in cardiomyocytes, H148, H159

erectile dysfunction in, H1960

gestational, insulin-treated, oxidative metabolism in, E1099

insulin-dependent (IDDM)

lipolytic responsiveness to epinephrine in, E1130

metabolic adaptation to protein restriction in, E59

maternal, embryonic metabolism and, in rats, E173

metabolic control in, studied using euglycemic and hypoglycemic insulin clamps, E530

mouse model, *see* **Mice, diabetic (db/db)**

non-insulin-dependent (NIDDM)

intestinal flow-mediated regulation in, H728

irregular insulin secretion in relatives of patients with, E218

lactate production associated with, studies in pigs, E957

rat model, phosphoinositide metabolism in pancreatic islets of, E737

and poor early growth, association between, G1083

rat model

central neuropathy in, and sexual dysfunction, R259

erectile physiology in, H1960

gastric smooth muscle in, electrophysiological properties, G77

glucose-lowering effects of vanadium in, E30

impaired canalicular glutathione transport in, G374

phosphoinositide metabolism in pancreatic islets of, E737

Diacylglycerol

production, in stretched endothelial cells, C650

turnover, in resting skeletal muscle, functional differences by fiber type, E340

Diamsar

and intracellular copper transport, in rat hepatocytes, G1400

Diaphragm

contractility

oxidative stress and, in aging rat, E201

in transgenic *mdx* mice, C2063

electrical properties of, in dystrophic mice, C333

microcirculation

flow in, during hemorrhagic hypotension, H272

salbutamol-induced vasodilation in, H2173

Diarrhea, secretory

pathophysiology of, C254, C931

zinc supplementation and, G972

2,5-Di-tert-butylhydroquinone

and cardiac muscle contractility in rats, H1001

DIDS

activation of NHE4, C90

and intracellular chloride in cardiomyocytes, H735

and intracellular pH regulation in turtle heart, R6

and taurine transport in rat erythrocytes, C1457

Diet

see also **Food intake**

and adenylyl cyclase inhibitory pathway in white and brown adipose tissue, in rats, E1043

high-fat, tissue enzymatic profile and, in rats, R188

and muscle enzyme activity, in endurance-trained humans, R1620

protein-deficient, nitrogen salvage by liver and, G257

self-selection, in inbred mouse strains, R357

Digestion

gastric phase, gastric acid secretion during, effects of hyperglycemia on, G1116

regulation of, in humans, G632

Digestive system

meal size effects on, in python, R902

Dihydropyridine receptors

binding of perchlorate and BAY K 8644 to, and calcium release from sarcoplasmic reticulum, C41
and inotropic response to calcium, in hypoxic fetal sheep, H1196
 α_1 -subunit, carboxy-terminal peptide of, inhibition of calcium-release channels, C1475

Dihydropyridines

and aldosterone secretion in pregnancy, E18

1,25-Dihydroxyvitamin D₃

see also **Calcitriol**
biosynthesis, IGF-I and, during low-P diet, in rats, F698
and myosin isoform expression in arteries, C1144
regulation of cardiomyocyte proliferation and hypertrophy, H1751

4,4'-Disothiocyano stilbene-2,2'-disulfonic acid, see DIDS

Dimethylsulfide

in flatus, G1028

4,4'-Dinitrostilbene-2,2'-disulfonic acid, see DNDS

Dipalmitoyl phosphatidylcholine

pulmonary synthesis of, acidic calcium-independent phospholipase A₂ in, L238

Dipyridamole

infusion, effects on pulmonary and systemic circulation, in sheep, H921

Disulfides

reactive, effects on cardiac ryanodine receptor calcium-release channels, C1908

Diuresis

in conscious monkeys, R1033
epidermal growth factor-induced, in rats, R1853
in fetal sheep, angiotensin I-induced, R1912

Diurnal rhythms

of human plasma melatonin, mathematical model of, E506

Diving reflex

mammalian, R586

DNA

damage, and early cytotoxicity after oxidant injury, in LLC-PK₁ cells, F729
synthesis
in human endothelial cells, adenosine-stimulated, H1470
in injured myocardium, H220
nitric oxide and, H1342
unit size, in avian skeletal muscle growth, C565

DNDS

and taurine transport in rat erythrocytes, C1457

Dogfish, see Spiny dogfish

Dogs

adrenal catecholamine response to VIP, inhibition by PACAP-(6-27), studies in vivo, R1606
autonomic nervous system, nitric oxide and, H263
awake, gastric emptying in, measurement of, G909
Basenji-greyhound, muscarinic receptor expression in airway smooth muscle, glucocorticoid effects on, L745
brain, insulin sensitivity in, E567

candidate enterogastrones in, G1236
cross-linked hemoglobin infusion in, renal and hemodynamic effects of, R793

effects of BAY y 5959 in, H753
endothelin-1-induced adrenal catecholamine secretion, and ET_{A/B} receptor function, in vivo, R1290
gastric acid secretion in
before and after vagotomy, CCK and, G1236
inhibition by somatostatin, G1481
gracilis muscle, adenosine output from, in hypoxia, H318

heart

contractility during coronary stenosis, H2195
coronary ischemia-reperfusion injury in, leukocyte-mediated, attenuation of, H618
maximal oxidative phosphorylation capacity of, H769
regional myocardial function, bradykinin and, H1266
sinuatrial nodal parasympathectomy, and heart rate regulation, H2525
transient outward current in, H1
ventricular interactions in, H2869
heart failure model
chamber and muscle function in, H186
chronic opiate-receptor inhibition in, H478

intrarenal nitric oxide in, effects on renin release, macula densa-mediated mechanism for, R879

isolated jejunum ex vivo, motilin release, G4

kidney, and glucose regulation during hyperglycemia, E756

myocardial infarct size in, acidosis during reperfusion and, H2071

pancreatic secretion in, cholecystokinin and, G1550

proximal colon, smooth muscle cell morphology and function, maintenance in culture, G669

rostral ventrolateral medulla, sympathetic outflow to vascular beds and, R821

sodium-dependent hypertension in, R1162

subacute myocardial infarction period in, lidocaine effects on reentrant arrhythmias in, H299

very low frequency oscillations in arterial blood pressure, after autonomic blockade, R2034

L-Dopa

uptake in opossum kidney cells, F632

Dopamine

arcuate nucleus/median eminence turnover of, in diet-induced obese rats, R1365

excretion, and renal function, in humans, F364

natriuretic response to, in spontaneously hypertensive rats, F339

and sodium balance, in vascular smooth muscle cells, C428

uptake in opossum kidney cells, F632

Dopamine β -hydroxylase

immunoreactivity, in gastric distension-activated neurons, of rat brain, R59

Dopamine receptors

DA₁, coupling with G proteins in kidney, F339

Dorsal motor nucleus

vagal afferents to, and c-fos expression, in rat brain, R59

Drinking behavior

effect of intravenous angiotensin II on, in rabbits, R1515

Drugs

peptidomimetic, renal transport of, E723

Drug toxicity

and gentamicin inhibition of rat renal cortical endosomal fusion, F117

Dual-energy X-ray absorptiometry

in humans, E781

Duchenne muscular dystrophy

mouse model
diaphragm contractility in, C2063
electrical properties of diaphragm in, C333

Duodenum

acid neutralization, vagus nerve and, G154
autonomic nervous system and, motilin as biosignal between, G224
bicarbonate secretion, PACAPs and, G646
enzyme levels in, and pancreatic enzyme secretion, G340

Dysphagia

in elderly, effect of exercise on, G1518

E

Ear

inner, purine and pyrimidine nucleotide-sensitive phosphoinositidase C in, studies in frog, R51

Early response genes, see Immediate early genes

E-cadherins

and cytoskeletal mechanics in epithelial cells, C1654

Echistatin

and adipocyte multicellular organization in culture, C937

Echocardiography

after reperfusion of anterior infarction, H1205

assessment of left ventricular performance, H138

Doppler

fourth heart sound and, H1527
of pulmonary venous flow, H2453
of left ventricular wall stress-shortening, in mice, H1047
myocardial contrast, H567

Edema

in heart failure, in sheep, R1595
pulmonary, see **Pulmonary edema**

Eel

intestine, dipeptide transport in, R217
kidney, brush-border membranes, electroneutral anion exchange mechanism in, R1143

EF5

oxygen-sensing properties of, and oxygen status of epiphyseal chondrocytes, C1134

EGTA

modulation of calcium transients and muscle tension, in frog muscle fibers, C1437

Eicosanoids

- endogenous, vasoactive effect in human pulmonary arteries, L823
- production
 - in airway epithelial cells, ozone and, L879
 - by endothelial cells, in hypoxia, H1426
 - from porcine neutrophils and platelets, C1821
- release, in response to intestinal anaerobic bacteria, G10

EIPA, see 5-(N-Ethyl-N-isopropyl)-amiloride

Eisai hyperbilirubinemic rat, see Rats, Eisai hyperbilirubinemic

Elastase

- inhibition, by oxidized secretory leukoprotease inhibitor, glycosaminoglycans and, L533

Elastin

- in chronic lung injury in preterm lambs, L452

Elastocalcinosis

- in rats, H2211

Electrical fields

- enhancement of growth of cancer spheroids, R1677

Electrodes

- for myocardial repolarization/conduction velocity measurement, H1917

Electroencephalography

- delta power, and arousability in rabbits, R648

Electrogastrography

- findings in human subjects of different ages, G1022

Electrolyte balance

- epidermal growth factor and, in rats, R1853

Electrolytes

- excretion
 - in salt-depleted rats, F538, F545
 - urinary, cholesterol feeding and, studies in rabbits, R940
- intracellular, in regulation of VSOAC volume set point, C1766
- transport
 - across skin of leopard frog, R640
 - in distal colon, regulation of, G1338
 - in intestinal cells, effect of chronic inflammation on, G732

Electrophysiology

- of airway myocytes, C341, C1151, C1757
- of amiloride-sensitive epithelial sodium channels, C761
- of bovine coronary resistance arteries, H1462
- of Calu-3 cells, L690
- cardiac, H1, H107, H227, H1791, H1798, H1826
- of cardiomyocytes, C875, H2164
- of cervical cells, C511
- of cholecystokinin effects on area postrema neurons, in rat brain slices, R1625
- of colonic secretory reflexes, G238
- of cortical collecting duct cells, in rats, F498
- of cultured hepatic stellate cells, in rats, G742
- of distal convoluted tubule cells, F249
- in mice, F759
- of *Drosophila* photoreceptors, C27

of epithelial cells, C1160

- in airway, L1189
- in alveoli, L1092
- in bovine pancreatic duct, G1328
- in canine trachea vs. bronchi, L762
- in choroid plexus, in mice, C1899
- from human airway, in culture, extracellular ATP and, L1084
- in intestine, C794, C1862
- in kidney, F423
- in middle ear, C184, C827
- of fast-twitch skeletal muscle, in mice, C1919
- of ganglionic transmission, in bullfrogs in vivo, R1501
- of guinea pig ureteral myocytes, C535, C543
- of hematopoietic cells, C1525
- of hepatocytes, in mice, R874
- of heterogeneous syncytia, computer model of, H1838
- of human cervical cells, C1602
- of human umbilical cord endothelial cells, C117
- of intestinal cells, C794, C931, C1862
- of inwardly rectifying potassium channels, in chick myoblasts, C894
- of lactotrophs, C1178
- of mast cells, in culture, C1017
- of megakaryocytes, in rats, C1525
- of mesangial cells, in rats, F704
- of neurons in horizontal limb of diagonal band of Broca, C163
- of prevertebral ganglia, in mice, G357
- of principal cells, in rabbit, F397
- of pulmonary endothelial cells and hypoxic inhibition of arginine uptake, L78
 - with phenotypically distinct types, L51
- of rat pituitary cells, E405
- of rod photoreceptors, C1844
- of single ileal smooth muscle cells, G215
- of skeletal muscle cells, C41, C77, C572, C622, C1475
- of smooth muscle cells, C1810
 - in airway, C1757
 - in mesenteric arteries, H2241
 - in pulmonary vasculature, L959
 - in renal afferent arterioles, F389
 - in stomach of diabetic rats, G77
- of taste receptor cells, in rats, C2005
- of T84 cells, C1222
- of zygotes, in mice, C1854

EM523

- in measurement of gastric emptying in conscious dogs, G909

Embryonic development

see also Development; Fetus

- in rats
 - maternal diabetes and, E173
 - retinol and, E25

EMD-57033

- and single cell contractile activity, C1586

Enalapril

- effects in AT_{1A} receptor-deficient mice, F515
- and tissue antioxidant defenses, in mice, R514

Endocardium

- endothelial cells, resting membrane conductance, H1770

Endocrine cells

- pulmonary cell biology, L178

- fetal, response to low pH and bicarbonate, L178

Endocrine system

- function, during infectious disease of central nervous system, R1880

Endocytosis

- albumin, in opossum kidney cells, regulation of, F668
- receptor-mediated, of immunoglobulin light chains, by renal cells, F521

Endoplasmic reticulum

- sorting of calnexin to, C1420

Endosomes, acidification

- cholera toxin and, C1123
- pertussis toxin and, C1123

Endothelial cell-conditioned medium

- and contractile protein expression in smooth muscle, C582

Endothelial cells

see also Leukocytes; Neutrophils

- angiotensin II secretion in, H958
- aortic, codistribution of marginal actin fibers and fibronectin in, H2188
- apoptosis
 - induction, stress gene responses in, C1543
 - nitric oxide and, H760
- arachidonic acid metabolism in, hypoxia and, H1426
- arterial, ATP-induced calcium response, H2507
- confocal imaging analysis of, C1980
- basic fibroblast growth factor in, H958
- of blood-brain barrier, glucose transport, C1552
- cell cycle, hypoxia and, C1700
- cerebral microvessel
 - functional properties of, C231
 - Na-K-Cl cotransporter in, regulation of, C1829
- connexin43 and connexin37 in, differential regulation of, C405
- cyclic strain in
 - diacylglycerol production in, C650
 - induction of oxidative stress by, C421
- endocardial
 - resting membrane conductance, H1770
 - stimulus-secretion coupling in, H1770
- extracellular matrix protein secretion, thrombin modulation of, C1112
- focal contacts, localization and activation of type IV collagenase/gelatinase at, L813
- glutathione redox cycle, and glyceraldehyde-3-phosphate dehydrogenase inhibition, C99
- growth, nitric oxide and, H760
- hepatic, ET-1 production by, G605
- human, adenosine-stimulated DNA synthesis, H1470
- human umbilical cord, gap junctions in, C117
- human umbilical vein, myosin light chain dephosphorylation in, inhibition by thrombin, L311
- ICAM-1 expression in, hyperoxia and, L418
- inflammation, H2746
- intercellular communication in, C405
- intracellular calcium in, nongenomic effects of aldosterone on, E616

- intracellular free radicals, after anoxia-reoxygenation, L897
- neutrophil adhesion to, and apoptosis, C295
- proliferation, hypoxia and, C1700
- protection of vascular smooth muscle cells from oxidant attack, F767
- pulmonary
- arginine uptake, hypoxic inhibition of, L78
 - cytosolic calcium and adenylyl cyclase responses in, L51
 - membrane potential, and hypoxic inhibition of arginine uptake, L78
- pulmonary arterial
- endotoxin-mediated induction of arginosuccinate synthetase in, hypoxia and, L934
 - hydrogen peroxide-mediated injury, nitric oxide and, L1133
- stretched, diacylglycerol production in, C650
- targeting, during renal development, F153
- vascular
- myosin light chain dephosphorylation in, inhibition by thrombin, L311
 - nitric oxide synthesis, L262, L1161
 - polycation-induced activation of phospholipase D in, L608
 - superoxide anion release, and spontaneous lung chemiluminescence, L262
- Endothelin receptors**
- ET_A
- and atrial natriuretic factor gene expression, H130
 - and cigarette smoke-induced cell proliferation in airways and pulmonary vessels, L614
 - osteogenic protein-1 effects on, E967
- ET_{A/B}
- and endothelin-1-induced adrenomedullary catecholamine secretion, in vivo, R1290
 - and endothelin-induced mitogenesis in ovine airway smooth muscle cells, L1021
 - in uterine smooth muscle, in pregnant humans, R541
 - and vascular tone in pulmonary hypertension, L807
- functional status of, in endotoxemia, in rats, H2353
- in glomeruli and mesangial cells, F31
- in intestinal subepithelial myofibroblasts, C1513
- pulmonary vascular, in humans vs. rats, L211
- pulmonary vasoconstriction mediated by, pharmacological heterogeneity of, in rats, L287
- reverse transcriptase-polymerase chain reaction assay of, E461
- Endothelins**
- ET-1
- adrenal catecholamine secretion induced by, ET_{A/B} receptor function and, studies in vivo, R1290
 - and arginine vasopressin secretion, in rats, E126
 - in arteries, H2385
 - arteriolar hyporesponsiveness to, in septate rats, R969
- binding, in hypoxic pulmonary vasculature, H669
- and blood pressure, in rats, E126
- in cerebrovascular endothelium, C231
- coronary vasoconstriction with, H2054
- in endotoxemia, in rats, H2353
- gene expression, H2353, H2385
- in hypertensive rat lungs, L807
- and inducible nitric oxide synthase expression, L1078
- induction of mitogenesis in ovine airway smooth muscle cells, L1021
- intracerebroventricular administration, E126
- and neonatal cardiomyocytes, H130
- pharmacological heterogeneity of, in rats, L287
- production, by hepatic endothelial cells, G605
- pulmonary vasoconstriction mediated by, L287, L807
- release by pleural mesothelial cells, shear stress and, L552
- synergism with epidermal growth factor, in mitogenesis, in airway smooth muscle cells, C1492
- in uterine smooth muscle, in pregnant humans, R541
- and vascular cell migration, in tunica media of canine vessels, C847
- and vascular smooth muscle cell proliferation, C2019
- ET-3, and vascular cell migration, in tunica media of canine vessels, C847
- antagonist, cyclopentapeptide, hepatobiliary transport of, G979
- and cGMP production in glomeruli and mesangial cells, F31
- and enteric glia from neonatal guinea pig, G1175
- hemodynamic effects, in endotoxemic shock, H1239
- and hepatic blood flow regulation after shock, H2736
- and osteoblast IL-6 production, E461
- pertussis toxin-sensitive gene activation by, in neonatal cardiomyocytes, H130
- and renal function, in humans, F364
- Endothelium**
- adaptation to exercise, H1070
- and adenosine effects on adrenergic neurotransmission in pulmonary vasculature, H1100
- barrier function
- cell phenotype and, L51
 - Rho proteins and, L38
 - TNF- α -induced alterations in, nitric oxide and, L979
- and cerebral microvascular response to hypoxia, in neonatal pig, H1323
- cerebrovascular, cultures of, C231
- corneal, cell volume regulation in, C1405
- in coronary vasoconstriction with high arterial oxygen tension, H67
- hyperoxic injury, nitric oxide and, in rat lungs, L631
- in hypoxia-induced hypertensive rat lungs, L1126
- intracellular calcium in, nitric oxide synthase inhibition and, H176
- leukocyte interaction with, *see* **Leukocyte-endothelial cell adhesion**
- and myogenic response in vascular smooth muscle, in hypercapnia, H1419
- nitric oxide synthase expression, in ovine pregnancy, H1730
- of peritubular capillaries, regulation of proximal tubule acidification, R691
- permeability, cGMP and, H91
- pulmonary
- hyperpermeability, L38

- Endotoxin**
- in bacteremia, in rats, R1562
- and cell volume, in cardiomyocytes, H2989
- central, interleukin-6 induction by, α -adrenoceptor mechanism for, R1880
- cytokine induction by, and febrile response, studies in rats, R857
- and endothelial cell stress gene responses, C1543
- and ET-1 production by hepatic endothelial cells, G605

Endotoxin (continued)

- febrile response to
 - cyclooxygenase and, studies in rats, R1712
 - in TNF double receptor-knockout mice, R563
- glucoregulatory response to, ventromedial hypothalamus and, studies in rats, R1525
- goblet cell hypersecretion induced by, inhibition by macrolides, L15
- hepatic injury induced by, neutrophil-mediated, G1195
- host response to, and CD14 regulation in bronchoalveolar macrophages, L925
- hypocontractility induced by, vascular smooth muscle cells on Matrigel as model for, H576
- induction of manganese superoxide dismutase, in rat colonic smooth muscle cells, G1230
- induction of nitric oxide synthase in cardiomyocytes, functional significance of, H35
- and Kupffer cells, G1581
- lung injury caused by
 - A₁-adenosine receptor antagonists and, L353
 - vascular, activated protein C and, L197
- and myocardial adaptation and ischemic preconditioning, H2708
- and nitric oxide production by rat alveolar macrophages, L1198
- plasma levels, and alcohol-induced liver injury, in female rats, G1186
- in posttraumatic sepsis, H2219
- protective effect of hemoglobin against, in rats, L268
- responses to, and psychological stress, in aged rats, R1252
- and splenic vasoconstriction, R2048
- and zinc metabolism, in humans, E952

Energysee also **Bioenergetics**

balance

see also **Obesity, dietary**

- and cytokine gene expression, during chronic toxoplasmosis, E908
- in diet-induced obese rats, R1365
- with exercise, in identical twins, E248
- in free-living animals, modeling of, R1336
- leptin and, in female hamsters, R1354
- negative, with exercise, plasma glucose and insulin responses in, E248
- regulation, parabiosis studies of, in mice, R1800, R1809
- expenditure
 - daily, in free-living heart failure patients, E469
 - dietary restriction and, in monkeys, E901
 - in free-living animals, modeling of, R1336
 - in lean individuals, E775
 - leptin and, in *ob/ob* mice, R1204
 - and obesity prevention in BAT-ablated transgenic mice, R1088
 - oxidative, with β -adrenergic receptor blockade, E678

intake

- and adenylyl cyclase inhibitory pathway in white and brown adipose tissue, in rats, E1043
- metabolizable, in free-living animals, modeling of, R1336

metabolism

- cardiac, peroxynitrite and, H1212
- cellular, in hemorrhagic shock, ATP-sensitive potassium channel inhibition and, H688
- cerebral, epinephrine and, H1666
- in hypertrophied heart, H1615
- in postischemic skeletal muscle, ascorbate and, H83

Energy budget

- in free-living animals, modeling of, R1336

Enkephalinssee also **Opioids**

- and blood pressure, H2885
- and cardiac contractility, H2885
- in nucleus of solitary tract, effects on feeding, in rats, R1028

Enteric nervous system

- endothelin-evoked calcium signaling, in neonatal guinea pig, G1175
- in experimental colitis, G272
- and gastric emptying of liquids, G902
- inhibitory nerves, endogenous adenosine and, G38
- PGE₂ and, in guinea pigs, G1451

Enterocytessee also **Intestinal cells**

- amino acid metabolism in, in cortisol-treated pigs, G474
- glucose metabolism, in newborn pigs, G1530
- mitogen-activated protein kinases, activation by glutamine, G943
- proliferation, stimulation by glutamine, G943
- proline metabolism in, in neonatal pigs, G1382
- secretory function, inter- and intracellular regulation of, C1069

Enterogastrones

- candidate, in dogs, G1236

Enterotoxin

- heat-stable, binding proteins, structural heterogeneity in intestine, C1995

Enzymessee also **Antioxidants**

- oxidative, adaptation to endurance training, role of diet in, R1620
- temperature adaptation, heterothermic tissue model for studies of, R1834

Eosinophilia

- pulmonary, L219
- inhibition by IL-4 receptor blockade, in mice, L253

Eosinophils

- antigen-induced recruitment of, in murine airway, L219
- inhibition by IL-4 receptor blockade, L253
- in nonspecific airway reactivity, in mice, L1053

Epicardium

- lymph pressure, and myocardial fluid filtration, H706

Epidermal growth factor

- activation of phospholipase C- γ_1 in pancreatic acinar membranes, G1276

- endothelin-1 synergism with, in mitogenesis, in airway smooth muscle cells, C1492
- and fluid and electrolyte balance, in rats, R1853
- glutamine and, additive effect in intestinal cells, G943
- and neutral endopeptidase in renal vascular smooth muscle cells, C1836
- and renal tubulogenesis, F222

Epidermal growth factor receptor dysfunction, F434**Epinephrine**

- and barium currents in slow skeletal muscle, C77
- and cAMP accumulation in rat inner medullary collecting duct cells, F192
- and cerebral blood flow, H1666
- and cerebral glucose metabolism, H1666
- circulating levels, and cold exposure during prolonged walking, R226
- insulinostatic effect in mouse pancreatic islets, presynaptic sympathetic mechanism in, R1371
- lipolytic responsiveness to, in diabetes, E1130
- and plasma renin levels during water deprivation, R1197
- production, in response to neuroglucopenia, histaminergic contribution to, R1918
- and regulation of muscle glucose uptake, in rats, E649
- release, from chromaffin cells, C476
- in response to core cooling, in humans, R557
- secretion, in response to endotoxin, studies in rats, R1525
- and transient induction of lipoprotein lipase gene expression in human skeletal muscle, E255

 - short-term, transient induction of lipoprotein lipase gene expression, in human skeletal muscle, E255
 - submaximal, glucose transport and GLUT-4 in human sarcolemmal vesicles during, E385

sympathetic response to, in simulated microgravity, R570
vascular occlusion of muscle during, latency of muscle chemoreflex and, H1981
vasoconstriction in active skeletal muscle during, R386
warm-up, force-potentiating effect of, C870

Exercise pressor reflex

AMPA receptors and, H2774
area postrema-induced inhibition of, H1650
in cats, H48
in chicken, R759
5-HT_{1A} receptor antagonist and, R1020
and latency of muscle chemoreflex, H1981

Exercise training

and cardiac autonomic tonus, gender differences in, in hypertensive rats, H1412
and cardiac function in older men, H995
endurance
adaptations of glutathione antioxidant system to, R363
and muscle enzyme activity, role of nutrient intake in, R1620
and sodium-potassium-ATPase concentration in skeletal muscle, R1417
and glucose transport in rat skeletal muscle, E320
and glutamine and CD4⁺ T-cell number, E788
and nitric oxide production, H1070
reversal of insulin resistance with, E864
and serum leptin levels, gender differences in, in humans, E562
and ventricular properties, in canine model of congestive heart failure, H1372

Extensor digitorum longus muscle

electrical properties of, in dystrophic mice, C333
proteolysis during sepsis, studies in rats, R849

Extracellular acidification rate

and cell volume regulation, in C6 glioma cells, C318

Extracellular matrix

and adipocyte multicellular organization in culture, C937
and apoptosis of bronchial epithelial cells, L28
in cell adhesion, L494
collagens, degradation, in bovine pulmonary microvascular endothelial cells, L813
excess, in fibrotic diseases, proteolytic balance and, R1960
in immunoglobulin light chain deposition disease, and pathogenesis of glomerulosclerosis, F319
and mechanochemical signaling, in confluent epithelial cells, C1654
protein secretion, thrombin modulation of, C1112
pulmonary, over fibroblasts, enhanced alveolar type II cell growth on, L413
type II pulmonary epithelial cell, assembly of exogenous fibronectin into, L908

Extracellular signal-regulated kinase

see also **Mitogen-activated protein kinases**

ERK1, activation
in airway smooth muscle, L244
by G α_{i2} protein, and LLC-PK₁ cell growth, F273
in MDCK cells, C383
in mouse inner medullary collecting duct cells, F305
ERK2, activation
in airway smooth muscle, L244
by G α_{i2} protein, and LLC-PK₁ cell growth, F273
in MDCK cells, C383
in mouse inner medullary collecting duct cells, F305
activation, in tracheal myocytes, L558
expression and activation, in MDCK cells, C383
and regulation of cytosolic PLA₂ activation, in MDCK-D₁ cells, C383

Eye

cornea
endothelium, cell volume regulation in, C1405
epithelial cells, potassium currents in, C744
pigmented ciliary epithelium, see **Ciliary epithelium, of eye**
retina, choroidal blood flow, in rats, H1444
rod photoreceptors in, C1844

Ezrin

distribution, effects of ME-3407 on, G1122
phosphorylation, and HCl secretion in gastric parietal cells, G246

F

Fasting

see also **Food deprivation**
and estrous cycle control in Syrian hamsters, R400
fatty acid levels and, in rats, R43
and food hoarding, in Siberian hamsters, R118
stress of, effects on cardiac subcellular structures, studies in rats, R776

Fat, body

see also **Adipose tissue; Obesity**
in fatty (*fa/fa*) and heterozygous (*+/fa*) rats, physiological traits underlying, E100
and food hoarding, in Siberian hamsters, R118
and food intake, in Siberian hamsters, R783
loss of, in lean partner of parabiosed *ob/ob* mice, R1809
and metabolic response to exercise, E248

stores

and feeding patterns, in *Sminthopsis crassicaudata*, R78
seasonal changes in, in Siberian hamsters, R68

Fat, dietary

and estrous cycle control in Syrian hamsters, R400
intake
during dietary switch, regulation in rats, R1657
in inbred mouse strains, R357

postingestive effects of, studies in rats, R289
tissue enzymatic profile and, in rats, R188
metabolism, leptin and, in *ob/ob* mice, R1204

Fatigue

skeletal muscle
in aging rats, E201
and branched-chain oxoacid dehydrogenase regulation, E233
force output in, and myosin phosphorylation, R1980
tricarboxylic acid cycle intermediates in human muscle and, E239

Fat-storing cells, hepatic, see **Liver, stellate cells**

Fatty acids

see also **Glucose-fatty acid cycle**
chain length, and substrate oxidation in parenteral nutrition, E550

free

metabolism, in normal postabsorptive humans, E437
and short-term exercise, E262
medium-chain, oxidation during exercise, regulation of, E1065
and metabolic control in diabetes, studied using euglycemic and hypoglycemic insulin clamps, E530

metabolism

hepatic, in pigs and rats, R1641
in resting skeletal muscle, functional differences by fiber type, E340
n-3, effects on sickness behavior in mice, R1298

oxidation

during exercise, regulation of, E1065
in hypertrophied heart, H1615
in skeletal muscle, E262

β -oxidation, species differences in pigs and rats, R1641

and potassium channels in taste receptor cells, C1203

ratio of polyunsaturated to saturated, weight cycling and, in rats, R43

regulation of apolipoprotein secretion and lipid synthesis, in intestinal epithelial cells of newborn swine, G935

short-chain

effect on paracellular permeability of Caco-2 intestinal cells, G705

ileal tonic and phasic motility responses to, in healthy humans, G147

unesterified, elevation, effects on aldosterone production in hypoxic neonatal rabbits, R1084

utilization, and estrous cycle control in Syrian hamsters, R400

and voltage-gated sodium channels, mechanism of, C592

Fatty acid synthase

gene expression

in fetal rat lung, glucocorticoids and, L860
in liver, in copper deficiency, E1124

Feeding

see also **Food intake**

cardiovascular changes during, in calves, R607

and drinking, effects of intracerebroventricular losartan on, in sheep, R1055

Feeding (*continued*)

- and hexosamines, in rat muscle, E848
- leptin and, in mice, R1007
- and mesenteric vascular tone, in piglets, G612
- protein synthesis with, after intrauterine growth retardation, in neonatal pigs, E877
- in rats
 - and dopamine levels in ventromedial hypothalamic nucleus, R1925
 - and gastric vagal afferent response to cholecystokinin vs. gastrin-releasing peptide, R1726
 - and opioids in nucleus of solitary tract, R1028
 - regulation of translation initiation by, E841

Females

- see also* **Gender differences**
- age-related decline in blood volume, exercise effects on, H2534

Fetus

- lung
 - cystic fibrosis transmembrane conductance regulator in, regulation by sex hormones, L844
 - development, regulation by sex hormones, L844
 - fatty-acid synthase mRNA stability in, L860
 - growth and maturation, mechanical factors affecting, L95
 - metabolic regulation in, L860
 - persistent endothelial nitric oxide synthase in, after decreased blood flow, L969
 - purine nucleotides and, H2377
 - in rats with congenital diaphragmatic hernia, prenatal hormonal modulation and, L1059
 - retinol and, E25
- mammalian

- ACTH secretion, modulation of, R1128
- angiotensin I infusion in, renal, hormonal, and cardiovascular responses to, R1912
- cardiovascular adaptation during chronic hypoxemia, R201
- in diabetic pregnancy, E173

- growth, E275
- adaptation to chronic hypoglycemic hypoinsulinemia, E107
- insulin secretion, effects of arginine and glucose on, E68
- leucine kinetics and protein metabolism during acute metabolic acidosis, E275
- leucine metabolism, adaptation to chronic hypoglycemic hypoinsulinemia, E107
- local cerebral protein synthesis, rates of, R1235
- metabolic alterations in, in diabetic pregnancy, E173
- pulmonary hypertension in, and endothelial nitric oxide synthase, L1005, L1013

- response to sustained vasopressin elevation, R1069
- and superoxide generation in neural tissue, in diabetic pregnancy, E173
- threonine utilization by, E892

Fever

- endotoxin-induced
 - in rats, R857
 - and stress, in aged rats, R1252
- in rats
 - in bacterial infection, R1562
 - endotoxin-induced, R857, R1252
 - in inflammation, peripheral and central cytokines in, R862
- suppression by subdiaphragmatic vagotomy, in guinea pigs, R675
- in TNF double receptor-knockout mice, R563

Fibrinogen

- gene expression, upregulation by freezing and dehydration, in wood frog, R1480

Fibrinolysis

- smooth muscle cell, T cell lymphokines and, C392

Fibroblast growth factor, basic

- in cardiomyocytes and endothelial cells, H958
- in experimental atherosclerosis, H613
- protective effect, against focal ischemic injury, H1401
- and smooth muscle cell migration, C392

Fibroblast growth factor receptor

- FGFR3 IIIb, in intestinal epithelial cells, regulation of, G885

Fibroblasts

- factors diffusing from, effects on alveolar type II cell growth, L413
- human skin, electroneutral sodium/lithium countertransport in, C1373
- NIH/3T3
 - mitochondrial biogenesis during cellular differentiation, C1345
 - not expressing P-glycoprotein, C1798, C1804
- NIH/3T3/CFTR clones
 - chemotherapeutic drug-selected derivatives, intracellular pH regulation in, C1642
 - intracellular pH regulation in, C1642

Fibronectin

- and actin fibers, codistribution, in vascular system, H2188
- isoforms, in combustion particle-induced chronic lung injury, L521
- in type II pulmonary cell matrix, L908

Fibrosis

- cardiac
 - with left ventricular hypertrophy, H2416
 - in myocarditis, captopril and, H211
- excess extracellular matrix in, proteolytic balance and, R1960
- pulmonary
 - combustion particle-induced, genetic variability in, L521
 - hyperoxia-induced, surfactant protein gene expression in, L720
 - radiation-induced, nitric oxide in, L651

Fish

- see also* **Salmonids; Teleosts**
- kallikrein-kinin system in, R710, R1112

- muscle lactate transport, in isolated perfused muscle preparation, R1577
- seawater tolerance, in high arctic charr, R743
- white muscle, temperature-related regulation of intracellular pH in, R84

FK-506 binding proteins

- isoforms, different interactions with cardiac and skeletal muscle ryanodine receptors, C1726
- and ryanodine receptor structure, H597

Flatus

- composition, G1028

Flora, *see* Bacteria

Flow cytometry

- of human alveolar macrophages, L566
- of leukocytes, in murine airway, L219
- in mesenteric microvasculature, H2584
- of monocytes/macrophages, L1070
- of rat renal cortical endosomes, F117

Fluid balance

- afferent renal nerves in, R1684
- central regulation, in rats, R126
- during dehydration, in humans, R1740
- epidermal growth factor and, in rats, R1853
- fetal, response to sustained vasopressin elevation, R1069
- growth hormone-induced regulation of, renin-angiotensin-aldosterone system activity in, E803
- in older adults, R148

Fluid resuscitation

- for hemorrhagic shock, with oxygen vs. nonoxygen carriers, H525

Fluids

- absorption, in renal proximal tubule, effects of substance P on, R1396
 - intake
 - after capsaicin treatment, studies in rats, R704
 - nutrient-stimulated, R289
 - transepithelial secretion, synthetic peptide from glycine receptor and, C1672
 - transport, in epithelial cells, C1672
- Fluorescein isothiocyanate albumin**
- for measurement of pulmonary vascular permeability, in rats, G23

Fluorodeoxyglucose

- transport, in erythrocytes, C1415

Folate

- coupling to gold, F70
- homeostasis, regulation, in humans, F380
- internalization and transcellular transport of, in rat kidney proximal tubule, F70
- microperfusion of rat proximal tubules, F70
- transport
 - bidirectional, in human proximal tubule cells, F380
 - in human colon, G1408
 - in rat kidney proximal tubule, F70
- uptake, intestinal, regulation of, C729
- urinary excretion, in humans, F380

Folate transporter

- in human colon, kinetic characteristics of, G1408

Food deprivation

- see also* **Fasting**

and body weight and fat pad compensation, in Siberian hamsters, R68
and female sexual behavior, in hamsters, effects of leptin on, R1354

Food hoarding

by Siberian hamsters, R118, R783

Food hypersensitivity

intestinal Fos immunohistochemistry in, G181

Food intake

see also **Feeding; Meal size; Satiety**
 β_3 -adrenergic-mediated suppression of, E1031

central mechanisms and, in Siberian hamsters, R783

cholecystokinin and

in chickens, R334

in rats, R1826

vagal afferent and efferent contributions to, R1245

in cold-exposed rats, and brown adipose tissue hyperplasia, E453

during diet switch, role of visceral afferents in, in rats, R1657

estrogens and, involvement of medial preoptic area in, R311

fructose analog and, in Syrian hamsters, R935

glucagon-like peptides and, in rats, R726

leptin and

and gastric emptying, in lean mice, R1007

in *ob/ob* mice, R1204

and muscle growth, in suckled rats, R1461

and obesity, in transgenic mice, R1088

in propionate-infused sheep, E997

regulation

apo A-IV in, studies in rats, R1170

central pathways for, studies in rats, R1625

cholecystokinin and, in rats, R1826

by corticotropin-releasing hormone and bombesin-like peptides, R268

hindbrain neuromedin B receptors and, in rats, R433

liver and, studies in mice, R874

seasonal fluctuations, in Siberian hamsters, R68

by Siberian hamsters, factors affecting, R118

in *Sminthopsis crassicaudata*, role of gender, photoperiod, and fat stores, R78

suppression

after hepatic portal glucose infusions, R1454

by gastric filling, in rats, R1599

protein-induced, cholecystokinin and, in rats, R1826

Food restriction

vanadium with, antihyperglycemic effects, in streptozotocin-diabetic rats, E30

Forskolin

and diaphragmatic microcirculation, H2173

inhibition of potassium currents in rat taste receptor cells, mechanisms of, C2005

Fos

activation, cholecystokinin-induced, in rat brain, R1625

central immunoreactivity, vasopressin and, in rats, R750

distribution in brain, effect of intravenous angiotensin II on, in rabbits, R1515

expression

hemorrhage-induced, in NTS-lesioned rats, R1540

in host suprachiasmatic nucleus, effects of aging and suprachiasmatic nucleus transplants on, R422

and osmoregulation of magnocellular neuroendocrine system, R276

in spinal neurons, and reflexive penile erection, studies in rats, R1425

in ventrolateral medulla, during static muscle contraction, H48

induction, in rat brain neurons, by portal sodium chloride infusion, R913

Freezing

fibrinogen upregulation by dehydration and, in wood frog, R1480

Frog

Gallbladder

contraction, intracellular pathways for, G838

function, actions of cholecystokinin in, G1365

motility, nitric oxide and, in prairie dogs, G770

muscle, PACAP receptors on, in guinea pigs, G1433

neurons, depolarization, by cholecystokinin, G1365

Gallopamil

effect on sarcoplasmic reticulum calcium uptake, in frog skeletal muscle, C310

Gametes

sea urchin, cyclic ADP-ribose in, C416

Gamma-glutamyl transpeptidase

activity, in diabetic rats, G374

Gap junctions

connexins in, in endothelial cells, C117, C405

functional expression, in early ascidian embryo, C1445

in hepatic stellate cells, G742

uncoupling, by 2,3-butanedione monoxime, in cardiomyocytes, C875

Gas

intestinal, see **Flatus**

Gas exchange

in murine model of AIDS, L699

regulation of, in sheep, R586

Gastric, see **Stomach**

Gastric acid secretion, see **Stomach**, **acid secretion**

Gastric inhibitory peptide

and gastric acid secretion, before and after vagotomy, in dogs, G1236

Gastrin

in gastric acid secretion, in male anesthetized rats, G335

regulation of histidine decarboxylase, G822

release, meal-stimulated, effects of hyperglycemia on, G1116

secretion, β_3 -adrenoceptor and, in rat antrum, G1000

Gastrin/CCK-B receptors

and meal-stimulated acid secretion in rats, G1243

Gastrin-releasing peptide

gastric vagal afferent response to, in rats, R1726

Gastrocnemius muscle

avian, static contraction of, pressor response to, R759

Gastroesophageal junction

smooth muscle from, cholinergic activity of, G1321

Gastroesophageal reflux

pharyngeal water stimulation and, G233

Gastrointestinal motility

see also **Peristalsis**

and afferent activity during ischemia, H99

antroduodenal, motilin and, in humans, G71

capsaicin-sensitive vagal afferent fibers and, G100

and central nitric oxide synthase inhibition, G417

colonic

in inflammation, effects of tachykinins on, G1607

somatostatin and, G689

ileal, regulation of, in healthy humans, G147

Gastrointestinal motility (*continued*)

- interdigestive, in humans, G71
- in nematode-infected mice, G321, G1135
- postprandial, regulation of, in humans, G632
- reactive oxygen species and, G1439
- regulation, studies in isolated canine jejunum *ex vivo*, G4
- thyrotropin-releasing hormone and, G1372

Gastrointestinal tract

- development
 - IGF-I and IGF-I peptides and, G522
 - milk-borne IGF-I and, in neonatal rat, R1532
- DNA synthesis in, opioid growth factor and, R1094
- lung damage-induced, G845
- mucosal epithelial layer, inducible nitric oxide synthase in, G383
- nitric oxide synthase expression in, in rats, C1790
- PGE receptor subtypes in, cellular localization of, G681
- rhythmic oscillating complexes in, and motilin, G916
- transit in, and aging, R243

Gastrointestinal transit

- lactation and, in rats, G626

Gastroparesis

- diabetes-induced, studies in rats, G77

Gastropathy

- ethanol-induced, pathogenesis of, G809

Gastroprotection

- by human spasmodic polypeptide, G1473

Gelatinases

- in acute respiratory distress syndrome, L442

Gender differences

- c-fos*
 - gastric distension-induced, in catecholaminergic neurons of rat dorsal vagal complex, R59
 - inhibition by somatostatin, molecular mechanisms for, G721
- c-jun*, in intestinal cells, stimulation by glutamine, G943
- channel-inducing factor, differential regulation by potassium intake and aldosterone, F617
- chloride/bicarbonate exchanger, in intrahepatic biliary tree, G1064
- Clara cell 10-kDa protein, IFN-γ regulation of, L1142
- c-met*, in human epithelial cells, hepatocyte growth factor and, L1115
- connexin, in alveolar epithelial cells, L1105
- cryptdin, in developing mouse small intestine, G197
- cyclooxygenase II, silica-induced, in alveolar macrophages, nuclear factor-κB in, L779
- cystic fibrosis transmembrane conductance regulator
 - in mouse, C1899
 - in pancreatic cells, G1328
 - in thyroid epithelium, C1299
- cytokine
 - during chronic toxoplasmosis, E908
 - by hepatic macrophages, role of iron in, G1355

- endothelial nitric oxide synthase, in fetal lambs with pulmonary hypertension, L1005
- endothelin-1
 - in arteries, H2385
 - in endotoxemia, in rats, H2353
- fatty-acid synthase
 - in fetal rat lung, glucocorticoids and, L860
 - in liver, in copper deficiency, E1124
- fibrinogen, upregulation by freezing and dehydration, in wood frog, R1480
- Fos
 - in host suprachiasmatic nucleus, effects of aging and suprachiasmatic nucleus transplants on, R422
 - and osmoregulation of magnocellular neuroendocrine system, R276
- GLUT-1, in blood-brain barrier, modulation by 17β-estradiol, E1016
- GLUT-4, in skeletal muscle, eccentric contractions and, C1734
- hydrogen ATPase, after nephron loss, in rats, F799
- ICAM-1, in endothelial cells and neutrophils, hyperoxia and, L418
- IGFBP-I, in hypokalemic rat kidney, F661
- IGF-I
 - endotoxin-induced changes in, glucocorticoids and, R1990
 - in hypokalemic rat kidney, F661
 - transient upregulation in brown adipose tissue of cold-exposed rats, E453
- inducible nitric oxide synthase
 - endothelin-1 and, L1078
 - heat shock and, L132
 - regulation, in intestinal epithelial cells, G1499
 - regulation by INF-γ, C1790
- insulin, glucose regulation of, in rats, E543
- insulin-like growth factor binding protein, effects of IGF-I and IGF-I peptides on, in rats, G522
- interleukin-8, upregulation, by adenovirus E1A, L1046
- islet amyloid polypeptide, glucose regulation of, in rats, E543
- isomyosin, in diabetes, E856
- leptin, β₃-adrenergic-mediated suppression of, in rats, E1031
- lipoprotein lipase, in skeletal muscle, transient induction by short-term exercise, E255
- liver enzyme, in offspring of protein-restricted rat dams, G1083
- manganese superoxide dismutase
 - heat shock and, L132
 - posttranscriptional control of, L714
- membrane-bound leukocyte elastase, on neutrophils, cytokines and, L385
- monitor peptide, in pancreatic acinar cells, regulation by cholecystokinin, G794
- myogenin, clenbuterol effects on, in immobilized rat muscles, E941
- myosin heavy chain
 - in human muscle fibers, C1881
 - in smooth muscle, C582

β -myosin heavy chain transgene, in nonweightbearing muscle, in mice, R1552
 myosin isoform, in skeletal muscle, aging and, C638
 neuronal nitric oxide synthase, regulation by VIP, C1790
 NH₂-terminal-inserted myosin heavy chain, in arterial smooth muscle, C1532
 nitric oxide synthase
 endothelial, in ovine pregnancy, H1730
 in myometrium of pregnant rat uterus, E1008
 osteoblastic *egr-1*, acidosis and, C1450
 in osteoblast response to thyroid hormone, localization of, E212
 osteocalcin, in osteoblast response to thyroid hormone, E212
 parotid secretory protein, in murine lacrimal glands, G863
 polycystin, developmental regulation of, F602
 in mice, F451
 polymeric immunoglobulin receptor, assessment in human lung epithelial cell line, L951
 prolactin, in mammatropes, E390
 prostaglandin-endoperoxide H synthase-2, in chorion, peripartum, in humans, E832
 protein kinase C, in developing heart, H1636
 protein kinase C- α , in adult rat ventricular myocytes, H2485
 RACK1, ischemia-induced, F160
 regulation of, in postprandial muscle protein synthesis, E841
 renin, hypoxia and, R1105
 sarcoplasmic reticulum calcium ATPase, during progression of left ventricular hypertrophy, H2416
 secretin receptor, in intrahepatic biliary tree, G1064
 selective, in transport biliary epithelia, G289
 SERCA2, hormonal modulation of, H1876
 sodium-potassium ATPase, in fetal rat lung, steroids and, L665
 soluble guanylate cyclase, in developing lung, L400
 spasmodic polypeptide, in TGF- α knockout mouse, after gastric ulceration, G1540
 superoxide dismutase, in experimental hydronephrosis, F789
 surfactant protein
 heat shock and, L132
 in hyperoxia-induced fibrosis, L720
 telokin, in A10 smooth muscle cells, C1394
 TGF- β , during cell migration, polyamines and, G713
 thromboxane receptors, central, and blood pressure, R1493
 tissue transglutaminase, in liver injury, regulation by NF- κ B, G281
 tonicity-responsive enhancer and, in transgenic mice, F610
 trefoil peptides, in TGF- α knockout mouse, after gastric ulceration, G1540

uroguanylin, zinc restriction and, in rats, G972
 vasopressin V₂ receptor, in aging rat kidney, R1775
 zygotic, in early ascidian embryo, C1445
Genes
 see also **Gene expression; Immediate-early genes**
 agouti, regulation of intracellular calcium, E379
 deletion, in mice, R563, R621
Gene therapy
 lung-specific cytokine, L852
 in mouse model for muscular dystrophy, C2063
Genetics
 of metabolic response to exercise, E248
Gene transfer
 adenoviral vector for, intrapericardial administration of, H310
Genistein
 and albumin endocytosis, in opossum kidney cells, F668
 and bicarbonate conductance through CFTR, in human airway epithelia, L752
 modulation of CFTR chloride channels, C142
 and pulmonary vasoreactivity to serotonin, H740
Gentamicin
 inhibition of renal endosomal fusion, F117
 treatment, long-term, cellular mechanism of aminoglycoside tolerance in, C1309
Gestation
 see also **Pregnancy**
 cerebral protein synthesis rates during, in sheep, R1235
Glial cells
 C6
 isovolumetric regulation in hyperosmotic media, C318
 regulatory volume increase in, C1968
 cell density, and shrinkage-induced activation of NHE, C1968
 enteric, from neonatal guinea pig, endothelin-evoked calcium signaling in, G1175
 shrinkage-induced activation of NHE in, C1968
Glibenclamide
 and ATP-sensitive calcium channels in aortic endothelial cells, H2507
 and coronary arterial diameter, in hypoxia, H1462
 effects, in hemorrhagic shock, H688
 kinetics, in rat heart, H2607
 and memory of ischemic preconditioning, in dogs, H334
 microvascular response to, in diaphragm, in hemorrhagic hypotension, H272
Glomerular filtration rate, see Kidney, glomerular filtration rate
Glomerular sclerosis
 aging and, protective function of L-arginine, R1768
Glomeruli, see Kidney, glomerulus
Glomerulonephritis
 glomerular injury in, F721

Glomerulosa cells
 bovine
 potassium-induced aldosterone secretion, R183
 preparation, R183
Glomerulosclerosis
 in immunoglobulin light chain deposition disease, pathogenesis of, F319
Glossopharyngeal nerve
 and sugar taste discrimination, studies in rats, R1210
GLP, see Glucagon-like peptides
Glucagon
 glycogenolytic effect of, speed of, E720
 and hepatic glucose production in humans, E371
 production
 in response to endotoxin, studies in rats, R1525
 in response to neuroglucopenia, histaminergic contribution to, R1918
 secretion, regulation, in dogs, E567
Glucagon-like peptides
 GLP-1
 and gastric acid secretion, before and after vagotomy, in dogs, G1236
 and taste aversion production in rats, R726
 GLP-2
 intestinetropic properties of, G662
 small bowel growth induction by, and intestinal function in mice, E1050
Glucocorticoid receptors
 signaling
 in bronchial epithelial cells, L838
 in fetal lung explants, L860
Glucocorticoids
 activation of ubiquitin pathway, in rat skeletal muscle, C1007
 anti-inflammatory properties, mechanism of action, L838
 and apoptosis in S49 cells, calcium and, C1241
 effects
 on mitochondrial matrix acyl-CoA dehydrogenases and fatty acid β -oxidation, G1141
 on muscarinic receptor expression, in canine airway smooth muscle, L745
 elevated levels, and cardiovascular disease risk, R2017
 in endotoxin-induced changes in IGF-I and IGFBP-I, R1990
 and fatty acid synthase mRNA stability, in fetal rat lung, L860
 and fetal protein balance during acute metabolic acidosis, E275
 maturation effects, after antenatal exposure, R1972
 and regulation of branched-chain ketoacid dehydrogenase flux, C2031
 regulation of vasopressin, in rats, R158
 and sodium-potassium ATPase, in fetal rat lung, L665
 and sodium transport in middle ear epithelium, C184
 in stress response, in calorically overloaded rats, R840
Glucokinase
 in offspring of protein-restricted rat dams, G1083
Gluconeogenesis
 and high-sucrose feeding, in rats, R526
 in malaria, E1059

Gluconeogenesis (*continued*)

- rate, calculation using labeling pattern of liver glutamate, E51
- reduction by exogenous glucose, in rats, E163
- regulation
 - by glutamine, in normal postabsorptive humans, E437
 - in response to endotoxin, studies in rats, R1525
 - relationship to serum cortisol, in humans, E476
- Glucoprivation**
 - and luteinizing hormone secretion, opioid mediation of, E517
- Glucose**
 - availability during postexercise recovery, effects on muscle protein synthesis, in dogs, E1023
 - disposal, insulin-mediated, in rhesus monkeys, E133
 - exogenous, reduction of hepatic glucose production, in rats, E163
 - hepatic production
 - in children, E523
 - reduction by exogenous glucose, in rats, E163
 - kinetics, in nonaccessible pools, E494
 - and malonyl-CoA regulation in skeletal muscle, E641
 - metabolism
 - in cancer patients, E476
 - cerebral, and blood flow, uncoupling after brain injury, H2859
 - in diet-induced obese rats, R1365
 - in insulin-treated gestational diabetes, E1099
 - intestinal, in newborn pigs, G1530
 - in jejunal epithelium, G575
 - and osmoregulation of magnocellular neuroendocrine system, R276
 - in pancreatic β -cells, E696
 - during progressive starvation in late pregnancy, in rats, E556
 - recombinant human IGF-I and, differential effects of bolus vs. continuous subcutaneous delivery, E628
 - in response to endotoxin, studies in rats, R1525
 - suppression, insulin resistance caused by, E288
 - in swine adipocytes, E957
 - in Syrian hamsters, R935
 - molecule, recycling, serum cortisol levels and, E476
 - and ovine fetal insulin secretion, E68
 - oxidation, in hypertrophied heart, H1615
 - plasma levels
 - see also* **Hypoglycemia; Hyperglycemia**
 - in fetal sheep exposed to maternal insulin-induced hypoglycemia, E107
 - and negative energy balance with exercise, E248
 - in propionate-infused sheep, E997
 - renal regulation of, during hyperglycemia, E756
 - response to carotid body chemoreceptor activation, R392
 - portal infusions, intake suppression after, R1454

production

- see also* **Gluconeogenesis**

 - expression in blood-brain barrier, modulation by 17 β -estradiol, E1016
 - in growth hormone-induced insulin resistance, E1071

- in normal rat cholangiocytes, G1168
- in rat brain, E716
- in skeletal muscle, cholera toxin and, E7
- GLUT-2
 - in avian intestine, R1330
 - and intestinal glucose metabolism in newborn pigs, G1530
- GLUT-3
 - in brain of diabetic (*db/db*) mice, E267
 - neuronal, induction by hypoglycemia, in rat brain, E716
- GLUT-4
 - cell surface, recruitment, and exercise, E864
 - and citrate synthase, in denervated rat soleus muscle, R429
 - in denervated muscles, in rats, E661
 - dominant negative effect of PI 3-kinase and Ras on, in 3T3-L1 adipocytes, E326
 - in growth hormone-induced insulin resistance, E1071
 - in skeletal muscle, C1734, E7, E118, E320, E385, E446, E1080
- GLUT-5, expression, in weanling rats, G446
- of blood-brain barrier, C1552
- and glucose uptake in stunned myocardium, H1122
- in skeletal muscle
 - cholera toxin and, E7
 - concentration, contraction-induced signals and, E118
 - eccentric contractions and, C1734
 - effects of exercise training on, studies in isolated rat muscle, E320
 - in human sarcolemmal vesicles during exercise, E385
 - in *ob/ob* mice, E1080
 - during postnatal development in rats, E446
- sodium-dependent, in cholangiocytes, of rats, G1168
- Glutamate**
 - and hepatic nitrogen salvage, G257
 - myocardial concentration of, in coronary artery surgery, H1063
- release
 - central regulation, in rats, G654
 - in parabrachial nucleus, and baroreflex alterations after vagal afferent activation, R1631
- transport, and paracellular permeability in LLC-PK₁-F⁺ cells, E367
- turnover
 - in cardiac muscle, kinetic model for, C2037
 - in liver, NMR- and GC-NMS-determined, C2049
- Glutamine**
 - and hepatic nitrogen salvage, G257
 - metabolism, in enterocytes of cortisol-treated pigs, G474
 - plasma level, effects of exercise training on, E788
 - plasma turnover, steady-state and non-steady-state measurements of, in humans, E621
 - protective effect in intestinal epithelial cells, role of inducible HSP70, G879
 - regulation of gluconeogenesis, in normal postabsorptive humans, E437

- stimulation of intestinal cell proliferation, G943
- γ -Glutamyltransferase**
ontogeny, in rat lung, L739
- Glutathione**
adaptation to endurance exercise training, R363
biliary, in diabetic rats, G374
canalicular transport, impairment, in diabetic rats, G374
content, in V79 cells, in two- or three-dimensional culture, C1507
and hepatic fatty acid synthase gene transcription, in copper-deficient rats, E1124
redox cycle
and nitric oxide-mediated GAPDH inhibition, C99
in rat small intestine, G328
renal assimilation of, E723
- Glyceraldehyde-3-phosphate dehydrogenase**
inhibition, nitric oxide-mediated, glutathione redox cycle and, C99
- Glycerol**
transport, in perfused rat liver, G563
- Glycine**
and intracellular calcium, in endotoxin-stimulated Kupffer cells, G1581
membrane protection by, and cytoskeletal integrity, C1319
- Glycine receptor**
synthetic peptide from, and transepithelial chloride and fluid secretion, C1672
- Glycochenodeoxycholic acid**
ileal tonic and phasic motility responses to, in healthy humans, G147
- Glycogen**
metabolism
during exercise, E233
in normal postabsorptive humans, E437
in rats, G1091
muscle levels, with exercise training, effects on glucose transport, E320
regulation of muscle glucose uptake, in rats, E649
storage, and renal glucose regulation during hyperglycemia, E756
synthesis, suppression, insulin resistance caused by, E288
- Glycogenolysis**
glucagon-induced, speed of, E720
in muscle bioenergetics, C1739
in rat hepatocytes, G1091
in skeletal muscle, adenosine effects on, during contraction, in rats, E762
- Glycogen phosphorylase**
activity, and fetal hypoxemia, R103
hepatic, regulation by insulin, E133
- Glycogen synthase**
activity
and fetal hypoxemia, R103
in skeletal muscle, E762
hepatic, regulation by insulin, E133
- Glycolate**
oxidation, in hepatic peroxisomes, C289
- Glycolate oxidase**
activity, in liver, C289
- Glycolysis**
and calcium currents in vascular smooth muscle, H987
in hypertrophied heart, H1615

- P-type, in *Tetrahymena thermophila*, C715
- redistribution, inhibition by ME-3407, effects on gastric acid secretion, G1122
- α -subunit, isoforms, in rat kidney, hypokalemia and, F744
- vascular smooth muscle, molecular evidence for, H869

Hydrogen sulfide

in flatus, G1028

Hydronephrosis

arginine vasopressin and thromboxane in, interaction of, F40

Hydroperoxide

metabolism, in hypoxic small intestine, in rats, G328

β -Hydroxyacyl-CoA dehydrogenase tissue, and dietary obesity in rats, R188

6-Hydroxydopamine

and insulin secretion, in mouse pancreatic islets, R1371

and salt balance, in rats, F538, F545

20-Hydroxyecosatetraenoic acid vasoactive effect on human pulmonary arteries, L823

 β -Hydroxylacyl-CoA dehydrogenase

muscle activity, adaptation to endurance training, role of diet in, R1620

5-Hydroxytryptamine, see Serotonin**5-Hydroxytryptamine receptors**

see also **Serotonergic receptors**

5-HT₃, and motilin biosignaling, G224

L-5-Hydroxytryptophan

uptake in opossum kidney cells, F632

25-Hydroxyvitamin D₃ 1 α -hydroxylase

activity, age-related loss of, and low-P diet, in rats, F698

Hyperaldosteronism

and potassium absorption in distal colon, G54

Hyperbaric pressure

and erythrocyte membrane lipid order, H538

Hyperbilirubinemia

in Eisai hyperbilirubinemic rat, pathogenesis, G16

Hypercapnia

cerebral blood flow response to, neuronal nitric oxide synthase and, H559

and fetal pulmonary endocrine cells, L178

metabolic depression under, in *Sipunculus nudus*, R350

and myogenic response, in diaphragmatic arterioles, H1419

and ventilatory control, in bullfrog, R497

Hypercarbia

and intestinal epithelial permeability, G1007

Hypercholesterolemia

AT₁ receptor expression in, H2701

endothelium-dependent responses of

aorta in, H613

and renal hemodynamics, in rabbits, R940

and sodium pump function in cardiomyocytes, H1680

Hyperemia

cerebral cortical, during cortical spreading depression, neuronal nitric oxide and, H1315

glutamate-dependent, obligatory role of nitric oxide in, R1155

postprandial, nitric oxide and, in piglets, G612

Hyperglycemia

and gastric acid secretion, G1116

intestinal flow-mediated regulation in, H728

renal glucose regulation during, E756

Hyperosmolality

cardiovascular responses to, and α -adrenergic receptors in preoptic recess, R1283

Hyperoxia

see also **Lung injury, hyperoxic**

and adhesion molecule expression in endothelial cells and neutrophils, L418

and airway hyperreactivity, in neonatal guinea pigs, L1211

alveolar fluid clearance in, in rats, L407

and alveolarization in neonatal rats, leukotrienes as mediators of, L433

effects on sodium-potassium ATPase in alveolar type II cells, L542

nitric oxide and, lung injury caused by effects of recombinant human superoxide dismutase on, L903

in rats, L631

pulmonary endothelial injury due to, nitric oxide and, L631

pulmonary vascular membrane proteins in, L461

Hypertension

Insulin-dependent (type I) diabetes mellitus (IDDM), *see* Diabetes mellitus, insulin-dependent (IDDM)

Insulin-like growth factor binding proteins
 IGFBP-I
 endotoxin-induced changes in, glucocorticoids and, R1990

expression, in hypokalemic rat kidney, F661
 IGFBP-2, and smooth muscle hypertrophy in diabetic rat, E297
 expression
 in cultured colonic smooth muscle cells, G482
 effects of IGF-I and IGF-I peptides on, in rats, G522

Insulin-like growth factor-I
 action, with age and exercise, E397
 anabolic effects, G1100
 and apical sodium/hydrogen exchange, in human proximal tubule cells, F484
 and cardiac potassium channels, H2599
 effect on organ growth and gut development, G522
 endotoxin-induced changes in, glucocorticoids and, R1990
 and fetal lung growth and maturation, in sheep, L95
 gene expression
 in hypokalemic rat kidney, F661
 transient upregulation in brown adipose tissue of cold-exposed rats, E453
 glutamine and, additive effect in intestinal cells, G943
 and growth of artificially fed infant rats, R1532
 inhibition of insulin secretory burst mass, E352
 peptides, effect on organ growth and gut development, G522
 preservation of renal function postoperatively, F257
 recombinant human
 differential metabolic effects of bolus vs. continuous subcutaneous delivery, E628
 and protein utilization in elderly women, E94
 and renal 1,25-dihydroxyvitamin D₃ biosynthesis, F698
 serum levels, growth hormone and, G1100
 and smooth muscle hypertrophy in diabetic rats, E297

Insulin-like growth factor-I receptors
 expression, in cultured colonic smooth muscle cells, G482
 function, in uremic rats, F325

Insulin-like growth factor system
 expression, in hypokalemic rat kidney, F661

Insulinoma
 MIN6 cells, cell growth, inhibition by somatostatin, E769

Insulin receptors
 cross-linking model of insulin interactions with, evaluation of, E1136
 in growth hormone-induced insulin resistance, E1071
 isoforms, in aged and mildly insulin-deficient rats, E607
 mRNA splicing, in aged and mildly insulin-deficient rats, E607
 tyrosine kinase activity, in human adipocytes, E576

Insulin receptor substrate-1
 in growth hormone-induced insulin resistance, E1071

Insulin resistance

and agouti regulation of intracellular calcium, E379
 caused by suppression of glucose metabolism, in rat skeletal muscle, E288
 genetic model of, *see* **Mice, *ob/ob***
 growth hormone-induced, E1071
 insulin receptor isoforms and, in aged and mildly insulin-deficient rats, E607
 pioglitazone and, in genetically obese diabetic rats, E989
 reversal, by exercise training, E864
 in skeletal muscle
 cholera toxin and, E7
 and hexosamine synthesis pathway, E1080
 sucrose-induced, gender differences, in rats, R1571
 time course of, and high-fat diet, in dogs, E147

Insulin sensitivity
 agent for increasing, effects on diabetic complications, in genetically obese diabetic rats, E989
 modeling, minimal model validity, E925
 and negative energy balance with exercise, E248
 in neonate, E86

Integrins
 α_4 , and leukocyte influx into lung, L219
 $\alpha_v\beta_3$, and metanephric osteopontin, in nephrogenesis, F469
 β_2 , and neutrophil adherence, C770
 and apoptosis
 in adherent neutrophils, C295
 in bronchial epithelial cells, L28
 and cytoskeletal mechanics in epithelial cells, C1654
 in immobilization of rolling neutrophils, H114
 and vasoreactivity in vascular smooth muscle, H2065

Intercellular adhesion molecule-1
 and alcohol-induced liver injury, in female rats, G1186
 and apoptosis in adherent neutrophils, C295
 in apoptotic human endothelial cells, C1543
 gene expression
 in endothelial cells and neutrophils, hyperoxia and, L418
 in monocytes, SP-A and surfactant lipids and, L1070
 in mesenteric microvasculature, H2584
 and neutrophil-epithelial adhesion, L580

Interferon- γ
 and Clara cell gene expression, L1142
 and dimeric IgA transcytosis in Calu-3 cells, L951
 gene transfer, lung-specific gene therapy with, L852
 and inducible nitric oxide synthase expression in skeletal muscle cells, C35
 and inducible nitric oxide synthase gene regulation, in intestinal epithelial cells, G1499
 and nitric oxide production by rat alveolar macrophages, L1198
 and nitric oxide synthase gene expression, C1790
 and smooth muscle cell migration, C392

**Interleukin-1 β -converting enzyme/
CED-3 homologue-1**
and cholangiocyte apoptosis induced by
beauvericin, G106

Interleukin receptors

IL-4, blockade, inhibition of allergic re-
sponses via, L253

IL-15, on T84 colonic epithelial cells,
G1201

Interleukins

IL-1

effects on sleep and serotonin metabo-
lism, studies in rats, R601

host wasting induced by, mechanisms
of, in rats, E333

induction, by peripheral lipopolysac-
charide, and febrile response, stud-
ies in rats, R857

peripheral and central, and febrile
response, studies in rats, R862
and splenic vasoconstriction, studies
in rats, R2048

IL-1 β

and bradykinin-induced macromo-
lecular efflux from hamster oral
mucosa, R294

and calcium current in ventricular
myocytes, H2591

in hepatic inflammation, G207

and inducible nitric oxide synthase
gene regulation, in intestinal epi-
thelial cells, G1499

induction of manganese superoxide
dismutase, in rat colonic smooth
muscle cells, G1230

and leukocyte adhesion in arterioles,
H1725

and neural activity in anteroventral
region of third ventricle, R532

neutrophil-cardiomyocyte adhesion
induced by, inhibition by nitric ox-
ide, H2807

and phospholipase A₂-activating pro-
tein synthesis, G1338
stimulation of cardiac phospholipase
A₂ activity, C450

IL-2

in airway epithelial cells, L276

functions, G1201

hepatic injury induced by, mecha-
nisms of, G727

IL-4

and CD14 regulation in bronchoalveo-
lar macrophages, L925

neuromodulatory effects, G1135
and smooth muscle cell migration,
C392

IL-6

and CD14 regulation in bronchoalveo-
lar macrophages, L925

deficiency, and sickness behavior, in
mice, R621

gene expression, by hepatic macro-
phages, role of iron in, G1355
and inducible nitric oxide synthase
expression in skeletal muscle cells,
C35

induction by central lipopolysaccha-
ride, α -adrenoceptor mechanism
for, R1880

induction by peripheral lipopolysac-
charide, and febrile response, stud-
ies in rats, R857

osteoblastic production of, E208,
E461

secreted by astroglial cells, in regula-
tion of brain endothelial Na-K-Cl
cotransporter, C1829

IL-8

in airway epithelial cells, defensins
and, L888

gene expression, L504, L1046

in human epidermal keratinocytes,
C1988

and rapid immobilization of rolling
neutrophils, H114

and regulated expression of mem-
brane-bound leukocyte elastase on
neutrophils, L385

IL-11

protective effects in ischemic

bowel necrosis, in mice, G545

IL-15

functions, G1201

and neonatal cardiomyocytes, H1937

Interstitial fluid

glucose kinetics in, compartmental
model of, E494

Intestinal cells

electrolyte transport in, effects of
chronic inflammation on, G732

fibroblast growth factor receptor 3 IIIb
in, regulation of, G885

folate uptake, intracellular regulation
of, C729

HT29cl.19A, apical adenosine effects in,
C931

IEC-6, c-Jun mRNA levels, stimulation
by glutamine, G943

IPEC-1, apolipoprotein secretion and
lipid synthesis, G935

IPEC-J2, c-Jun mRNA levels, stimula-
tion by glutamine, G943

proliferation, stimulation by glutamine,
G943

protective effect of glutamine in, role of
inducible HSP70, G879

secretion, F-actin stabilization or disas-
sembly and, C254

voltage-activated chloride currents, os-
mosensitivity of, C778

Intestine

amino acid transporter B⁰ in, molecular
and functional characterization of,
G1463

avian, sodium channel subunits in,
C270

brush-border membrane, see **Mem-
brane, brush-border**

dipeptide transport in, in eel, R217

flow-mediated regulation in, impair-
ment, by diabetes and hyperglyce-
mia, H728

gas in, see **Flatus**

GLP-2 bioactivity in, G662

glucose metabolism in, in newborn pigs,
G1530

inflammation, bile acids and, G1249

longitudinal muscle
cholinergic neural control of, IL-4
and, G1135

spontaneous contraction, calcium-
activated potassium channels and,
in guinea pigs, G962

in nematode-infected mice, muscle con-
traction and worm expulsion in,
G321, G1135

postprandial motor responses, regula-
tion of, in humans, G632

postprandial responses, meal size ef-
fects on, in python, R902

sodium-dependent nucleoside transport
in, in humans, G1314

Intestine, large

see also **Colon**

folate transport in, in humans, G1408

hydrogen-potassium ATPase in, regula-
tion by dietary sodium and potas-
sium depletion, C685

Intestine, small

alanine absorption, capsaicin treatment
and, G815

basic electrical rhythm, detection of,
G1159

basolateral hexose transport in, in
chicken, R1330

circular muscle, altered contractility in
inflammation, G1258

electrical activity, magnetic and electri-
cal detection of, correlation and
comparison, G1159

fetal, differentiation, and C/EBP, in
rats, G534

growth

GLP-2 bioactivity and, G662

induction by GLP-2, and intestinal
function, in mice, E1050

hypoxia, glutathione-dependent detoxi-
cation, and metabolic instability in,
in rats, G328

inflammation, bile acids and, G1249

longitudinal muscle

altered contractility in inflammation,
G1258

cholinergic neural control of, IL-4
and, G1135

myenteric plexus, *c-fos* expression in, in
intestinal anaphylaxis, G181

neonatal, cryptdin gene expression, in
mouse, G197

proline metabolism, in postnatal pigs,
G1382

rat, localization of cysteine-rich intes-
tinal protein in, G751

sodium-independent brush-border b⁰ +
carrier, studies in rabbits and rats,
R1060

villus-crypt axis of, differential process-
ing of guanylyl cyclase C along,
C1995

Intramyocardial pressure

in rat papillary muscle, H2320

Intrauterine growth retardation/re-

striction

oxygen-derived free radicals in, in rats,
H701

placental threonine transport and its
utilization in, E892

protein synthesis and, in neonatal pigs,
E877

in sheep, E275, E817, R201

Iodoantipyrine

pulmonary distribution of, H2250

Ion channels

α -adrenergic modulation of, in *Xenopus*
oocytes, H1275

Ion channels (continued)

- characteristics of, in colonic epithelium-enriched protein A4, C957
- chimeric
 - ouabain-sensitive, C1717
 - Sch-28080-sensitive, C1717
- human atrial, H227
- modulation, in airway myocytes, C1151

Kidney (continued)

- vasa recta
 - descending, adenosine receptor subtype detection in, H1231
 - descending, water flux across, F579, F587
 - facilitated transport in, F505
 - hydraulic and diffusional permeabilities of, H392
 - molecular sieving of small solutes by, F579
 - vasopressin effects on, F147
- vasoconstriction, agonist-induced, during hypoxia, H1945
- and vasopressin release during hemorrhage, in NTS-lesioned rats, R1540
- vasopressin V₂ receptor expression in, aging and, in rats, R1775
- water excretion, regulation, F3
- Kidney cells**
 - anoxic plasma membrane disruption in, cytoskeletal perturbations and, C1319
 - cortical collecting duct
 - apical potassium channels in, F397
 - chloride channels, cAMP and, C657
 - hydrogen-potassium ATPase in, in newborn rabbit, F167
 - in rats, F498
 - sodium channels, cAMP and, C657
 - cortical vascular smooth muscle, natriuretic peptide-dependent cGMP accumulation in, PKA and, C82
 - distal convoluted tubule
 - β -adrenergic receptor subtypes in, F712
 - immortalized, F249, F759
 - magnesium uptake
 - acid-base changes and, F759
 - amiloride stimulation of, F249
 - distal nephron (A6)
 - amiloride-sensitive epithelial sodium channels in, C761
 - isovolumetric regulation in, C1890
 - metabolic support of sodium-potassium ATPase in, C697
 - epithelial, *see* **Epithelial cells, renal**
 - glomerular podocytes, natriuretic peptide-dependent cGMP accumulation in, PKA and, C82
 - inner medullary collecting duct
 - calcium oxalate crystal attachment to, surface exposure of phosphatidylserine and, F55
 - mIMCD-K2, cyclic nucleotide-gated cation channels in, C901
 - mitogen-activated protein kinases in, hypertonicity-induced signaling by, F305
 - intercalated, hydrogen-potassium ATPase in, F160
 - LLC-PK₁
 - aquaporin-2 exocytosis, PKA phosphorylation and, F816
 - growth, and G protein activation of MAP kinase, F273
 - growth and dedifferentiation, hypoxia-induced, F809
 - intracellular calcium in, C810
 - myosin I β location in, ATP depletion and, C1680
 - oxidant-induced cytotoxicity in, F729
 - potassium channels in, hydrogen peroxide and, C737

- LLC-PK₁-F⁺, paracellular permeability, modulation by glutamate transport, E367
- Madin-Darby canine kidney, *see* **Kidney cells, MDCK**
- MCT, acid-induced effects in, C886
- MDCK
 - dedifferentiation, and expression and activation of MAP kinases, C383
 - inhibition of myo-inositol transport and, F267
 - osmotic regulation of amino acids and system A transport in, C804
 - synthetic chloride channel formation in, C1672
- MDCK-D₁, cytosolic PLA₂, regulation by bradykinin, C1380
- medullary thick ascending limb, sodium-potassium-two chloride cotransporter in, urea inhibition of, C615
- mesangial
 - adrenomedullin in, F691
 - angiotensin-converting enzyme gene expression in, F405
 - calcium homeostasis, immunoglobulin light chain and, F319
 - cGMP production in, endothelin and, F31
 - electrophysiology of, F704
 - inducible nitric oxide synthase in, hydrogen peroxide downregulation of, F721
- met $-/-$, epithelial phenotype, F222
- natriuretic peptide-dependent cGMP accumulation in, PKA and, C82
- opossum (OK)
 - albumin endocytosis in, regulation of, F668
 - neutral amino acid and monoamine uptake in, F632
 - phosphate transport, effects of intracellular pH acidification on, R1904
- principal, colonic hydrogen-potassium ATPase in, regulation of, C685
- progenitor, growth factor/receptor axis and, F222
- proliferation, stimulation by amylin, in rats, F13
- proximal tubule
 - actin cytoskeleton, protective effects of heat stress on, F347
 - and aminoglycoside tolerance, C1309
 - bidirectional folate transport in, in humans, F380
 - energy metabolism enzymes in, birth-related changes in, C787
 - IGF-I stimulation of apical sodium/hydrogen exchange in, F484
 - immunoglobulin light chain endocytosis by, F521
 - myosin I β location in, ATP depletion and, C1680
 - Na-K-ATPase in, birth-related changes in, C787
 - purinergic-mediated inhibition of sodium-potassium ATPase in, C1169
- vascular smooth muscle, neutral endopeptidase in, growth factors and, C1836
- Kidney disease, polycystic**
 - autosomal dominant, F434, F602
 - anion exchange in, C1748
 - pathophysiology of, F63, F451

- rat model, magnetic resonance imaging and spectroscopy in, F63

Kidney failure

- acute
 - apoptosis in, F640
 - IGF-I receptor function in, in rats, F325
 - neutrophil-mediated, F48, F767
 - RACK1 expression in, F160
- ischemic, amelioration by *N*-acetyl cysteine, F292
- postoperative, prevention, IGF-I and, F257
- prevention, IGF-I and, F257, F325

- Lactate dehydrogenase**
 - in hepatic oxalate synthesis, C289

Lactation

- and circadian rhythms under constant light, in rats, R1039
- and food hoarding, in Siberian hamsters, R118
- gastric emptying and gastrointestinal transit during, in rats, G626
- neural osmoregulatory pathways during, in rats, R276
- and stress effects on immune function, in rats, R16

Lactotrophs, see Pituitary cells, lactotrophs

Laser-Doppler flowmetry

- in diaphragmatic microcirculation, H2173
- of renal blood flow, R1472

Lazaroids

- and early cytotoxicity after oxidant stress, in LLC-PK₁ cells, F729

Leptin

- defect, in diabetic (*db/db*) mice, E267
- and energy expenditure and fuel selection, R1204
- and female sexual behavior, in hamsters, R1354
- and food intake, and gastric emptying, in lean mice, R1007
- gene expression, β_3 -adrenergic-mediated suppression of, in rats, E1031
- human
 - diuretic activity in rats, F333
 - natriuretic activity in rats, F333
 - purification of, R1204
- in parabiosed mice, R1800, R1809
- serum levels, gender-dependent effects of exercise training on, in humans, E562
- and taste aversion production in rats, R726

Leucine

- incorporation into protein, regional cerebral rates of, determination in vivo, R1235
- kinetics
 - fetal, during metabolic acidosis, E275
 - in leucine-infused humans, E1037
- nutrition and, in humans, E585
- metabolism
 - in chronically hypoglycemic hypoinsulinemic fetal sheep, E107
 - in insulin-treated gestational diabetics, E1099
 - splanchnic, nutrition and, E585
 - oxidation, in human newborns, E592
- transport across luminal membrane of small intestine, R1060
- and whole body leucine, valine, and threonine metabolism in humans, E1037

Leukemia cells

- MOLT-4, asparaginase resistance in, C1691

Leukocyte elastase

- membrane-bound, gene expression, on neutrophils, cytokines and, L385

Leukocyte-endothelial cell adhesion

- in ischemia-reperfusion, H1710, H2976
- attenuation of, H618
- in mesenteric microvasculature, H2584

Leukocytes

- activation, in chronic muscle ischemia, H2757

adherence

see also **Leukocyte-endothelial cell adhesion**

- in chronic muscle ischemia, H2757
- in mesenteric microvasculature, H2584
- and vascular injury in cerebral ischemia, H2622
- airway recruitment of, in mice, L219
- rolling
 - cytokine-induced, in arterioles, H1725
 - P-selectin and, H1725
 - selectin-mediated, TNF- α -induced, in arterioles, H1391

Leukotrienes

- LTB₄
 - and 5-lipoxygenase activity in neutrophils, C1329
 - release, by type II pneumocytes, L830
- LTD₄, and cholinergic control of mouse small intestinal longitudinal muscle, G1135
- and hyperoxia-inhibited alveolarization, in newborn rats, L433
- in nonspecific airway reactivity, in mice, L1053

Levcromakalim

- and ATP-sensitive calcium channels in aortic endothelial cells, H2507

Liddle's syndrome

- pathophysiology of, C1871

Lidocaine

- protective effect, in experimental colitis, G272
- and reentrant arrhythmias, in subacute myocardial infarction, H299

Lingual artery

- neurogenic dilatation of, H1582

Linoleate

- depletion, yo-yo dieting-induced, in rats, R43

Linolenic acid

- levels, and weight cycling, in rats, R43

Lipases, see Lipoprotein lipase

Lipids

- absorption, and synthesis and secretion of intestinal apo A-IV, in rats, R1170
- hepatic secretion, glucocorticoids and, in mice, G1141
- in ischemia-reperfusion-induced dysfunction, H2976
- liposomes, growth in arterial intima, modeling of, H1033
- membrane, and sodium pump function in cardiomyocytes, H1680
- metabolism
 - in obese Zucker rat, E656
 - recombinant human IGF-I and, differential effects of bolus vs. continuous subcutaneous delivery, E628
 - in resting skeletal muscle, functional differences by fiber type, E340
- peroxidation
 - after exercise, antioxidant status and, R1258
 - and air blast-induced pulmonary oxidative stress, L320
 - and early cytotoxicity after oxidant injury, in LLC-PK₁ cells, F729
 - in endothelial cells, C421
 - hepatic, in animal model of chronic iron overload, G116

production

- by intestinal epithelial cells, in newborn swine, G935
- quantitative analysis of, in AS-30D hepatoma cells, E945
- pulmonary, and pulmonary distribution of iodoantipyrine, H2250

Lipocytes

- hepatic, see **Liver, stellate cells**

Lipogenesis

- hepatic, in copper deficiency, E1124
- in obese Zucker rat, E656
- quantitative analysis of, in AS-30D hepatoma cells, E945

Lipolysis

- fasting, in rats, R656
- responsiveness to epinephrine, in diabetes, E1130

Lipopolysaccharide, see Endotoxin

Lipoprotein lipase

- activity, in obese Zucker rat, E656
- gene expression, in skeletal muscle, transient induction by short-term exercise, E255

Lipoproteins

- apo E-containing, interaction with LDL receptor-related protein LRP, C369
- serum, and surfactant composition, L106

Liposomes

- aggregation and fusion of, phospholipase D and, C1279
- lipid, growth in arterial intima, modeling of, H1033

Lipostatic factor

- deficiency, in *ob/ob* mice, R1800

Lipoxin

- LXA₄, production, from porcine cells, C1821

Lipoxygenase

- inhibitor, and ATP-sensitive taurine channels, in Hep G2 cells, C1429

5-Lipoxygenase

- activity, in neutrophils, LTB₄ and, C1329
- and airway hyperreactivity, in mice, L1053
- translocation, in neutrophils, C1329

12-Lipoxygenase

- inhibitor, effects in feline pulmonary vasculature, L573

Lithium/lithium exchange

- electrogenic, in cardiomyocytes, C1186

Liver

- alcohol-induced injury, susceptibility to, in female rats, G1186
- ATP-dependent apical membrane proteins, regulation and translocation, in rats, G1041
- bile secretion, and hepatocellular bile salt traffic, G298
- biliary transport
 - carbon monoxide and, in rats, G1268

 activation
 in airway smooth muscle, L244
 ceramide and, in rabbit smooth muscle, G1615
 by $G\alpha_{i,2}$ protein, LLC-PK₁ cell growth and, F273
 by glutamine, in enterocytes, G943
 by insulin, mechanisms of, G1425
 differential expression and activation of, in dedifferentiated MDCK-focus cells, C383
 hypertonicity-induced signaling, in mouse inner medullary collecting duct cells, F305
 and inhibition of cell growth by somatostatin, E769
- Mitogenesis**
 in airway smooth muscle cells
 endothelin-induced, L1021
 β -hexosaminidase-induced, PKC and, L639
 synergism of endothelin-1 and epidermal growth factor in, C1492
 in bovine tracheal myocytes, cyclin D₁ and, L1205
 cigarette smoke-induced, in rat airways and vessels, BQ-610 effects on, L614
 EGF-induced, in renal vascular smooth muscle, C1836
 in mesenchymal cells, C1578
 in osteoblasts, C1709
 serotonin in, L795
 and tyrosine phosphorylation of GTPase-activating protein, C223
 and sodium/hydrogen exchange, C1052
 in tracheal myocytes, L558
- Mitral valve**
 regurgitation
 and pulmonary venous flow, H2453
 right-left heart interaction with, modeling, H1499
 stenosis, right-left heart interaction with, modeling, H1499
- MK-0591**
 and alveolarization in neonatal rats, L433
- Modeling in physiology**
see also Mathematical modeling
 of arterial and cardiopulmonary baroreflex control of heart rate, H2343
 of bending behavior of primary cilia, F132
 of cardiac contraction and coronary flow, H1516
 of cholangiocyte apoptosis, G106
 of closed-loop cardiovascular control, H448
 computer model, of electrophysiological instability in heterogeneous ventricular syncytia, H1838
 of coronary vasoconstriction, H2054
 dynamic, of ventricular interaction and pericardial influence, H2942
 of energy budget in free-living animals, R1336
 fiber matrix model, for filtration in artery wall with compressible intima, H2023
 finite-element model
 of laminar structure of heart, H2466
 of ventricular contraction and coronary blood vessels, H2963
 of fourth heart sound and Doppler A wave, H1527
 of glucose kinetics in nonaccessible pools, E494
 of glucose-6-phosphatase in pancreatic islets, E696
 Hodgkin-Huxley inactivation models, H2013
 inactivation models, and state-specific drug-channel interaction, H2013
 indicator-dilution dispersion models and cardiac output computing methods, H2004
 for pulmonary blood flow, H1537, H2250
 of insulin receptor binding, E1136
 of insulin secretion in relatives of NIDDM patients, E218
 of insulin sensitivity, minimal model validity, E925
 kinetic, for ¹³C-NMR, C2037

Modeling in physiology (*continued*)

- of laminar structure of heart, H2466
- of lipid liposome growth in arterial intima, H1033
- of metabolite-cation equilibria, in muscle bioenergetics, C1739
- multicompartment, of body density, E781
- nonisometric kinetic model for smooth muscle, C1025
- and nonlinear phenomena, R1149
- of open channel block of human heart hKv1.5, H2932
- of outer medullary descending vasa recta, F579
- for partial coherence analysis of coupled sympathetic and respiratory oscillators, R1314
- partially coupled inactivation models, H2013
- of phase dependencies of human baroreceptor reflex, H2040
- of pulmonary venous flow, H2453
- of rate of appearance of hepatic UDP-glucose, E155
- of regional perfusion parameters, from pulmonary microfocal angiograms, H1537
- of right-left heart interaction, H1499
- of sleep regulation, two-process model, R648
- theoretical, of facilitated transport in vasa recta, F505
- of transthyretin and thyroxine tissue uptake, E485
- of tricarboxylic acid cycle flux, C2037, C2049
- of ventricular contraction and coronary blood vessels, H2963
- of voiding in rats, R413

Molecular physiology

- of urinary concentrating mechanism, F3, F531, F579, F587, F654

Monkeys

- cynomolgus, nitric oxide and renal effects of volume expansion in, R1033
- energy expenditure in, dietary restriction and, E901
- rhesus, *see* **Rhesus monkeys**

Monoacylglycerol

- turnover, in resting skeletal muscle, functional differences by fiber type, E340

Monoamines

- uptake in opossum kidney cells, F632

Monoclonal antibodies

- 5B6-E4, and antigens expressed during early kidney development, F153

Monocyte chemoattractant protein-1

- release, by type II pneumocytes, L830

Monocytes

- effects on pulmonary arteries, during lung transplant rejection, L379
- recruitment
 - and CD14 regulation in bronchoalveolar macrophages, L925
 - by type II pneumocytes, L830
- THP-1
 - cell surface markers in, SP-A effect on, L1070
 - cytokine production, regulation by SP-A, L996

N^G-Monomethyl-L-arginine

- and nitric oxide-mediated vasodilation, in human pregnancy, H748

Morphine

- and motilin release, studies in isolated canine jejunum ex vivo, G4

3-Morpholinonydonimine-N-ethyl-carbamide

- pulmonary vasodilator responses to, inhalational anesthesia and, H290

Motilides

- mechanism of action, G71

Motilin

- and human antroduodenal motility, G71
- and pancreatic polypeptide release, G224

- plasma, measurement, G224
- radioimmunoassay for, G224
- release, regulation, ex vivo studies, G4
- and rhythmic oscillating complexes in avian gastrointestinal tract, G916

Motilin receptors

- central, in rabbit, G994
- in human antroduodenal region, G71

Motility

- see also* **Gastrointestinal motility**
- gastric, developmental change in humans, G1022
- sphincter of Oddi, antioxidant enzymes and, in opossum, G1050

Motion sickness

- plasma vasopressin in, G853

Motor activity

- circadian rhythm, and T4 light/dark cycles, studies in rats, R95

Mucin

- airway goblet cell secretion of, in hamsters, L230
- gastric, human spasmolytic polypeptide and, interaction of, G1473
- secretion, in human colonic cells, protein kinase C- ϵ and, G31

Mucosa

- atrophy, in parenterally fed rats, growth hormone and, G1100

gastric

- aspartic proteases in, G1151
- ethanol-induced damage, G1151
- nitric oxide overproduction, in uremia, G894
- proton buffering, G63
- gastrointestinal, injury, protective effects of IL-11 and, G545
- ileal, inducible nitric oxide synthase expression in, G383

Mucus

airway

- see also* **Goblet cells**
- glycoconjugate, secretion in cool and hypertonic solutions, L1121
- secretion by submucosal glands, L372
- cervical, production, C1602
- gastric
 - proton permeation through, human spasmolytic polypeptide and, G1473
 - proton transport in, in guinea pig, G63

Multidrug resistance protein

- in hepatobiliary transport, G1285
- and intracellular pH regulation, C1642

Multiple acyl-CoA dehydrogenation deficiencies

- liver coenzyme A profiles in, studies in rats, E359

Multiple organ injury

- hemorrhage-related, tumor necrosis factor and, H2219

Muscarinic receptors

M₂

- and airway hyperreactivity, L1211
- β -blockade and transregulation of, H1672

M₃, signal transduction, in ciliated tracheal epithelial cells, L301

- in airway myocytes, C1151
- cationic current, effects of protons on, in single visceral smooth muscle cells, G215

- expression, in airway smooth muscle, glucocorticoid effects on, L745
- in ganglionic transmission, in bullfrogs in vivo, R1501

- in intestinal smooth muscle, and cation channel activation, C231

- and motilin biosignaling, G224

- in rat airway, L8

- stimulation, and activation of MAP kinases, in airway smooth muscle, L244

- and VIP-induced adrenal catecholamine secretion, in dogs, R1606

Muscle, cardiac

- see also* **Cardiomyocytes; Heart, mechanics**

- anoxic, cytosolic calcium, sodium, and pH in, H2679

- contractility, 2,5-di-*tert*-butylhydroquinone and, H1001

- glutamate turnover, kinetic model for, C2037

- ionic homeostasis in, in anoxia, H2679

- pressure-flow relations in, in diastole and systole, modeling, H1516

- voltage-gated sodium channels, modulation by fatty acids, C592

Muscle, skeletal

- acetylcholinesterase in, C68

- active, vasoconstriction during exercise, R386

- adaptation to endurance exercise training, R363

- adenosine output from, in hypoxia, intracellular lactate and, H318

- aged, IGF-I action in, exercise and, E397

arterioles

- reactivity, effect of chronic myocardial infarction on, H2403

- responses to extracellular ATP in, H1886

- association of eIG-4E and eIF-4G in, regulation by insulin, C754

- ATPase histochemistry in, C1881

- ATP-sensitive potassium channels in, during metabolic inhibition, and muscle contractility, C1936

- atrophy, glucocorticoid-induced, C1007

- bioenergetics, metabolite-cation equilibria in, C1739

- blood flow, during exercise, R386

- branched-chain amino acid metabolism in, C2031

- branched-chain oxoacid dehydrogenase activity during exercise, and nutritional status, E233

- caffeine contracture
 - BAY K 8644 and, in frog, C41
 - perchlorate and, in frog, C41
- calcium-release channel activity, sphingosine and, C1465
- calcium release in, magnesium inhibition of, in pigs susceptible to malignant hyperthermia, C203
- calcium transients, modulation by EGTA, in frogs, C1437
- cell surface GLUT-4, effects of exercise training on, studies in isolated rat muscle, E320
- chemoreflex latency, H1981
- chimeric calsequestrin in, targeting of, C1420
- contractility
 - aging and, C638
 - ATP-sensitive potassium channels and, C1936
 - in rats, rhesus monkeys, and humans, R34
 - role of calcium and cross bridges in, in frogs, C1664
 - role of Na^+ - K^+ pump and sodium channel concentrations in, in rats, R1402
 - signaling pathways induced by, GLUT-4 concentration in, E118
- contraction
 - ATP cost of, acidosis and, C485
 - capillary flow during, H2693
 - and heme oxygenase mRNA expression, C59
 - metabolism during, capillary blood flow and, H2693
 - static, cardiovascular responses to, ventrolateral medulla and, H48
- denervated, insulin signaling in, in rats, E661
- electrical stimulation
 - effects on acetyl-CoA carboxylase, E262
 - effects on AMP-activated protein kinase, E262
- energetics, in humans, C525
- enzymatic adaptation to endurance training, role of diet in, R1620
- excitation-contraction coupling in, C41, C310, C550, C1475, C1726
- D-600 block of, GTP γ S removal of, C572
- fast and slow, acetylcholinesterase in, C68
- fast-twitch
 - calcium transients and homeostasis in, in mice, C1919
 - phosphocreatine kinetics and oxidative capacity in, C501
- fatigue, C485
 - in aging rats, E201
 - ATP-sensitive potassium channels during, C1936
 - low-frequency, calcium and, in mice, C550
- fatigued, force output, myosin phosphorylation and, R1980
- fiber types
 - lipid metabolism at rest, functional differences in, E340
 - regulation of proteolysis during sepsis, R849
- force development
 - potentiating effect of warm-up in, C870
 - rate of, role of calcium and cross bridges in, C1664
- force-velocity relationship, in rats, rhesus monkeys, and humans, R34
- function in urethra, reflex pathways controlling, in male rats, R1647
- glucose metabolism
 - during progressive starvation in late pregnancy, in rats, E556
 - suppression, insulin resistance caused by, E288
- glucose transport
 - cholera toxin and, E7
 - exercise training and, studies in isolated rat muscle, E320
 - pertussis toxin and, E7
- glucose uptake
 - in postnatal development, in rats, E446
 - regulation, in rats, E649
- GLUT-4
 - concentration, contraction-induced signals and, E118
 - eccentric contractions and, C1734
 - during postnatal development in rats, E446
 - glutamine turnover, in normal postabsorptive humans, E437
- growth
 - and maturation, food intake and, in rats, R1461
 - myonuclear accretion in, in turkeys, C565
- heme oxygenase mRNA expression in, C59
- hexosamines
 - effects of exercise and feeding on, in rats, E848
 - synthesis, in *ob/ob* mice, E1080
- human, sarcolemmal glucose transport and GLUT-4 in, during exercise, E385
- IGF-I receptor function in, in uremic rats, F325
- immobilized, myogenin expression, effects of clenbuterol on, E941
- inducible nitric oxide synthase in, regulation of, C35
- injury, exercise-related, in trained and untrained humans, R1258
- ischemia, microcirculation in, H2757
- lactate transport, in perfused tail-trunk preparation from trout, R1577
- length changes, and microvascular structure and function, H2107
- lipoprotein lipase gene expression, transient induction by short-term exercise, E255
- malonyl-CoA in, E262
 - regulation of, E641
- maximal shortening velocity, in rats, rhesus monkeys, and humans, R34
- and metabolic control in diabetes, studied using euglycemic and hypoglycemic insulin clamps, E530
- metabolism
 - ATP-sensitive potassium channels in, C1936
 - in humans, C525
 - in mice, C550
 - in perfused rat hindlimb, vascular α_1 -adrenoceptor control of, H2146
- metaboreflex, and vasoconstriction during exercise, R386
- microvascular damage in ischemia-reperfusion, dextran and, H1710
- myosin heavy chain
 - mRNA and protein distribution mismatch, C1881
 - synthesis rate in healthy humans, E45
- myosin isoform expression, aging and, C638
- Na^+ - K^+ pump concentrations in and contractility, studies in rats, R1402
 - effects of endurance training on, R1417
- phosphocreatine recovery kinetics, non-invasive measurement, in single human muscles, C525
- postprandial protein synthesis in, E841

in motion sickness, G853

Necrosis

vs. apoptosis, endothelial cell stress gene responses and, C1543

of gastric parietal cells, C48

and glutathione content in V79 spheroids, C1507

Necrotizing enterocolitis

murine model, protective effects of IL-11 and, G545

neonatal, pathophysiology of, G760

Nematodes

parasitic, infection, intestinal muscle contraction and worm expulsion in, G321, G1135

Nephrectomy

and hemorrhage-induced vasopressin release, in NTS-lesioned rats, R1540

Nephropathy

effects of pioglitazone on, in genetically obese diabetic rats, E989

Neuroglucopenia

metabolic response to, histaminergic contribution to, R1918

Neurohormones

in normal humans, E429

Neuroimmunomodulation

in guinea pigs, G1451, R675

Neurokinin receptors

- NK₁
 - antagonists, and grain dust-induced tissue injury in vivo, R475
 - on colonocytes, G238
 - and colonic motility, G1607
 - in viscerosensitive responses to acute inflammation, G141

Neuromedin B

- and ingestive control in rats, R433

Neuronal precursor cell-expressed, developmentally downregulated, see Ubiquitin-protein ligase Nedd4

Neurons

- area postrema, activation, and arterial baroreflex activity, R519
- bulbosacral C1, in rats, effect of cholinergic agonists on, R249
- cardiac
 - angiotensin II-sensitive, R766
 - control of pacemaker tissues, H2525
 - sympathetic premotor, R615
- of caudal ventrolateral medulla, in rats, R800
- in horizontal limb of diagonal band of Broca
 - electrophysiology of, C163
 - pharmacological properties of, C163
- norepinephrine transport, nitric oxide and, H875
- rat brain, Fos induction in, by portal sodium chloride infusion, R913
- of rostral ventrolateral medulla, in rats, R800
- sodium-potassium-two chloride cotransporter BSC2 expression in, C173

Neuropathy

- diabetic, and sexual dysfunction, in rats, R259

Neuropeptide Y

- mRNA expression, in arcuate nucleus, in diet-induced obese rats, R1365

Neurotensin

- and gastric acid secretion, before and after vagotomy, in dogs, G1236

Neurotensin receptors

- apamin-type, and relaxant effect of xenin on rat ileum, G190

Neurotransmitters

- in metabolic depression in *Sipunculus nudus*, R350

Neutral endopeptidase

- in renal vascular smooth muscle cells, growth factors and, C1836

Neutrophils

- activation of, C770
- in acute renal failure, nitric oxide and, F48
- adherence
 - to cytokine-activated cardiomyocytes, inhibition by nitric oxide, H2807
 - to human bronchial epithelial cells, cAMP and, L580
- hyperbaric oxygen and, C770
- adherent, apoptosis in, C295
- aging
 - kinetics, H401
 - L-selectin expression and, H401
- CD11b/c expression, in secretagogue-induced pancreatitis, in rats, G23
- CD11/CD18 expression, effects of hyperoxia on, L418
- circulating, apoptosis in, H2852

- defensin release, and IL-8 in airway epithelial cells, L888
- degranulation, modeling of, C1279
- eicosanoid production from, C1821
- endotoxin-induced accumulation of, in airways, inhibition by macrolides, L15
- in endotoxin-induced liver injury, G1195
- extravasation, and endotoxin-induced liver injury, G1195
- and hepatocytes, interactions of, CD18 integrin-mediated, G408
- ICAM-1 expression in, hyperoxia and, L418
- 5-lipoxygenase activity in, LTB₄ and, C1329
- L-selectin stimulation of, and calcium signaling via tyrosine kinase, H1302
- in lung-gut injury, G845
- margination, and endotoxin-induced liver injury, G1195
- in neonatal acute pulmonary inflammation, L471
- phagocytosis, cytokine control of, C1352
- in pulmonary vascular injury and recovery, H279
- regulated expression of membrane-bound leukocyte elastase on, L385
- release from bone marrow, L-selectin and, H1717
- rolling, rapid immobilization of, H114
- sequestration in pancreatitis-associated lung injury, effects of PGE₁ on, in rats, G23

Newborn

- cardiac sinoatrial node, hyperpolarization-activated current, H1549
- choroidal vessels in, regulation of prostanoic vasomotor effects and receptors in, studies in pigs, R995
- enterocytes
 - glucose metabolism in, G1530
 - proline metabolism in, G1382
- human
 - euglycemic hyperinsulinemic clamp use in, E86
 - glucose production in, E86
 - insulin sensitivity in, E86
 - proteolysis in, suppression by amino acids, E592
- hypoxia-induced colonic damage in, G760
- hypoxic pulmonary hypertension in, H669
- intrapulmonary artery relaxation, chronic hypoxia and, H2436
- lung disorders in, treatment with nitric oxide and hyperoxia, L903
- mammalian
 - baroreflex function in, AT₁ receptors and, R1862
 - thermoregulation in, R1931
- persistent pulmonary hypertension of, L1013
- pig
 - cerebral ischemic injury in, H2622
 - cerebral vasodilation, in hypoxia, H1323
 - cerebral vasodilator effect of magnesium in, H511
 - enterocytes, proline metabolism in, G1382
 - intrapulmonary artery relaxation, chronic hypoxia and, H2436

- protein synthesis in, after intrauterine growth retardation, E877
- potassium secretion in, F397
- preterm, see **Preterm newborn**
- pulmonary host defense in, L471
- rabbit
 - acute pulmonary inflammation in, L471
 - cortical collecting ducts, hydrogen-potassium ATPase in, F160
 - hyperoxia-induced pulmonary fibrosis in, surfactant and, L720
 - hypoxia in, effects on aldosterone, R1084
- rat
 - artificially fed, growth of, R1532
 - skeletal muscle growth and maturation, food intake and, R1461
 - sleep ontogeny in, R1792
 - survival, retinol requirement in midgestation and, E25

NH⁺

- activation of AE2 anion exchanger in *Xenopus* oocytes, C1232

NHE, see Sodium/hydrogen antiporter (sodium/hydrogen exchanger)

Nicotine

- and endothelium-dependent arteriolar dilatation in vivo, H2337
- intrapericardial, viscerosomatic reflex evoked by, H827
- and neurogenic dilatation in lingual artery, H1582

Nicotinic receptors

- and motilin biosignaling, G224

NIDDM, see Diabetes mellitus, non-insulin-dependent

Nifedipine

- and VIP-induced adrenal catecholamine secretion, in dogs, R1606

Niflumic acid

- and taurine transport in rat erythrocytes, C1457

Nitric oxide

- see also **Endothelium-derived relaxing factor**

- and aging rat kidney, R1747, R1985
- in anorectal smooth muscle neurotransmission, G1075
- antimitogenesis induced by, H1342
- antiperoxide effects, in vascular endothelial cells, L1133
- and arteriolar response to extracellular ATP, H1886
- in autocrine control of endothelial cells, H760
- biosynthesis, in kidney, F561
- and bleeding prolongation in hemolysis, H2875
- and calcium oscillations in porcine tracheal smooth muscle, L588
- and calcium release from sarcoplasmic reticulum of porcine tracheal smooth muscle cells, L1
- cell cycle effects, in smooth muscle, H1810

central

- and adaptation to hypovolemia, in rats, H2282
- effects on cardiovascular and central norepinephrine responses to stress, R1447

in central baroreflex regulation of sympathetic nerve activity, H2446
and chloride currents in human lung epithelial cells, L1098
and coronary artery relaxation, H2765
and cyclic GMP production in glomeruli, effects of endothelin on, F31
cytoprotective effects
and cytokine-induced pulmonary epithelial cell damage, in mice, L707
in vascular endothelial cells, L1133
donors, inhibition of neutrophil-cardiomyocyte adhesion, H2807
and effects of substance P on proximal tubule fluid absorption, R1396
endogenous, and blood pressure variability, H632
endothelium-derived, and regulation of proximal tubule acidification, R691
and fetoplacental blood flow, in mammals, R441
formation
in central nervous system, in rats, H2361
endotoxin-induced, in vascular smooth muscle cells, H576
in myocardial ischemia-reperfusion injury, H2327
and gallbladder motility, in prairie dogs, G770
and glomerular microcirculation, F561
in glyceraldehyde-3-phosphate dehydrogenase inhibition, glutathione redox cycle and, C99
and hemodynamic adaptation to long-term changes in sodium intake, R1162
and hepatic blood flow regulation after shock, H2736
and hyperoxic lung injury
endothelial involvement in, L631
recombinant human superoxide dismutase and, L903
in hypoxia-induced colonic damage in neonatal rats, G760
in hypoxia-induced hypertensive rat lungs, L1126
and hypoxic arterial vasodilation, H1785
inhalation
attenuation of oxygen-mediated pulmonary endothelial injury, L631
continuous, and pulmonary hypertension, H517
and intestinal epithelial permeability, effects of extracellular pH, G923
and L-type calcium currents, in alveolar epithelial cells, L1092
and lung-gut injury, G845
and maternal systemic circulation, in pregnancy, R441
and mesenteric perfusion, G612
metabolites, excretion, in aging kidney, R1768
modulation of autonomic effects, in open-chest dogs, H263
and neurogenic dilatation in lingual artery, H1582
neuronal, and cortical spreading depression, H1315
neuronal NOS-derived, permissive role in hypercapnia, H559
and neutrophil adhesion to cytokine-activated cardiomyocytes, H2807

and norepinephrine release in mesenteric arteries, H207
obligatory role in glutamate-dependent hyperemia, R1155
and osteoclast formation, cGMP-dependent mechanism in, F283
overproduction, in uremia, G894
physiology
in gastrointestinal tract, C1790
in humans, F178, F364, F561
and potassium channels, in basilar artery, H256
prevention of neutrophil-mediated acute renal failure, F48
production
in allergic airway inflammation, L124
exercise training and, H1070
in mesangium, F721
by pulmonary endothelial cells, regulation, L934
by rat alveolar macrophages, modulation by surfactant protein A, L1198
and protein tyrosine phosphatase activity, H1342
pulmonary artery relaxation induced by, potassium channels and, H904
in pulmonary circulation
in fetal pulmonary hypertension, L1005, L1013
during lung transplant rejection, L379
in radiation pneumonitis, in rats, L651
regulation of sodium/hydrogen exchange in proximal tubule, F242
release
estrogen-induced, H1804, H2264
gender differences in, H1804, H2577
and renal effects of volume expansion, in conscious monkeys, R1033
and renal function in humans, F364, F561
and renal hemodynamics, F312, F561
in renal segmental resistances, in dogs, R1670
and renin secretion, macula densa-mediated mechanism for, R879
in salbutamol-induced vasodilation, in rat diaphragmatic microcirculation, H2173
and salt balance, F561
scavenging, cross-linked hemoglobin and, studies in dogs, R793
and serotonin-evoked calcium release, in pulmonary arterial smooth muscle cells, L44
and sodium channels, in rat cortical collecting duct cells, F498
and sphincter of Oddi contractile activity, G1050
in spontaneous lung chemiluminescence, L262
in sustained conducted vasodilation, H1364
synthesis
endothelin-1 and, L1078
hypoxia and, in isolated rabbit lung, L1167
inhibition, renal vascular response to, in aging rat, R1747
by Kupffer cells, after trauma, G1457
measurement in humans, after typhoid vaccination, R1888
oxygen and, in vascular endothelial cells, L1161

and TNF- α -induced endothelial permeability, L979
and uptake-1-mediated norepinephrine transport, H875
and uterine quiescence before parturition, in pregnant mammals, R441
and uteroplacental blood flow, in mammals, R441
and vascular tone, in pulmonary hypertension, L807
and vasoactive effects of basic fibroblast growth factor, H1401
and vasoconstriction in hypertensive lungs, H2616
in vasodilator effects of prostaglandin D₂, in newborn pigs, R995
vasodilatory response to
see also **Endothelium-derived relaxing factor**
in human pregnancy, H748
and vasoreactivity in neonatal pulmonary arteries, chronic hypoxia and, H2436
and venular response to acetylcholine, H2541
Nitric oxide synthase
activity
and macrophage arginine metabolism, E181
in uremic rats, G894
and agmatine effects on glomerular filtration, F597
counterregulation of, in rat tissues, C1790
endothelial
in fetal lambs with chronic pulmonary hypertension, L1005, L1013
in kidney, F561
knockout mice, H1401
in ovine pregnancy, H1730
persistence in fetal lung, after decreased blood flow, L969
regulation by oxygen, in vascular endothelial cells, L1161
upregulation, in pulmonary hypertension, H806
forms of, E1008
gene expression
endothelial, in ovine pregnancy, H1730
in fetal lambs with pulmonary hypertension, L1005
in myometrium of pregnant rat uterus, E1008
hypothalamic, in cholestatic rats, G1034
inducible
calcium-independent activity, E1008
cardiac, functional significance of, H35
constitutive expression in mouse ileal mucosa, G383
downregulation by hydrogen peroxide, in mesangial cells, F721
gene expression, C1790, L132, L651, L1078
gene regulation, in intestinal epithelial cells, G1499
in kidney, F561
regulation, in skeletal muscle, C35
and surfactant protein A, L1198
induction, regulation by protein tyrosine kinase, in rat hepatocytes, G207

Nitric oxide synthase (continued)

- inhibition
 by aminoguanidine, effects in acute endotoxemia, H843
 and arteriolar hyporesponsiveness to endothelin-1 in septic rats, R969
 central, modulation of gastrointestinal motility, G417
 long-term, renal effects, F561
 and microvessel permeability, H176
 and neurogenic dilatation in lingual artery, H1582
 and neutrophil adhesion to cytokine-activated cardiomyocytes, H2807
 and osteoclast formation, F283
 renal hemodynamic effects, F178, F312
 and responses to bradykinin in rat hindquarters vascular bed, R631
 vasodilator potentiation by, G507
 and zonal glomerular filtration rate, in rats, F312
 in kidney, F561
 neuronal
 and cerebral blood flow response to hypercapnia, H559
 gene expression, regulation by VIP, C1790
 in kidney, F561
 in macula densa during feedback stimulation of renin, R1359
 in pregnant uterus, in mammals, R441
- Nitro-L-arginine**
 and vasoconstriction of hypertensive rat lungs, L807
- Nitrofen**
 administration, for murine lung hypoplasia and left-sided diaphragmatic hernia, dose specificity and time of, L362
- Nitrogen**
 excretion, fermentable carbohydrate and, in rats, G515
 salvage by liver, in protein deficiency, G257
- Nitrogen balance**
see also **Proteins, turnover**
 after metabolic stress, dextrose vs. amino acid availability in, E36
 in elderly women, effects of recombinant human growth hormone and IGF-I on, E94
 in human skeletal muscle, during spaceflight, E688
 in protein deficiency, G257
- Nitroglycerin**
 and pulmonary vasculature, mechanism of action, L787
- 7-Nitroindazole**
 and sympathetic vasodilation in rat hindlimb, H2369
- N^ω-Nitro-L-arginine**
 and cerebral blood flow, H1315
 and diaphragmatic microcirculation, H2173
 intracerebroventricular administration of, effects on adaptation to hypovolemia, in rats, H2282
 in measurement of gastric emptying in conscious dogs, G909
 and vasoconstriction in hypertensive lungs, H2616
- N^ω-Nitro-L-arginine**
 and collateral vessel response to serotonin, H2409

- and neurogenic dilatation in lingual artery, H1582
- N^ω-Nitro-L-arginine methyl ester**
 and bleeding time in hemolysis, H2875
 and hepatic blood flow regulation after shock, H2736
- N^ω-Nitro-L-arginine methyl ester**
 chronic hypertension model using, H1287
 effect on zonal glomerular filtration rate, F312
 effects, in radiation pneumonitis, in rats, L651
- S-Nitrosocysteine**
 in central nervous system, stereoselective recognition sites for, H2361
- S-Nitrosothiols**
 and neuronal norepinephrine transport, H875
- Nitrovasodilators**
 response to, charybdotoxin and, in rat lung, L787
- Nitrosyl factors**
 neurogenically derived
 hemodynamic effects, H2361
 and sympathetic vasodilation, H2369
- Nitroxidergic nerves**
 and lingual artery innervation, H1582
- Nonadrenergic noncholinergic nerves**
 inhibitory, in anorectal smooth muscle, G1075
 and lingual artery innervation, H1582
- Nonelectrolyte transport**
 phloretin sensitivity of, studied in perfused rat liver, G563
- Non-insulin-dependent (type II) diabetes mellitus (NIDDM), *see* Diabetes mellitus, non-insulin-dependent (NIDDM)**
- Nordihydroguaiaretic acid**
 inhibition of ATP-sensitive taurine channels, C1429
- Norepinephrine**
 arteriolar hyporesponsiveness to, in septic rats, R969
 cardiac spillover, H2079
 and carotid body chemoreceptor function, C628
 central, in response to stress, effects of central nitric oxide on, R1447
 circulating levels, and cold exposure during prolonged walking, R226
 constrictor response to, in mesenteric arteries, vasopressin and, H1087
 disposition at cardiac sympathetic nerve terminals, assessment of, H1182
 and inositol 1,4,5-trisphosphate in cerebral vasculature, high altitude-induced changes in, R669
 and insulin secretion, in mouse pancreatic islets, R1371
 intestinal vascular responsiveness to, in portal hypertension, G831
 and myogenic response in mesenteric small arteries, H2241
 neuronal transport, nitric oxide and, H875
 and nitric oxide-mediated vasodilation, in human pregnancy, H748
 and plasma renin levels during water deprivation, R1197

- production
 in response to endotoxin, studies in rats, R1525
 in response to neuroglucopenia, histaminergic contribution to, R1918
 radiolabeled, uptake during fasting lipolysis, studies in rats, R656
 reflex control of, angiotensin II infusion and, in rabbits, R487
- release
 from chromaffin cells, C476
 in mesenteric arteries, nitric oxide and, H207
 in pulmonary circulation, adenosine and, H1100
 and renal afferent arteriolar smooth muscle cells, F389
 response to, in feline pulmonary vasculature, effects of PLA₂, 12-lipoxygenase, and cyclooxygenase inhibitors on, L573
 in response to core cooling, in humans, R557
 and sarcoplasmic reticulum expression in cardiomyocytes, H2639
 and SERCA2 expression in cardiomyocytes, H1876
 spillover, direct quantification of, in dogs, E746
 and transient induction of lipoprotein lipase gene expression in human skeletal muscle, E255
 turnover, during fasting lipolysis, studies in rats, R656
- Norepinephrine transporter**
 dehydration and, in rat adrenal glands, R1897
- Northern blot analysis**
 of adrenomedullin, F691
 of renal carbonic anhydrase IV expression, F551
- Nuclear factor-κB**
 activation, role of iron in, G1355
 and activator protein-1, in glucocorticoid receptor signaling, L838
 in ozone-induced epithelial injury, L504
 in regulation of tissue transglutaminase gene expression, G281
 in silica-induced cyclooxygenase II gene expression, in rat alveolar macrophages, L779
- Nuclear factor-interleukin-6**
 in ozone-induced epithelial injury, L504
- Nuclear magnetic resonance spectroscopy**
 active potassium analog for, cesium-133 as, C1618, C1635
 carbon-13
 dynamic, kinetic model for, C2037
 of glutamate turnover, C2037, C2049
 fluorine-19, of glucose transport in erythrocytes, C1415
 of lung water compartments, in rat, L772
 phosphorus-31
 in early myocardial ischemia, H1333
 in heart, H1333, H2085
 of intracellular pH regulation in turtle heart, R6
 and ischemic preconditioning in rat heart, H544
 in liver of transgenic mice, C1193
 in mouse brain, C1567
 in myocardium, during hypoxia, H2664
 in postischemic skeletal muscle, H83

O

- in skeletal muscle, C485, C491, C501, C525
 in stunned myocardium, H1122
 in trained heart, H409
 in working guinea pig heart, H371
 in polycystic kidney disease, in rats, F63
 of postischemic reperfusion in vascular endothelium, H1986
- Nucleoside transporters**
 concentrative, C707
 equilibrative, C707
 human, cDNAs, molecular cloning and functional expression of, C707
 in human intestinal brush-border membrane, G1314
 sodium-dependent, C707
- Nucleoside transport inhibitor**
 myocardial infarct size reduction with, H1857
- Nucleotide receptors**
 P2Y₁, in developing salivary glands, C1862
- Nucleotides**
 extracellular, and chloride ion secretion by intestinal epithelial cells, C1862
- Nucleus of solitary tract**
 adenosine A₁ receptors, and defense response, studies in rats, R195
 cardiovascular depressor sites in, studies in rats, R1998
 commissural portion, synaptic connection with dorsal motor nucleus of vagus, in rats, G654
 Fos production in, angiotensin II and, in rabbits, R1515
 5-HT₂ receptors, and carotid chemoreflex, H1250
 interactions of sympathetic and vagal cardiac afferent, H2843
 neurons, response to afferent inputs, facilitation of, R519
 nicotinic signal transmission in, in rat medullary slices, R869
 opioids in, effects on feeding, in rats, R1028
 serotonin microinjected into, cardiovascular effects of, in rats, R1135
 S-nitrosocysteine in, stereoselective recognition sites for, H2361
 sodium-sensitive sites, medullary depressor pathways and, R126
 vagal afferents to, and *c-fos* expression, in rat brain, R59
 and vasopressin release during hemorrhage, studies in rats, R1540
- Nutrients**
 absorption, in GLP-2-treated mice, E1050
 availability during postexercise recovery, effects on muscle protein synthesis, in dogs, E1023
 digestion, in GLP-2-treated mice, E1050
 intake, effects on muscle enzyme activity, in endurance-trained humans, R1620
 postingestive effects of, in rats, R289
- Nutrition**
 in insulin-dependent diabetes mellitus (IDDM), E59
 and leucine metabolism, in humans, E585

- Obesity**
 and agouti regulation of intracellular calcium, E379
 angiotensinogen gene expression in, in rats, R1704
 central mechanisms and, in Siberian hamsters, R783
 and density of fat-free body mass, E781
 dietary
 and dysregulation of arcuate nucleus preproenkephalin Y mRNA, in rats, R1365
 in mice, R357
 in rats, E1043, R188, R1264, R1365
 genetic, mouse model, *see* **Mice**, *ob/ob* and growth hormone secretion in adults, E1108
 insulin resistance in, time course of, E147
 lactate production associated with, studies in pigs, E957
 leptin and, F333
 in hamsters, R1354
 in mice, R1007
 in *ob/ob* mice, R1204
 prevention, in BAT-ablated transgenic mice, R1088
 rat model for, *see* **Rats**, **Zucker**
- Obesity gene product**, *see* **Leptin**
- Oligopeptides**
 renal assimilation of, physiological mechanisms and metabolic importance of, E723
- Oncorhynchus mykiss**, *see* **Trout**
- Opiate receptors**
 antagonists, chronic administration of, in experimental heart failure, H478
- Opiates**
 endogenous, effects on brain-to-blood transport of corticotropin-releasing hormone, E312
- Opioid growth factor**
 in developing rat heart, R1841
 and DNA synthesis in gastrointestinal tract, R1094
- Opioid receptors**
 central, mediation of glucoprivic inhibition of luteinizing hormone secretion, E517
 interaction with β -adrenergic receptors, in cardiomyocytes, H797
 ζ , identification and characterization, in developing rat heart, R1841
- Opioids**
 and cAMP, in hypoxic vasodilation, H1350
 exogenous, and microcirculation of injured peripheral nerves, H76
 in nucleus of solitary tract, effects on feeding, in rats, R1028
- Opossum**
 kidney cells, phosphate uptake, effects of intracellular pH on, R1904
- Organic anions**
 urinary and tissue levels, in rat model of polycystic kidney disease, F63
- Organic anion transporter**
 in hepatobiliary transport, G1285
 multispecific, canalicular, in rats, G979
- Organ preservation**
 hepatic cold storage and rewarming for, pH regulation during, G638
- Ornithin**
 synthesis of, in enterocytes of postnatal pigs, G1382

- Orocecal transit**
 and aging, R243
- Oropharyngeal metering**
 in humans, R1740
- Oropharynx**
 motor function, cranial nerve modulation of, G802
- Osmolality**
 and cell volume regulation, in C6 rat glioma cells, C318
 extracellular, and proteoglycan synthesis in intervertebral disk, C1499
- Osmolarity**
 and regulatory volume decrease, in NIH/3T3 cells, C1798, C1804
- Osmolytes**
 in MDCK cells, C804
 and mouse renal medullary transgene expression, F610
- organic**
see also **Betaine**
 accumulation, in mouse inner medullary collecting duct cells, hypertonicity-induced, F305
 in cell volume regulation, intracellular electrolytes and, C1766
 and kidney cell survival and growth under hypertonic environment, F267, F305
 in regulatory volume decrease, in NIH/3T3 cells, C1798, C1804
 renal transport, F205, F305
 in renal medulla, and hydration status, in rats, F94, F100
 urinary and tissue levels, in rat model of polycystic kidney disease, F63
- Osmoreceptors**
 hepatic, in rats, R750
 peripheral, in rats, R750
- Osmoregulation**
see also **Cell volume, regulation**
 of amino acids, in MDCK cells, C804
 of betaine, in renal medulla, in rats, F94, F100
 central mechanisms of, in rats, R913
 in C6 glioma cells, C318
 of magnocellular neuroendocrine system, in lactating rats, R276
 and mouse transgene expression, F610
 in sheep, R593
 summer, in northernmost living salmonid, R743
- Osmosensitivity**
 of voltage-activated chloride current, C778
- Osteoblasts**
 differentiation, and regulation by ET-1, E967
egr-1 gene expression, acidosis and, C1450
 endothelin A receptors, downregulation by osteogenic protein-1, E967
 IL-6 production, endothelin effects on, E461
 inhibition, potassium depletion and, F774
 interleukin-6 synthesis, stimulation by PGF_{2 α} , E208
 in mineralizing cultures, PDGF modulation of, C1709
 mitogenesis in, C1709
 thyroid hormone effects on, E212
- Osteocalcin**
 gene expression, in osteoblast response to thyroid hormone, E212

Osteoclasts

- formation, inhibition by nitric oxide, cGMP-dependent mechanism in, F283
- stimulation, potassium depletion and, F774

Osteogenic protein-1

- and ET_A receptors, E967

Osteopontin

- metanephric, regulation of nephrogenesis, F469

Osteosarcoma cells

- UMR-106, sodium-chloride cotransporter expression in, thiazide diuretics and, C109

Otitis media

- steroid therapy in, C184

Ouabain

- and arterial chaos, H1696
- and rat soleus muscle contractility, R1402
- sensitivity, in chimeric ion pump, C1717
- tritiated, binding, and Na⁺-K⁺ pump concentrations in skeletal muscle, R1402, R1417

Ovary

- see also Rats, ovariectomy in*
- Sparus aurata*, presence and activity of gonadotropin-releasing hormone in, R111
- steroids produced by, and coronary vascular muscle reactivity, H2645

Overnutrition

- and skeletal muscle growth and maturation, in rats, R1461

Oviposition

- circadian organization, in female Japanese quail, R172

Oxaloacetate

- in human muscle, at rest and during exercise, E239

Oxidants

- apoptosis-induced accumulation of, in B cells, inhibition by CD40, C950
- and cyclooxygenase activity, in airway epithelial cells, L879
- cytotoxicity, in pulmonary artery endothelial cells, L1133
- and intracellular free zinc in cardiomyocytes, H2095
- in ischemia-reperfusion-induced dysfunction, H2976

Oxidant stress

- in kidney cells, C737
- on LLC-PK₁ cells, early cytotoxicity after, F729
- on vascular smooth muscle cells, endothelial cells and, F767

Oxidation

- in insulin-treated gestational diabetes, E1099
- and metabolic control in diabetes, studied using euglycemic and hypoglycemic insulin clamps, E530

Oxidation-reduction agents

- and intracellular calcium-activated chloride channels, in skeletal muscle sarcoplasmic reticulum, C324

Oxidative enzymes

- adaptation to endurance exercise training, R363

Oxidative phosphorylation

- in guinea pig myometrium and heart, C399
- kinetics, in hypertrophied heart, H1615
- maximal capacity, of mammalian heart, H769

Oxidative stress

- and apoptosis, C675
- ATP and, in cardiomyocytes, H1598
- and contractile function of diaphragm, in aging rats, E201
- in endothelial cell apoptosis, C1543
- and glutathione content in V79 cells, in two- or three-dimensional culture, C1507
- and growth of cancer spheroids, R1677
- hepatic injury with, G1355
- in hepatocytes, C1286
- and insulin responsiveness in 3T3-L1 adipocytes, E935
- and lung injury, L262
- and pancreatic acinar cells, G1489
- pulmonary, air blast-induced, L320
- in rat small intestine, G328
- tissue protection against, by angiotensin-converting enzyme inhibitors, in mice, R514

2-Oxoglutarate

- in human muscle, at rest and during exercise, E239

Oxygen

- see also Hyperoxia; Hypoxia; Oxygen-derived free radicals; Reactive oxygen species*

- delivery, venular structures in, H2233
- diffusion
 - coefficient, H1106
 - in muscle, temperature and, H1106
- hyperbaric, and neutrophil adherence, C770
- nitric oxide synthase regulation by
 - in isolated rabbit lung, L1167
 - in vascular endothelial cells, L1161
- oxygen-15, blood substitute studies with, H2492
- and pulmonary vasodilation in response to birth-related stimuli, in fetal lamb, H2377
- transport
 - in muscle, H1106
 - during normoxic human exercise, R1874
- uptake
 - in dynamic exercise, H2655
 - by embryonic and fetal rat neural tissue, with maternal diabetes, E173
 - in perfused rat hindlimb, vascular α_1 -adrenoceptor control of, H2146

Oxygen consumption

- dietary restriction and, in monkeys, E901
- exercise training and, H1070
- heat acclimation with exercise and, H2085
- hepatic, acute liver injury and, G617
- in mouse, at rest and during exercise, H1053
- in muscle, H1106
- myocardial
 - in dogs, H753
 - in heart failure model, H186
 - in mammals, H769
- in working guinea pig heart, H371

Oxygen-derived free radicals

- see also Reactive oxygen species; Superoxide*

- cardiomyocyte injury due to, H1598
- and contractile function of diaphragm, in aging rats, E201
- effects on pancreatic acinar cells, G1489
- in fetal growth retardation, in rats, H701
- and ischemia-reperfusion injury in vascular endothelium, H1986
- and muscle damage with exercise, in trained and untrained humans, R1258
- in myocardial ischemia, H2071
- and pulmonary arteries, during lung transplant rejection, L379
- tissue protection against, by angiotensin-converting enzyme inhibitors, in mice, R514

Oxygen saturation

- arterial, in dynamic exercise, H2655

Oxygen tension

- alterations, and neutrophil function, C1352
- arterial, high, and coronary endothelium, H67
- gradients, in venous microcirculation, H2233

Oxygen toxicity

- see also Hyperoxia*
- pulmonary, pathogenesis, L418

Oxylate

- synthesis, hepatic, C289

Oxyntomodulin

- and gastric acid secretion, before and after vagotomy, in dogs, G1236

Oxytocin

- antisense oligodeoxynucleotides, effects on oxytocin release from hypothalamoneurohypophysial explants, R1441

Oxytocin receptors

- G protein coupling, in rat myometrium during labor, E870

Ozone

- and human tracheal prostaglandin endoperoxide G/H synthase 2, L879
- and pulmonary cell growth and differentiation, in rats
 - day vs. night and, L1152
 - dose response, L1152

P

PACAP, *see* Pituitary adenylate cyclase-activating peptide

Pain

- referred, in ureteric colic, studies in rats, R1409
- of renal colic, in rats, R1409
- of ureteric colic, in rats, R1409
- visceral, *see Visceral pain*

Palmitate

- oxidation, and incorporation into muscle lipid pools, E340

PAMP, *see* Proadrenomedullin amino-terminal 20 peptide

Pancreas

- acinar cells, *see Acinar cells, pancreatic*
- development, impairment, in undernourished rats, E634
- enzyme secretion, trypsin inhibitors and, G340

- Phenylephrine**
 - calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954
 - vasoreactivity to, in hypoxia, H1945
- Phloretin sensitivity**
 - of nonelectrolyte transport, studied in perfused rat liver, G563
- Phodopus sungorus**, see **Hamsters, Siberian**
- Phorbol ester**
 - and mucin secretion in colonic cell lines, protein kinase C- ϵ and, G31
- Phorbol 12-myristate 13-acetate**
 - in hepatic inflammation, G207
- and insulin secretion by cultured islets from *ob/ob* mice, E304

Phosphatases

and CFTR activity, C142

Phosphates

- see also **Inorganic phosphate**
- high-energy, and ischemic preconditioning in rat heart, H544
- homeostasis, renal regulation of, molecular mechanisms of, F751
- transport
 - in opossum kidney cells, effects of intracellular pH acidification on, R1904
 - in renal proximal tubule, ontogenic changes in, R134

Phosphatidic acid

production, and liposome formation, C1279

Phosphatidylethanolamine

alkenylacyl, turnover, in endothelial cells, in hypoxia, H1426

Phosphatidylinositol 3-kinase

and glucose transport activity in 3T3-L1 adipocytes, E326

and insulin signaling in denervated muscles, E661

Phosphatidylserine

peroxidation, during apoptosis, C675

surface exposure of, and calcium oxalate crystal attachment to IMCD cells, F55

Phosphocreatine

kinetics, and oxidative capacity, in skeletal muscle, C501

recovery kinetics, noninvasive measurement, in single human muscles, C525

Phosphocreatinine

in cardiac recovery with ischemia-reperfusion, heat acclimation with exercise and, H2085

Phosphodiesterase

inhibitor, and neutrophil-epithelial adhesion, L580

type V, inhibitor, effects on osteoclast formation, F283

Phosphoenolpyruvate carboxykinase

in offspring of protein-restricted rat dams, G1083

Phosphofructokinase

tissue, and dietary obesity in rats, R188

Phosphoinositidase C

purine and pyrimidine nucleotide-sensitive, in frog inner ear, R51

Phosphoinositide

hydrolysis, and IL-6 synthesis by osteoblasts, E208

metabolism, in pancreatic islets of diabetic rats, E737

Phospholamban

and carbachol inhibition of β -receptor subtypes, H2726

expression, and SR calcium ATPase, coordinate regulation in developing heart, H57

knockout mice

cardiac cAMP and protein phosphorylation in, β -adrenergic regulation of, H785

and L-type calcium channel function, H606

Phospholipase A₂-activating protein

synthesis in rabbit distal colon, IL-1 β and, G1338

Phospholipases**PLA₂**

- and adenosine-stimulated DNA synthesis in human endothelial cells, H1470
- calmodulin-dependent, inhibition of Na-K-ATPase, C1365
- cardiac activity, IL-1 β stimulation of, C450
- and dipalmitoyl phosphatidylcholine synthesis in lung, L238
- and eicosanoid synthesis by endothelial cells, H1426
- and hypotonic response in pigmented ciliary epithelial cells, C212
- inhibitor, effects in feline pulmonary vasculature, L573
- and sodium-potassium ATPase inhibition by parathyroid hormone, F781
- thrombin activation of, and lysophosphatidylcholine production in cardiomyocytes, H1972

PLC

- in cardiomyocytes, activation of, C560
- in feline pulmonary vasculature, L573
- and hypotonic response in pigmented ciliary epithelial cells, C212
- and IL-6 synthesis by osteoblasts, E208
- isoforms, in vascular smooth muscle cells, C1558
- in rat hepatocytes, activity of, G1091
- in regulation of insulin secretion, E671
- in stretched endothelial cells, activation of, C650

PLC- β , isoenzymes, agonist-induced

- activation in pancreatic acinar membranes, G135

PLC- β 1, activation by angiotensin II,

C1558

PLC- γ 1

- in pancreatic acinar membranes, activation by epidermal growth factor, G1276
- tyrosine phosphorylation, and activation of, G1276

PLD

- and aggregation and fusion of liposomes, C1279
- and IL-6 synthesis by osteoblasts, E208
- polycation-induced activation, in endothelial cells, L608
- in stretched endothelial cells, activation of, C650

Phospholipids

- metabolism, in resting skeletal muscle, functional differences by fiber type, E340
- secretion, by intestinal epithelial cells, in newborn swine, G935
- surface exposure of, and calcium oxalate crystal attachment to IMCD cells, F55

Phosphonofluoridic acid

- effects, in feline pulmonary vasculature, L573

Phosphorylation

- myosin, actin filament disruption and, in smooth muscle, C1960
- myosin light chain, C278
- in vascular smooth muscle cells, C1810

myosin light chain, and venular permeability, H1437

oxidative

in guinea pig myometrium and heart, C399

kinetics, in hypertrophied heart, H1615

maximal capacity, of mammalian heart, H769

protein, in phospholamban-knockout mouse hearts, β -adrenergic regulation of, H785

troponin I, myocardial infarction and, H360

tyrosine

of GTPase-activating protein, and serotonin-induced mitogenesis, C223

and intracellular acidosis, C886

Photoperiod

and feeding patterns

in Siberian hamsters, R68

in *Sminthopsis crassicaudata*, R78

and locomotor behavior in Syrian hamsters, R1219

measurement, internal coincidence mechanism in female Japanese quail, R172

and metabolic stress, effects on immune function in female deer mice, R1762

reproductive response to, environmental effects on, in Siberian hamsters, R887

Photoreceptors

Drosophila, electrophysiology of, C27

human, see **Eye, rod photoreceptors in**

Phototransduction

Drosophila, C27

Phrenic nerve

activity, and sympathetic nerve discharge, in vagotomized cats, R1314

nucleus, NMDA and non-NMDA receptors in, and respiratory effects of carotid chemoreflex, R302

Physical training, see Exercise training**Pial artery**

dilation, hypoxia-induced, H1350

vasodilation, hypoxic, potassium channel activation and, H1785

Pigs

adipocytes, lactate production by, E957

airway smooth muscle, protein kinase C isoforms in, L603

cortisol-treated, enterocyte amino acid metabolism in, G474

endotoxemic shock, hemodynamic effects of endothelin and prostanoids in, H1239

heart

maximal oxidative phosphorylation

capacity of, H769

regional myocardial glucose uptake,

positron emission tomography of, H343

hepatic fatty acid metabolism in, R1641

myocardial infarct size reduction in, with R-75231, H1857

neonatal

cerebral ischemic injury in, H2622

cerebral vasodilation, in hypoxia, H1323

cerebral vasodilator effect of magnesium in, H511

enterocytes, proline metabolism in, G1382

intrapulmonary artery relaxation, chronic hypoxia and, H2436

protein synthesis in, after intrauterine growth retardation, E877

pulmonary vasculature, hypoxic, ET-1 binding in, H669

susceptible to malignant hyperthermia, magnesium inhibition of calcium release in, C203

tracheal smooth muscle, calcium oscillations in

nitric oxide and, L588

ryanodine receptor channels and, L659

vascular endothelium, hydrogen peroxide-mediated injury, nitric oxide and, L1133

young, mesenteric vascular tone in, nitric oxide and, G612

Pineal gland

and motor activity, in rats, R95

Pioglitazone

and diabetic complications, in rats, E989

Pituitary adenylate cyclase-activating peptide

dual effects on guinea pig gallbladder muscle, G1433

and duodenal bicarbonate secretion, G646

in hypoxic vasodilation, H1350

PACAP-(6-27), and VIP-induced adrenal catecholamine secretion, in dogs, R1606

in rat hindbrain, effects on gastric motor function, G1221

Pituitary adenylate cyclase-activating peptide receptors

on gallbladder muscle, in guinea pigs, G1433

in gastric muscle

characterization of, G1391

signaling by, G1391

Pituitary cells

GH₃, hyperpolarization-activated cation current in, E405

lactotrophs

chloride and calcium conductances in, C1178

hyperpolarization-activated cation current in, E405

mammotrophs

α -MSH binding to, E282

prolactin release, regulation by ATP, E1117

secretion, integration of, E390

rat, hyperpolarization-activated cation current in, E405

somatotrophs, hyperpolarization-activated cation current in, E405

Pituitary gland

see also **Hypothalamic-pituitary-adrenal axis**

and carotid body chemoreceptor hyperglycemic reflex, R392

hormone production, and acid-base status, F736

posterior, effects of antisense oligodeoxynucleotides on peptide release in, R1441

PKD1 gene

- expression, during renal development, temporal and spatial regulation of, F602
- mutations, and defects in epithelial cell polarity, F434
- and polycystin expression, in mice, F451

Placenta

- blood flow in
 - and physiological adaptation to pregnancy, nitric oxide and, studies in mammals, R441
 - studies in sheep, R1069
- diffusion across, R438
- insufficiency
 - fetal cardiovascular effects, studies in sheep, R201
 - studies in sheep, E817
 - threonine transport, E892
 - trophoblast cell biology in, C1776

PLAP, see Phospholipase A₂-activating protein

Plasma

- cholesterol in, quantitation by mass isotopomer distribution analysis, G367
- exudation, and inflammation of oral mucosa, in hamsters, R294
- neurogenic exudation, and grain dust-induced tissue injury in vivo, R475
- volume
 - in females, age-related decline in, effects of exercise on, H2534
 - progesterone and, in sheep, R377

Plasma expanders

- oxygen vs. nonoxygen carriers, for fluid resuscitation in hemorrhagic shock, H525

Plasma membrane

- basolateral, bile acid transport, in cholangiocytes, G1416

Plasminogen activator 1

- production, smooth muscle cell, T cell lymphokines and, C392

Platelet-activating factor

- biosynthesis, from porcine cells, C1821
- endothelial, and rapid immobilization of rolling neutrophils, H114
- and inflammatory effect of vascular endothelial growth factor, H2746
- neutrophil-cardiomyocyte adhesion induced by, inhibition by nitric oxide, H2807
- and regulated expression of membrane-bound leukocyte elastase on neutrophils, L385

Platelet-activating factor receptor

- and calcium signaling in macrophages, H17

Platelet-derived growth factor

- and ERK activation, in tracheal myocytes, L558
- mesothelial cells and, L552
- mitogenic stimulation of bovine tracheal myocytes, cyclin D₁ and, L1205
- modulation of osteoblastic cells in mineralizing cultures, C1709
- and vascular cell migration, in tunica media of canine vessels, C847
- and vascular smooth muscle cell proliferation, C2019

Platelet-leukocyte aggregation

- in ischemia-reperfusion, H2976

Platelets

- adhesion, in rats, H2875
- eicosanoid production from, C1821
- function, nitric oxide and, in humans, F364

PMN, see Neutrophils

PNEC, see Pulmonary neuroendocrine cells

Pneumocytes, type II, see Alveolar cells, type II

Pneumonia

- host defense in, exogenous IFN- γ in, L852

Polyamines

- and TGF- β gene expression, during epithelial cell migration, G713

Polycationic protein

- differential effects on chloride-secretory and sodium-absorptive airways, L762

Polycystin

- in autosomal dominant polycystic kidney disease, F434
- distribution, in mice, F451
- gene expression, developmental regulation of, F602
- in mice, F451

Polymerase chain reaction

- differential display, F160
- of fibronectin, L521
- in observation of changes in renin mRNA expression, E227
- of Paneth cell defensin mRNAs, in neonatal gut, G197
- reverse transcriptase
 - for adenosine receptor detection in outer medullary descending vasa recta, H1231
 - of calcium-sensing receptor, F751
 - of carbonic anhydrase IV, F551
 - of endothelin receptors, E461
 - of ICAM-1, L418
 - of insulin receptors, E607
 - for microlocalization of adrenomedullin, F691
 - of myosin heavy chain, C1532
 - of parathyroid hormone receptors, F751
 - of parathyroid hormone-related protein, F751
 - of parathyroid hormone-related protein receptors, F751
 - of rat hypothalamic nitric oxide synthase, G1034

 administration in hypothyroid rat, regulated hypothermia induced by, R1390

Propylthiouracil (*continued*)

regulated hypothermia induced by, in hypothyroid rats, R1390

Prostacyclin

release, estrogen-induced, and resistance artery adrenergic sensitivity, H2264

synthesis, induction by sickle erythrocytes, in isolated perfused rat lungs, L597

vasomotor effects, in newborn pigs, R995

Prostaglandin endoperoxide G/H synthase 2

inactivation by ozone, in human tracheal epithelial cells, L879

Prostaglandin-endoperoxide H synthase-2

expression and activity, in chorion, peripartum, in humans, E832

Prostaglandin receptors

PGE₁, subtypes in gut, cellular localization of, G681

PGE₂

EP₃ subtype, and hepatocyte proliferation, G597

in inner medullary collecting duct cells, in rats, F192

regulation, studies in choroidal vessels of newborn pigs, R995

TxA₂/PGH₂, and blood pressure, in rats, R1493

Prostaglandins

PGD₂, vasomotor effects, in newborn pigs, R995

PGE₁, and pancreatitis-associated lung injury, in rats, G23

PGE₂

activation of PKC δ -isoform in rat medullary thick ascending limb, F624

fever induced by, sex differences in, and ventral septal vasopressin release, in rats, R1664

in inflammation, effects of dietary n-3 fatty acids on, in mice, R1298 and myenteric neurons in guinea pig ileum, G1451

production in airway epithelial cells, ozone and, L879

renal pelvic release of, bradykinin and, R2009

synthesis of, by Kupffer cells, after trauma, G1457

PGF_{2 α}

coronary vasoconstriction with, H2054

stimulation of IL-6 synthesis by osteoblasts, E208

vasomotor effects, in newborn pigs, R995

PGH₂

and blood pressure, in rats, R1493 and venular response to acetylcholine, H2541

PGI₂, *see* Prostacyclin

effects on bicarbonate and carbon dioxide transport in frog skin, R640 in fetal response to subacute stress, E817

hemodynamic effects, in dogs, R793

proliferative effects on hepatocytes, G597

and renal actions of adrenomedullin, F260

and sexually dimorphic antidiuresis, in rats, R370

vasomotor effects, regulation, studies in newborn pigs, R995

Prostanoid receptors

regulation, studies in choroidal vessels of newborn pigs, R995

Prostanoids

and cerebral hypoxia, H418

endothelial vasoconstrictor, in hypertensive rats, H493

in glomerulonephritis, F721

hemodynamic effects, in endotoxemic shock, H1239

synthesis, induction by sickle erythrocytes, in isolated perfused rat lungs, L597

Protamine

differential effects on chloride-secretory and sodium-absorptive airways, L762

Protease-activated receptors

and mesenchymal cell response to submandibular enzymatic vasoconstrictor, C1578

Proteases

endogenous inhibitors, in rat stomach, G1151

in rat stomach, G1151

Protein, dietary

deficiency, and nitrogen salvage by liver, G257

intake, and leucine metabolism, in humans, E585

metabolism

in humans, E585

in normal postabsorptive humans, E437

restriction

in insulin-dependent diabetes mellitus (IDDM), metabolic adaptation to, E59

maternal, effects on hepatic enzymes in offspring, G1083

Protein C

activated, prevention of pulmonary vascular injury by endotoxin, L197

Protein kinase A

and adenosine-stimulated DNA synthesis in human endothelial cells, H1470

and airway smooth muscle contraction, L865

in cardiomyocytes

and calcium influx from action potential prolongation, H1798

and inhibition of transient outward potassium currents, H1791

and intestinal vascular responsiveness to norepinephrine in portal hypertension, G831

and natriuretic peptide-dependent cGMP accumulation in renal cells, C82

phosphorylation, and aquaporin-2 exocytosis in transfected LLC-PK₁ cells, F816

in regulation of type II pneumocyte sodium channels, C1262

Protein kinase C

activation

in bile salt-induced apoptosis of hepatocytes, G1109

and IL-6 synthesis by osteoblasts, E208

and adenosine-stimulated DNA synthesis in human endothelial cells, H1470

and cholecystokinin activation of p90^{msk} in rat pancreatic acini, G401

and coronary vascular muscle reactivity, H2645

in developing myogenic contraction in small arteries, H1165

in endothelial barrier function, H1437

and gallbladder contractility in cholelithiasis, G838

in β -hexosaminidase-induced airway smooth muscle proliferation, L639

in human pediatric cardiomyocyte preconditioning, H1220

and hypoxia-induced LLC-PK₁ cell growth and dedifferentiation, F809

and insulin regulation of erythrocyte sodium/hydrogen exchange, C818

insulin secretion stimulated by, in cultured islets of *ob/ob* mice, E304

and intracellular contractile pathways in esophageal muscle, G1523

α -isoform

in adult rat ventricular myocytes, H2485

and regulation of cytosolic PLA₂ activation, in MDCK-D₁ cells, C383

δ -isoform, in rat medullary thick ascending limb, activation by PGE₂, F624

ϵ -isoform, and mucin exocytosis in human colonic cells, G31

isoforms

in developing heart, H1636

in gastric parietal cells, and HCl secretion, G246

in porcine airway smooth muscle, L603

and protein secretion in lacrimal gland, C263

in rat medullary thick ascending limb, F624

in surfactant secretion from rat alveolar type II cells, L171

and isoproterenol, H927

and keratinocyte growth factor protection of airway epithelial cells, L681

and muscarinic-activated airway goblet cell secretion, in hamsters, L230

in opossum kidney cells, effects of intracellular pH acidification on, R1904

in polycation-induced activation of phospholipase D, L608

and pulmonary vasoreactivity to serotonin, H740

Protein kinases

- regulation of HIV-1 replication in macrophages, L1025

RAS, see Renin-angiotensin system**Ras signaling pathway**

- and glucose transport activity in 3T3-L1 adipocytes, E326

Rats

- adrenal glands
 - medullary endothelial cells, extracellular matrix protein secretion, thrombin modulation of, C1112
 - tyrosine hydroxylase and norepinephrine transporter, in dehydration, R1897
- adult undernourished, insulin secretion in, E634
- aging
 - contractile function of diaphragm, oxidative stress and, E201
 - response to LPS and psychological stress in, R1252
- airway
 - epithelia, cGMP-gated cation channels in, C911
 - smooth muscle contraction, signal transduction for, L865

- angiotensin II receptor expression, during metanephric development, R662
- angiotensinogen gene expression, developmental, R142
- antrum, β_2 -adrenoceptor in, G1000
- arterial baroreflexes, effects of pregnancy and progesterone metabolites on, R924
- bleeding time prolongation in hemolysis, H2875
- blood pressure
 see also Spontaneously hypertensive rats
 and central thromboxane A₂ receptor activation, R1493
 variability, nitric oxide and, H632
- borderline hypertensive
 baroreflex resetting and hemodynamics in, in response to stress, R1588
 sympathoadrenal responses to stress, R813
- brain
 area postrema, adrenomedullin microinjected into, effects on blood pressure, R1698
 area postrema neurons, activation by cholecystokinin, R1625
 AV3V neural activity, IL-1 β and, R532
 binding and potency of atrial natriuretic peptide in, comparison of hypertensive and normotensive animals, R1344
 cardiovascular effects of serotonin in, R1135
 caudal ventrolateral medullary AMPA/kainate receptors, R800
 caudal ventrolateral medullary vasodepressor area, R731
 gastric distension-induced *c-fos* expression in, R59
 gigantocellular vasodepressor area, R731
 glucose transport kinetics, R163
 hippocampus, serotonin release, tryptophan-free amino acid mixture and, R991
 5-HT₃ receptors in nucleus of solitary tract, and carotid chemoreflex, H1250
 hypothalamic defense area stimulation, central adenosine and, R195
 medullary AMPA receptors, and exercise-pressor reflex, H2774
 medullary slices, nicotinic signal transmission in, R869
 neural-immune interaction and, R1966
 neuronal GLUT-3, induction by hypoglycemia, E716
 osmoregulatory center, R913
 presynaptic α_2 -adrenoceptors, in control of glutamate release, G654
 slice preparations, R1966
 temperature, IL-1 and, R601
 ventral tegmental area, cardiovascular afferent inputs to, R1998
 ventromedial hypothalamic neurons, responses to tumor necrosis factor, R1966
- bulbospinal C1 neurons in, effect of cholinergic agonists on, R249
- calcium homeostasis in, amylin and, F410
- caloric overingestion, effects on sympathetic nervous system and hypothalamic-pituitary-adrenal axis, R840
- cardiac sarcoplasmic reticulum, calcium uptake, at low temperature, R1121
- cardiomyocytes
 gap junctional uncoupling, by 2,3-butanedione monoxime, C875
 opioid receptor interaction with β -adrenergic receptors in, H797
 ventricular, inward rectifier potassium channels in, development of, H1741
- cardiovascular and central norepinephrine response to stress, effects of central nitric oxide on, R1447
- carotid artery, repair, autocrine C-type natriuretic peptide in, H2919
- central Fos immunoreactivity in, and vasopressin, R750
- central nervous system, S-nitrosocysteine in, H2361
- cerebellar parallel fiber system, glutamate-dependent hyperemia in, obligatory role of nitric oxide in, R1155
- cerebral blood flow, dexmedetomidine and, H2547
- cholangiocytes, sodium-dependent glucose transporter in, G1168
- cholestatic, hypothalamic nitric oxide synthase in, G1034
- choroid, erythrocyte flow in, quantification of, H1444
- chronically hypoxic, development of pulmonary hypertension in, H1173
- chronic lung injury in, combustion particle-induced, genetic variability in, L521
- with chronic nucleus of solitary tract lesions, vasopressin release during hemorrhage in, R1540
- cold-exposed, brown adipose tissue hyperplasia in, IGF-I and, E453
- colon, surfactant-like particles in, isolation and characterization of, G425
- common bile duct ligation in, as model of hepatopulmonary syndrome, G779
- with congenital diaphragmatic hernia, prenatal hormonal modulation in, L1059
- copper-deficient, hepatic lipogenesis in, E1124
- cytokine-induced wasting in, mechanisms of, E333
- Dahl
 Na-K-Cl cotransport system in, F356
 salt-sensitive (DS), Na-K-Cl cotransport system in, F356
- Dahl-Iwai salt-sensitive, regional blood flow in, R1013
- decerebrated, vasopressin effects on medullary blood flow and pressure-natriuresis-diuresis in, R1472
- diabetic
 see also Diabetes mellitus, rat model
 BB/WOR (BioBreeding Wistar strain), sexual dysfunction in, R259
 dwarf, renal changes in, E918
 phosphoinositide metabolism in pancreatic islets of, E737
 smooth muscle hypertrophy in, IGF-BP-2 and, E297
- diaphragm
 arterioles, myogenic response in, hypercapnia and, H1419
 microcirculation, salbutamol-induced vasodilation in, H2173
- dietary obesity in, E1043, R188
- dysregulation of arcuate nucleus prepro-neuropeptide Y mRNA in, R1365
- insulin action and, R1264
- Eisai hyperbilirubinemic, canalicular multispecific organic anion transporter defective in, molecular cloning, G16
- endotoxemia in, hemoglobin-induced protection against, L268
- endotoxin-induced changes in IGF-I and IGF-BP-I in, glucocorticoids and, R1990
- endotoxin-induced fever in
 aging and psychological stress in, R1252
 cyclooxygenase and, R1712
- esophagocardiovascular reflex in, characterization of, R1783
- estrous cycle, and vascular adrenergic sensitivity, H1819
- exercise pressor reflex, 5-HT_{1A} modulation of, R1020
- experimental bacteremia in, role of endotoxin in, R1562
- female
 see also Rats, pregnant; Rats, lactating
 age-related changes in renal function in, R1985
 alcohol-induced liver injury in, G1186
- fetal, growth retardation, oxygen-derived free radicals in, H701
- Fischer 344
 baroreflex function in, H776
 blood pressure variability in, H776
 streptozotocin diabetes in, erectile physiology and, H1960
- fluid and electrolyte balance in, epidermal growth factor and, R1853
- fluid intake
 after capsaicin treatment, R704
 nutrient-stimulated, R289
- food intake
 during diet switch, role of visceral afferents in, R1657
- hindbrain neuremodin B receptors and, R433
- reduction by gastric filling, R1599
- gastric acid secretion in, meal-stimulated, gastrin/CCK-B receptors and, G1243
- gastric fat loading in, synthesis and secretion of intestinal apo A-IV after, R1170
- gastric function, hindbrain control of, G1372
- gastric motor function in, hindbrain PACAP and, G1221
- gastrointestinal motility, thyrotropin-releasing hormone and, G1372
- genetically obese
 diabetic, diabetic complications in, effects of pioglitazone on, E989
 hypertensive, angiotensinogen gene expression in, R1704
- glucoregulation in response to endotoxin, ventromedial hypothalamic lesions and, R1525

Rats (continued)

gracilis muscle, venular response to acetylcholine in, H2541
 Han:SPRD-cy/+, magnetic resonance imaging and spectroscopy in, F63
 head-down suspension, and sympathetic response to exercise, R570
 heart
 contractility, in situ, H2671
 fetal, development of muscarinic potassium current in, H1188
 function, in model of chronic aortic stiffness, H2211
 hypertrophied, energy metabolism in, H1615
 inward rectifier potassium channels in, development of, H1741
 ischemic preconditioning, glibenclamide-induced blockade of, H2607
 myocardial adaptation and ischemic preconditioning in, H2708
 neonatal, development of muscarinic potassium current in, H1188
 perfused, quantification of ion transport in, C1618, C1635
 preproenkephalin mRNA, and blood pressure, H2885
 septic, inhibition of ion transport in, C1635
 trained, function and bioenergetics, H409
 ventricles, electrical heterogeneity in, H1078
 ζ -opioid receptor ontogeny in, R1841
 hemorrhage-induced cardioadaptation in, R718
 hemorrhagic shock in, tumor necrosis factor and, H2219
 hepatic portal glucose infusions, intake suppression after, R1454
 hepatobiliary transport of cyclopentapeptide, G979
 hepatocytes
 intracellular copper pools, characterization of, G1400
 intracellular pH and hormone-induced calcium oscillations in, G954
 sphingosine 1-phosphate in, G1091
 high-fat-fed, body weight gain in, R188
 high-sucrose-fed, and hepatic glucose output, R526
 hindlimb, sympathetic vasodilation, neurogenically derived nitrosyl factors and, H2369
 hindquarters vascular bed, response to bradykinin, analysis of, R631
 25-hydroxyvitamin D₃-1 α -hydroxylase activity in
 age-related loss of, and low-P diet, F698
 loss of, reversibility, F698
 hypertensive
 see also Spontaneously hypertensive rats
 brain, binding and potency of atrial natriuretic peptide in, R1344
 exercise effects on cardiac autonomic tone, gender differences in, H1412
 somatosensory influences on renal sympathetic nerve activity in, R982
 hypothalamic-neurohypophyseal explants
 effects of antisense oligodeoxynucleotides on peptide release in, R1441

osmotically stimulated vasopressin release, glucocorticoid regulation of, R158
 preparation of, R158
 hypothroid-hypothermic, thermoregulation in, R1390
 infant
 artificially fed, growth of, R1532
 skeletal muscle growth and maturation, food intake and, R1461
 thermoregulation in, R1308
 insulin analog kinetics in, in vivo, E1089
 intestinal absorption of sodium dodecyl sulfate in, G498
 intraoral intake test, all-or-none effect and its temporal threshold, R1454
 kidney
 afferent arteriolar branching patterns, and autoregulatory responses, F416
 aging, nitric oxide and, R1747
 betaine synthesis, F94
 betaine transporter in, F100
 ClC-K chloride channel distribution in, F678
 collecting ducts, new potassium ATPase in, characterization of, F124
 conducted vasomotor responses and internephron coupling in, F372
 cortical collecting duct cells, nitric oxide and sodium channels in, F498
 development, C787, F153, F198
 distal tubules, bicarbonate reabsorption after nephron loss, F799
 dopamine DA₁ receptor coupling with G proteins in, F339
 H⁺-K⁺-ATPase isoforms in, potassium depletion and, F744
 h-leptin-induced natriuretic activity in, F333
 IGF-I receptor function in, in uremia, F325
 inner medullary collecting duct cells, cAMP accumulation in, epinephrine and, F192
 insulin-like growth factor system expression in, in hypokalemia, F661
 medullary thick ascending limb, activation of PKC δ -isoform in, by PGE₂, F624
 mesangial cells, F691, F704
 nephron, angiotensin-converting enzyme activity distribution along, F405
 outer medullary descending vasa recta, hydraulic and diffusional permeabilities of, F392
 outer medullary descending vasa recta, vasopressin effects on, F147
 potassium depletion and acid-base transporters in, F736
 proximal tubule, internalization and transcellular transport of folate in, F70
 salt conservation, F538
 segmental localization of urea transporter mRNAs in, F654
 taurine reabsorption in Henle's loops, F205
 vasopressin V₂ receptor expression in, aging and, R1775
 zonal glomerular filtration rate, nitric oxide synthase blockade and, F312

Kupffer cell alterations after femur fracture in, G1457
 lactating
 and circadian rhythms under constant light, R1039
 gastric emptying and gastrointestinal transit in, G626
 neural osmoregulatory pathways in, R276
 and stress effects on immune function, R16
 leptin gene expression in, β_2 -adrenergic-mediated suppression of, E1031
 Lewis inbred, coronary artery ligation in, chronic heart failure induced by, H722
 liver
 apical membrane transporters, regulation, G1041
 carbon monoxide and biliary transport in, G1268
 coenzyme A profiles in, carnitine and, E359
 endosomes, cholera and pertussis toxins and, C1123
 fatty acid metabolism in, R1641
 macrophages, cytokine gene expression by, role of iron in, G1355
 stellate cells, electrophysiological characterization of, G742
 triiodothyronine/tryptophan uptake, and thyroid status, E809
 local cytokine induction in, and fever, R857
 lung
 development, postnatal retinoic acid treatment and, L792
 fetal, L178, L844
 hyperoxic endothelial injury in, L631
 prostanoid synthesis in, induction by sickle erythrocytes, L597
 responses to charybdotoxin, analysis of, L787
 vascular membrane proteins, L461
 water compartments, NMR spectroscopy of, L772
 male, urethral function in, reflex pathways controlling, R1647
 maternal dietary protein restriction, effects on hepatic enzymes in offspring, G1083
 megakaryocytes, outward potassium currents in, C1525
 mesenteric microvasculature, lysophosphatidylcholine in, H2584
 mesenteric small arteries, myogenic response, calcium-sensitive potassium channel blockade and, H2241
 motor activity circadian rhythm, and T4 light/dark cycles, studies in rats, R95
 muscle glycogenolysis in, adenosine effects on, during contraction, E762
 muscle proteolysis during sepsis, R849
 myocardial infarct size in, corticosterone treatment and, R2017
 myocardial ischemia-reperfusion injury, inflammatory mediators in, H2327
 neonatal
 cardiac potassium channels, IGF-I effects on, H2599
 hypoxia-induced colonic damage in, role of nitric oxide in, G760
 type II pneumocytes, adenylate cyclase-coupled ATP receptor in, L187

- normotensive
 brain, binding and potency of atrial natriuretic peptide in, R1344
 conducted vasomotor responses and internephron coupling in, F372
 operant control of ambient temperature during sleep deprivation, R682
 ovariectomy in
 and arteriolar myogenic tone, H1804
 and vascular adrenergic sensitivity, H1819
 pancreatic islets
 insulin secretory responses, phospholipase C activation and, E671
 isolation of, E671
 parenterally fed, mucosal atrophy in, G1100
 penis, dorsal nerve stimulation, spinal Fos labeling and penile erection elicited by, R1425
 phrenic nucleus, NMDA and non-NMDA receptors in, and respiratory effects of carotid chemoreflex, R302
 plasma renin levels, during water deprivation, R1197
 polycystic kidney disease in, magnetic resonance imaging and spectroscopy in, F63
 postpartum, renal atrial natriuretic factor receptors in, F87
 preclinical screening of strontium as marker for intestinal calcium absorption in, E422
 pregnant
 aortic compliance in, H1260
 glucose sparing in, during progressive starvation, E556
 myometrial nitric oxide synthase expression in, E1008
 myometrial oxytocin receptor coupling to G proteins in, during labor, E870
 renal atrial natriuretic factor receptors in, F87
 transplacental transfer in, R438
 protein-induced food intake suppression in, cholecystokinin and, R1826
 pseudopregnancy in, hemodynamic effects of, H695
 pulmonary artery smooth muscle, endothelin receptors, L211
 pulmonary cell growth and differentiation, ozone and, dose response, L1152
 pulmonary hypertension in
 cGMP in lungs in, L1126
 and vascular tone, L807
 pyrogenic response
 to local cytokine induction, R857
 to peripheral and central cytokines, R862
 radiation pneumonitis in, nitric oxide in, L651
 Ren-2, endothelium-dependent vasoconstriction in, H493
 renal sodium-phosphate transporter, ontogenic changes in, R134
 renin secretion and renin gene expression during hypoxia, R1105
 renin synthesis, stimulation by thyroid hormone, E227
 salivary fluid secretion, cAMP modulation of, G454
 salivary glands, development, P2Y₁ nucleotide receptors in, C1388
 schedule-induced stress in, and cardiac subcellular structures, R776
 septic
 arteriolar hyporesponsiveness to endothelin-1 in, R969
 endotoxin in, R1562
 muscle proteolysis in, R849
 sexual dimorphism
 in cardiovascular and renal actions of vasopressin, R370
 in PGE₂ fever, and ventral septal vasopressin release, R1664
 skeletal muscle
 arterioles, reactivity, during chronic myocardial infarction, H2403
 cell surface GLUT-4, effects of exercise training on, E320
 contractile properties of, R34
 denervated, insulin signaling in, E661
 fast and slow, acetylcholinesterase in, C68
 fast-twitch, phosphocreatine kinetics and oxidative capacity in, C501
 glucose transport, effects of exercise training on, E320
 hexosamines in, effects of exercise and feeding on, E848
 IGF-I receptor function in, in uremia, F325
 inducible nitric oxide synthase in, regulation of, C35
 ischemia-reperfusion in, ascorbate and, H83
 suppression of glucose metabolism in, insulin resistance caused by, E288
 tetradotoxin inactivation of, C68
 sleep ontogeny in, R1792
 small intestine
 differential processing of guanylyl cyclase C along villus-crypt axis of, C1995
 fetal, differentiation, and C/EBP, G534
 immunohistochemical localization of cysteine-rich intestinal protein in, G751
 sodium-independent brush-border b⁰,+ carrier in, R1060
 sodium-restricted, feedback regulation of renin in, neuronal nitric oxide synthase and, R1359
 soleus muscle
 contractility, role of Na⁺-K⁺ pump and sodium channel concentrations in, R1402
 denervated, GLUT-4 and citrate synthase in, R429
 spinal cord injury
 cardiovascular regulation in, H625
 scoliosis reduction by clenbuterol in, E712
 spinotrapezius muscle, venous microcirculation, oxygen tension gradients in, H2233
 spontaneously hypertensive, *see* **Spontaneously hypertensive rats**
 Sprague-Dawley, food intake, and mouse leptin administration, R1007
 stomach, proteases and protease inhibitors in, G1151
 suckling, organ growth and gut development, IGF-I and, G522
 sucrose-induced insulin resistance in, gender differences in, R1571
 sucrose vs. maltose taste discrimination, seventh cranial nerve and, R1210
 taste aversions in, GLP-1 and, R726
 thiazide receptor density in, amylin and, F410
 unilateral ureteral obstruction in, F789
 ureter, motility, effects of experimental calculosis on, R1409
 urinary bladder
 afferent innervation, R413, R695, R1271
 function, cold stimulation and, R1271
 vagal response to cholecystokinin vs. gastrin-releasing peptide, comparison of, R1726
 vascular remodeling in, H517
 ventromedial hypothalamic nucleus, dopamine levels in, effects on meal size and number, R1925
 virgin and postpartum, uterine arterial vasoconstrictions in, R318
 vitamin D₃ plus nicotine treatment, and cardiovascular reflexes, H2211
 voiding in, neurophysiological model of, R413
 white adipose tissue, sympathetic activity in, during fasting, R656
 Wistar, fatty, renin-angiotensin system in, R1704
 Wistar-Furth, resistance to mineralocorticoids in, H1454
 Wistar-Kyoto, adaptation to hypovolemia, central nitric oxide and, H2282
 zinc-deficient, uroguanylin expression in, G972
 Zucker
 fatty diabetic, intestinal flow-mediated regulation in, H728
 obese, anti-TNF treatment and lipid metabolism in, E656
- Reactive oxygen species**
see also **Oxygen-derived free radicals**
 in acute renal failure, nitric oxide and, F48
 and calcium homeostasis, in cultured human intestinal smooth muscle cells, G1439
 and cyclic strain, in endothelial cells, C421
 cytotoxicity, in cultured human intestinal smooth muscle cells, G1439
 in experimental hydronephrosis, F789
 and gastrointestinal motility, G1439
 generation, during pulmonary ischemia, L294
 in glomerulonephritis, F721
 and growth of cancer spheroids, R1677
 in human endothelial cells, and apoptosis, C1543
 intracellular generation of, in endothelial cells exposed to anoxia-reoxygenation, L897
 in lung injury, L979
- Receptor for activated C kinase**
 expression in rat kidneys, ischemia-induced, F160

- Rectal gas**, *see* **Flatus**
- Rectum**

calcium-storing proteins, in cardiac hypertrophy, H158
cardiac
calcium, in hypertension, C1000
calcium release from, C1000
calcium uptake, at low temperature, R1121
postnatal development of, H57
ryanodine receptors, interaction of FK-506 binding protein isoforms with, C1726
cardiomyocyte
calcium release from, H1625
upregulation by TGF- β 1, H2639
junctional, targeting of calsequestrin to, C1420
ryanodine receptor calcium-release channels in, C966, C1908
interaction of FK-506 binding protein isoforms with, C1726
skeletal muscle
ATPase, calcium removal kinetics, C1087
calcium release from, C203, C550, C622
calcium uptake, effect of D-600 on, C310
ryanodine receptors, C1465, C1475, C1726
small chloride channels, C324
- Satellite cells**
in avian skeletal muscle growth, C565
from skeletal muscle, acetylcholinesterase in, C68
- Satiety**
see also **Food intake; Meal size**
and aging, R243
cholecystokinin and, in chickens, R334
gastric filling and, in rats, R1599
nutrient stimulation of liver and, in rats, R1454
in propionate-infused sheep, E997
protein-induced, cholecystokinin and, in rats, R1826
in rats, R268, R726, R1454, R1599, R1657, R1726, R1826
regulation
by corticotropin-releasing hormone and bombesin-like peptides, R268
gastrointestinal mechanisms, studies in rats, R268, R1454, R1657
and synthesis and secretion of intestinal apo A-IV, in rats, R1170
vagal afferents vs. gastric motility in, in rats, R1726
- Scanning electron microscopy**
of pulmonary circulation, in rats, L139, L155
- Sch-28080**
hydrogen-potassium ATPase sensitive to, in rabbit collecting duct, F167
potassium ATPase sensitive to, in rat collecting duct, F124
sensitivity, in chimeric ion pump, C1717
- Scoliosis**
in spinal cord-injured rat, reduction by clenbuterol, mechanisms of, E712
- Seabream**, *see* **Sparus aurata**
- Seawater**
tolerance, in high Arctic charr, R743
- Second messengers**

for insulin analogs, in vivo, E1089
for leucine metabolism analysis, in humans, E585
for lipolytic responsiveness to epinephrine, E1130
for measurement of nitric oxide synthesis during acute phase response, R1888
for measurement of tumor protein synthesis, E796
for molecular sieving of small solutes in outer medullary descending vasa recta, F579
for myocardial blood flow, H1480
for nucleoside transport in human intestinal brush-border membrane, G1314
for oxidative metabolism analysis, in insulin-treated gestational diabetes, E1099
oxygen, for assessing human respiration, R1874
for ozone dosimetry in mice, L73
for proteolysis analysis, in human newborns, E592
for substrate oxidation analysis, E550

and transplacental diffusional processes, R438
for whole body proteolysis, in humans, E1037

Starvation

in late pregnancy, glucoregulation during, in rats, E556

Staurosporine

and pulmonary vasoreactivity to serotonin, H740

Steatohepatitis

glucocorticoids and, in mice, G1141

Steatosis

alcohol-induced, in female rats, G1186
glucocorticoids and, in mice, G1141

Stem cell factor

and mast cell membrane potential, C1017

Steroidogenesis

in pregnancy, E18

Steroids

and ACTH secretion in fetal sheep, R1128
adrenal, effects on brain-to-blood transport of corticotropin-releasing hormone, E312
pharmacology of, in vascular endothelium, E616
and sodium-potassium ATPase, in developing rat lung, L665
therapy with, in otitis media, C184

Stomach

acid secretion
functional heterogeneity of parietal cells in, G161
hyperglycemia and, G1116
inhibition, G1122, G1236, G1481
meal-stimulated, gastrin/CCK-B receptors and, in rats, G1243
medullary TRH-induced, modulation by substance P in dorsal vagal complex, G987
regulation, somatostatin in, G1236, G1481
role of vagus nerve and gastrin in, in rats, G335

antrum

β_3 -adrenoceptors, in rats, G1000
motilin motor effect on, neural mediation, G71

cardia, smooth muscle from, cholinergic activity of, G1321

contents, and regulation of food intake, studies in rats, R1599

development, in normal and transgenic mice, G1209

distension

and c-fos expression in rat brain, R59
and fluid intake, in capsaicin-treated rats, R704

and gastric acid secretion, in male anesthetized rats, G335

emptying

and aging, R243
and central nitric oxide synthase inhibition, G417
inhibition in acute inflammation, neurokinin receptors and, G141
lactation and, in rats, G626
and leptin administration, in lean mice, R1007
of liquids, sumatriptan and, G902
measurement, in conscious dogs, G909

epithelium, morphogenesis, in normal and transgenic mice, G1209
function, hindbrain control of, responsiveness to thyrotropin-releasing hormone, G1372

gastric glands, isolated, functional heterogeneity of parietal cells in, G161

motility

developmental change in humans, G1022
response to CCK and gastrin-releasing peptide, in rats, R1726

mucosa

aspartic proteases in, G1151
ethanol-induced damage, G1151
nitric oxide overproduction, in uremia, G894
protection, by human spasmolytic polypeptide, G1473
proton buffering, G63

mucus

as proton carrier and diffusion barrier, G63
proton permeation through, human spasmolytic polypeptide and, G1473

muscle cells, PACAP receptor signaling, in rabbits, G1391

myoelectrical activity, patterns, developmental change in humans, G1022

parietal cells

aging, and function, G161
functional heterogeneity of, along pitgland axis, G161
HCl secretion, protein kinase C isoforms and, G246
proteases and protease inhibitors, in rats, G1151
slow wave dysrhythmias, in motion sickness, G853
smooth muscle, somatostatin receptors in, G689
tension receptors, in rats, R59, R1726

Strain

cyclic, and growth factor release by pleural mesothelial cells, L552

Stress

and caloric overload, effects on sympathetic nervous system and hypothalamic-pituitary-adrenal axis, in rats, R840
cardiovascular and central norepinephrine response to, effects of central nitric oxide on, R1447
cardiovascular response to baroreflex resetting and hemodynamics in, R1588
central angiotensin II receptors and, studies in rats, R26
and colitis, in rats, G84
fetal, studies in sheep, R1069
and immune function, lactation-induced alteration in, studies in rats, R16
mechanical, in vascular system, H2188
metabolic, skeletal muscle protein homeostasis after, E36
psychological
effects on response to LPS, in aged rats, R1252
heart rate variability and, H1113
schedule-induced, and cardiac subcellular structures, R776
sympathoadrenal responses to, in borderline hypertensive rats, R813

- Stress-activated protein kinases**
and ischemic renal failure, F292
and renal LLC-PK₁ cell growth, F273
- Stress proteins**, *see* **Heat shock proteins**

- Sumatriptan**
and gastric emptying of liquids, in humans, G902
- Superconducting quantum interference device (SQUID) magnetometer**
detection of small bowel electrical activities, G1159
- Superior mesenteric artery**
occlusion, ischemia with, reflex response to, H791
potentiated dilation, by nitric oxide synthase blockade, G507
- Superoxide**
formation, in myocardial ischemia-perfusion injury, H2327
generation
by Kupffer cells, after trauma, G1457
in neural tissue of rat embryos, and hyperglycemia in diabetic pregnancy, E173
and pulmonary arteries, during lung transplant rejection, L379
in spontaneous lung chemiluminescence, L262
- Superoxide dismutase**
copper-zinc, *see* **Copper-zinc superoxide dismutase**
expression, in experimental hydronephrosis, F789
manganese, *see* **Manganese superoxide dismutase**
recombinant human, and lung injury, L903
and sphincter of Oddi motility, in opossum, G1050
- Supraventricular tachycardia**
atrial natriuretic peptide release during, H820
- Surfactant**
aggregates, conversion, in vivo and in vitro, L872
composition of, serum lipids and, in adult rat lung, L106
cycling
stabilization of surfactant particles against, L335
in vivo and in vitro, L872
and fetal lung growth and maturation, in sheep, L95
function, in neonatal lung disorders, L903
and hyperoxia-induced pulmonary fibrosis, L720
metabolism
in lung injury, L335
in surfactant protein A-deficient mice, L479
particles, stabilization, L335
phospholipid
effect on cell surface markers in THP-1 monocyte cell line, L1070
secretion from rat alveolar type II cells, PKC isozymes and, L171
synthesis, L238
secretion, from rat alveolar type II cells adenylate cyclase-coupled ATP receptor and, L187
PKC isozymes and, L171
subtypes, L335
in lung injury, L872
synthesis, fatty-acid synthase and, L860
- Surfactant-like particles**
in colon, isolation and characterization of, G425
- Surfactant protein receptors**
SP-A, and *Klebsiella* uptake by macrophages, L344
- Surfactant proteins**
SP-A
and cytokine production in THP-1 monocytes, L996
deficiency, and surfactant metabolism, in mice, L479
effect on cell surface markers in THP-1 monocyte cell line, L1070
interaction with *Klebsiella* capsular polysaccharide, L344
and nitric oxide production by rat alveolar macrophages, L1198
SP-B, metabolism, in surfactant protein A-deficient mice, L479
and fetal lung growth and maturation, in sheep, L95
gene expression
heat shock and, L132
in hyperoxia-induced fibrosis, L720
- Swallowing**
cortical motor pathways for, cranial nerve modulation of, G802
disorders, *see* **Dysphagia**
grabbing effect in, G1057
pharyngeal function in, G1057
pharyngeal sensation and, G265
upper esophageal sphincter function during, G1057
- Sympathetic nervous system**
see also **Vagosympathetic interaction**
in acclimatization to altitude, R669
activity

after converting enzyme inhibition in normal humans, E429
and arterial pressure, in rat model of spinal cord injury, H625
in dehydration, effects on rat adrenal tyrosine hydroxylase and norepinephrine transporter, R1897
effects of pregnancy on, studies in rats, R924
in exercise, in simulated microgravity, in rats, R570
with mental stress, H1113
in muscle, age-related increase in, and abdominal adiposity, E976
regulation, in mammals, R800, R821
and vasoconstriction in active skeletal muscle during exercise, R386
vasopressin and, studies in rabbits, R519
in white adipose tissue, during fasting, studies in rats, R656
afferent neurons, activity during abdominal ischemia, summation of, H1928
angiotensin II infusion and, in rabbits, R487
cardiac, response to myocardial ischemia, H2079
and carotid body chemoreceptor function, C628
chronic stimulation, cardiomyopathy induction by, H585
cytokines and, in rats, R2048
discharge, and phrenic nerve activity, slow rhythms in, R1314
dynamic baroreflex regulation of, nitric oxide in, H2446

in experimental colitis, G272
and heart rate regulation, H2525
hypothyroidism and, H894
interaction with angiotensin II, AT₁ receptor blockade and, E415
lumbar, nitrosyl factors released by, H2369
modulation of vasomotor activity, and systemic arterial pressure, H485
muscle activity, and head-down neck flexion, H1780
and renin-angiotensin system, H648
in salt balance, F538
sucrose-induced changes in, in rats, R840
and sympathovagal balance of heart in spinal cord injury, H835
and uterine arterial vasoconstriction, in virgin and postpartum rats, R318
and vascular reactivity, ovarian hormones and, H1819
and vascular α_1 -adrenoceptor control of muscle metabolism, H2146

Synaptic transmission

in horizontal limb of diagonal band of Broca, C163

Syrian hamsters

estrous cycles
food intake and, effects of fructose analog on, R935
glucoprivation and, R406
leptin and, R1354
lipoprivation and, R400
metabolic control of, R400, R406
locomotor behavior, effects of aging and photoperiod on, R1219

System A transport

osmotic regulation, in MDCK cells, C804

System B⁰

molecular and functional characterization of, G1463

System y⁺

in hypoxic porcine pulmonary arterial endothelial cells, L78

T

Tachycardia

atrial natriuretic peptide release during, H820
chronic, myosin heavy chain synthesis in, H969
stress-induced, central angiotensin II receptors in, studies in rats, R26
ventricular, H1838

Tachykinin receptors

in colonic motility, G1607

Tachykinins

and colonic motility, in inflammation, G1607
and colonic secretory reflexes, G238
inhibition by PAMP, in guinea pig airway, L1066
in neurogenic inflammation of murine digestive tract, G785
in viscerosensitive responses to acute inflammation, CGRP and, in rats, G141

Taste sense

amino acid, transduction mechanisms, C1
aversions, GLP-1 and, in rats, R726
bitter, transduction mechanisms, C1
development, C1

gustatory cues for dietary fat, C1203
peripheral system for, plasticity of, C1
physiology of, C1
receptors, potassium currents in, inhibition by cAMP and forskolin, mechanisms of, C2005

salt

development of, C1
transduction mechanisms, C1
sour, transduction mechanisms, C1
sugar discrimination, by rats, after nerve transections, R1210
sweet
development of, C1
transduction mechanisms, C1
types of receptors in, in C57BL mice, R1002

Taurine

reabsorption, in Henle's loops of rat nephron, F205
transport
in rat erythrocytes, anion exchanger AE1 and, C1457
in regulatory volume decrease, in NIH/3T3 cells, C1798, C1804

Taurine channels

ATP-sensitive, inhibition by nordihydroguaiaretic acid, C1429

Taurochenodeoxycholic acid
and intestinal inflammation, G1249

Tauroursodeoxycholic acid
cytoprotective properties, G1249

TCA cycle, see Citric acid cycle

TCV-116

chronic effects, in heart failure, H2139

Telenzepine

and pancreatic secretion, in dogs, G1550

Teleosts

cardiovascular activity of bradykinins in, R710
gill microcirculatory responses to hypoxia, neurochemical mechanisms of, R576
intestinal physiology, R217
kidney, brush-border membranes, electroneutral anion exchange mechanism in, R1143
ovary, presence and activity of gonadotropin-releasing hormone in, R111
ventricular myocytes, sarcolemmal calcium influx in, through L-type calcium channels, R1432
white muscle, temperature-related regulation of intracellular pH in, R84

Telokin

gene expression, in A10 smooth muscle cells, C1394

Temperature

and pulmonary distribution of iodoantipyrine, H2250

Temperature, ambient

regulation, during sleep deprivation, studies in rats, R682
and sleep response, in rabbits, brain TNF and, R1325
and thermoregulation, in hypothyroid rats, R1390

Temperature, body

changes, and ozone dosimetry in mice, L73
circadian rhythm of, effects of melatonin on, R1178
coupled with nocturnal bright light stimuli, R482

core cooling, adrenergic, respiratory, and cardiovascular effects of, in humans, R557
melatonin and, in night workers, R948
propylthiouracil administration and, in hypothyroid rats, R1390
regulation, *see Thermoregulation*
stress-induced changes in, central angiotensin II receptors in, studies in rats, R26

Temperature, environmental

cold, and physiological response to prolonged walking, R226
and obesity prevention in BAT-ablated transgenic mice, R1088
and oxygen diffusion in muscle, H1106
and regulation of intracellular pH in fish white muscle, R84
and thermoregulation in newborn lambs, R1931

Testes

function, photoresponsiveness of, environmental effects on, in Siberian hamsters, R887

12-O-Tetradecanoylphorbol 13-acetate

and HCl secretion in gastric parietal cells, G246

Tetraethylammonium

basilar artery response to, H256, H1287
microvascular response to, in diaphragm, in hemorrhagic hypotension, H272
transport, in snake renal proximal tubules, pH effects on, R955

Tetrahymena thermophila

P-type ATPases in, C715

Tetrodotoxin

inactivation of skeletal muscle, C68

Thallium ions

as blood flow tracer, H1480

Thamnopis

renal proximal tubules, organic cation transport, effects of pH on, R955

Thapsigargin

and arterial chaos, H1696
and intracellular calcium in LLC-PK₁ cells, C810

Thermal compensation

heterothermic tissue model for studies of, R1834

Thermal injury

in human epidermal keratinocytes, C1988

Thermogenesis

autonomic nervous system and, in lean individuals, E775
and cardiac rate regulation during cold challenge, in infant rats, R1308
during chronic toxoplasmosis, E908
differences in, in fatty (*fa/fa*) and heterozygous (*+/fa*) rats, E100
effects of melatonin on, R1178
leptin and, in *ob/ob* mice, R1204
nonshivering
in cold-exposed rats, E453
in infant rats, R1308
nutrient-induced, E678
in lean individuals, E775
shivering, R226
sucrose-induced changes in, in rats, R840
TNF- α in, in rats, R1966

Thermoregulation

- active vasodilation in, cGMP and cAMP in, R975
- in acute phase response to inflammation, studies in mice, R563
- aging and, H1609
- behavioral
 - with hypoglycemia, in toads, R1
 - in hypothyroid-hypothermic rats, R1390
 - during sleep deprivation, R682
- circadian organization, in female Japanese quail, R172
- in febrile response, in guinea pigs, R675
- in hypothyroid-hypothermic rats, R1390
- IL-1 and, in rats, R601
- in infant rats, R1308
- melatonin and, R1178
- in newborn lambs, effects of route of delivery and ambient temperature on, R1931
- nitric oxide and, in rabbits, R1691
- and obesity prevention in BAT-ablated transgenic mice, R1088
- during prolonged walking in cold environment, R226
- in response to core cooling, in humans, R557

Thiazide diuretics

- and sodium-chloride cotransporter expression in osteoblast-like cells, C109

Thiazide receptors

- renal, density, metabolic acid-base status and, R2004

Thirst

- AT₁ receptor antagonist and, studies in cattle, R1940
- attenuation, in aging, mechanism of, R148
- in capsaicin-treated rats, R704
- postprandial, effects of intracerebroventricular losartan on, in sheep, R1055
- regulation during dehydration, in humans, R1740

Threonine

- kinetics, in leucine-infused humans, E1037

Thrombin

- activation of PLA₂, and lysophosphatidylcholine production in cardiomyocytes, H1972
- inhibition of myosin light chain dephosphorylation, in human umbilical vein endothelial cells, L311
- modulation of extracellular matrix protein secretion, C1112
- and vascular smooth muscle cell proliferation, C2019

Thromboxane

- TxA₂
 - and blood pressure, in rats, R1493
 - production, from porcine cells, C1821
 - and arginine vasopressin, interaction, in hydronephrosis, F40
 - and coronary vascular muscle reactivity, H2645
 - synthesis, induction by sickle erythrocytes, in isolated perfused rat lungs, L597

Thromboxane receptors

- TxA₂
 - vs. isoprostane receptors, F477

- in pulmonary vascular smooth muscle, downregulation during pregnancy in rabbits, R1734
- TxA₂/PGH₂, and blood pressure, in rats, R1493

Thunnus thynnus, *see* **Bluefin tuna**

Thyocytes

- follicular, CFTR expression and, C1299
- FRTL-5, sodium/hydrogen exchange in, sphingosine 1-phosphate and, C1052

Thyroid gland

- and core temperature regulation, in rats, R1390
- disorders, effects on hepatic metabolism, in rats, E809
- epithelium, CFTR expression in, C1299
- follicular enlargement, CFTR expression and, C1299

Thyroid hormone receptors

- cardiac, in diabetes, E856

Thyroid hormones

- see also* **Reverse triiodothyronine**;
- Thyroxine**;
- Triiodothyronine**
- effects on osteoblasts, E212
- homeostasis, chronic metabolic acidosis and, F648
- and intracellular sodium, in rabbit heart, H1589
- metabolism, and alcoholism, E191
- prenatal application, modulation of lung histology and antioxidant enzymes, in rats, L1059
- and renin synthesis, in rats, E227
- and SERCA2 expression in cardiomyocytes, H1876
- and skeletal muscle growth and maturation, in rats, R1461
- and tryptophan transport in rat liver, E809

Thyroid response element

- in diabetes, E856

Thyrotropin-releasing hormone

- and gastric motor function, G1372
- medullary, effects on gastric acid secretion, modulation by substance P in dorsal vagal complex, G987
- prenatal application, modulation of lung histology and antioxidant enzymes, in rats, L1059
- vagal efferent nerve excitation produced by, central somatostatin and, G351

Thyroxine

- kinetics, in transthyretin-null mice, E485
- metabolism
 - and alcoholism, E191
 - in transthyretin-null mice, E485
- tissue uptake of, in transthyretin-null mice, E485

Tight junctions

- in mouse proximal tubule cells, protective effects of heat stress on, F347
- permeability, regulation, in cervical cells, C511

Tissue plasminogen activator

- production, smooth muscle cell, T cell lymphokines and, C392

Tissue transglutaminase

- in hepatic fibrosis, G281

TNBS, *see* **2,4,6-Trinitrobenzenesulfonic acid**

Toad

- hypoglycemic hypothermia in, R1

- urinary bladder, amiloride-sensitive epithelial sodium channels in, C761

Toluidine blue O

- accumulation by pulmonary endothelial cells, steps in, L673

Tongue

- anterior and posterior regions, taste nerve response, in mice, R1002

Total parenteral nutrition

- and mucosal atrophy, in rats, G1100

Toxoplasmosis

- chronic, energy balance and cytokine gene expression during, E908

TPA, *see* **12-O-Tetradecanoylphorbol 13-acetate**

Trachea

- see also* **Airway**
- calponin phosphorylation in, L115
- epithelium, bioelectric response to protamine, L762

Transcription factors

- see also* **Nuclear factor-κB**

in regulation of renin release, in rats, R1359
- Tumor**
see also Hepatoma; Insulinoma
- growth, effects of electrical field pulse on, R1677
- protein synthesis, measurement of, E796
- Tumor necrosis factor**
TNF- α
in acute phase response to inflammation, studies in mice, R563
- and adenyl cyclase activity, in airway smooth muscle cells, L644
- effects on endothelial barrier function, nitric oxide and, L979
- and endothelial cell stress gene responses, C1543
- in hemorrhagic shock, H2219
- induction of manganese superoxide dismutase, in rat colonic smooth muscle cells, G1230
- and leukocyte adhesion in arterioles, H1725
- monoclonal antibody to, H2219
- peripheral and central, and febrile response, studies in rats, R862
- in portal hypertensive gastropathy, G809
- production by Kupffer cells, G1457, G1581
- and regulated expression of membrane-bound leukocyte elastase on neutrophils, L385
- and selectin-mediated leukocyte rolling, in arterioles, H1391
- and TNF- β , differential effects on rat ventromedial hypothalamic neurons, R1966
- gene expression, by hepatic macrophages, role of iron in, G1355
- in hepatic inflammation, G207
- host wasting induced by, mechanisms of, in rats, E333
- induction, by peripheral lipopolysaccharide, and febrile response, studies in rats, R857
- in inflammation, effects of dietary n-3 fatty acids on, in mice, R1298
- inhibition, effects on warming-induced sleep responses, in rabbits, R1325
- and lipid metabolism, in obese Zucker rat, E656
- and neonatal cardiomyocytes, H1937
- production, in LPS-induced pulmonary vascular injury, prevention by activated protein C, L197
- in pulmonary host defense, exogenous IFN- γ and, L852
- in response to endotoxin, studies in rats, R1525
- Tumor necrosis factor receptor**
soluble, R1325
- Turtle**
bladder
epithelial cells, active transport enzymes, effects of A-23187 and verapamil on, R1379
- intercalated cells, apical membrane-associated particles in, F491
- heart, intracellular pH regulation in, R6
- NHE-1 in, epithelial localization of, G1594
- Typhoid vaccine**
inflammatory response to, measurement of nitric oxide synthesis during, R1888
- Tyrosine hydroxylase**
dehydration and, in rat adrenal glands, R1897
- Tyrosine phosphatase**
inhibition, in bronchial epithelial cells, oil fly ash and, L426
- Tyrphostin 25**
and pulmonary vasoreactivity to serotonin, H740
- U**
- U-46619**
basilar artery response to, H1287
- and coronary vascular muscle reactivity, H2645
- pressor response to, in rats, R1493
- pulmonary vascular resistance to, in pregnancy, R1734
- pulmonary vascular response to, effects of PLA₂, 12-lipoxygenase, and cyclooxygenase inhibitors on, in cats, L573
- U-73122**
and intracellular calcium in LLC-PK₁ cells, C810
- pulmonary vascular response to, in cats, L573
- Ubiquitin**
activation, in corticosterone-treated skeletal muscle, C1007

Ubiquitin (*continued*)
upregulation, during sepsis, studies in rats, R849

Ubiquitin-protein ligase Nedd4
immunolocalization, C1871

UDP-glucose
hepatic
effects of exogenous glucose on, in rats, E163
rate of appearance, in rats, E155

U-50488H
and intracellular calcium in myocytes, pertussis toxin and, C560

UL-FS-49
effects within sinoatrial node, H2782

Ultradian rhythms
insulin, coupling to cardiovascular, autonomic, and neuroendocrine rhythms, R962
of motor activity, and T4 light/dark cycles, studies in rats, R95

Ultrasound
arterial wall tracking, H1260
of lower esophageal sphincter muscle, G1509
three-dimensional imaging, of regional vascular mechanics, H425

Umbilical cord
blood flow in, and physiological adaptation to pregnancy, nitric oxide and, studies in mammals, R441

Undernutrition
during development, effects on insulin secretion, in adult rats, E634
and insulin secretion, in adult rats, E634
prenatal, effects on insulin secretion, in adult rats, E634
and skeletal muscle growth and maturation, in rats, R1461

Upper esophageal sphincter
deglutitive opening, effect of exercise on, in elderly, G1518

Urea
digestive disposal of, fermentable carbohydrate and, in rats, G515
inhibition of sodium-potassium-two chloride cotransporter, in medullary thick ascending limb cells, C615
plasma levels, fermentable carbohydrate and, in rats, G515
transport, in perfused rat liver, G563

Urea transporters
mRNAs, segmental localization of, in rat kidney, F654
in renal tubules, ultramicrodetermination of, F531
in vasa recta of renal medulla, F505

Uremia
nitric oxide overproduction in, G894

Ureter
artificial calculus in, effects on ureter motility, in rats, R1409
smooth muscle cells
A-type potassium channels in, arachidonic acid and, C860
inward current and action potentials of, in guinea pig, C535, C543

Urethra
function
cold stimulation and, in rats, R1271
reflex pathways controlling, in male rats, R1647

Uridine diphosphate
and chloride ion secretion by intestinal epithelial cells, C1862

Uridine 5'-triphosphate
membrane voltage response to, in mesangial cells, F704

Urine
osmolality, pressure-natriuresis-diuresis phenomenon and, vasopressin in, studies in rats, R1472

Urocortin
cardiac inotropic actions of, in sheep, H2115

Urogenital tract
afferent nerve projections from, in rats, R1425

Uroguanylin
gene expression, zinc restriction and, in rats, G972

Urokinase plasminogen activator
production, smooth muscle cell, T cell lymphokines and, C392

Urolithiasis
development of, F55

Ursodeoxycholic acid
cytoprotective properties, G1249
and intestinal inflammation, G1249

Uterine artery
blood flow in, and physiological adaptation to pregnancy, nitric oxide and, studies in mammals, R441

Uterus
arterial blood flow, dynamic measurement, in rats, R318
arterial vasoconstrictions, in virgin and postpartum rats, R318
blood flow to
dynamic measurement, in rats, R318
effects on fetal glycogen metabolism, R103
and fetal growth, in rats, H701
pregnant
contractility, nitric oxide and, studies in mammals, R441
endothelin-1-induced contraction, in humans, R541
endothelin receptor subtypes, in humans, R541
myometrial nitric oxide synthase expression in, in rats, E1008
myometrial oxytocin receptor coupling to G proteins in, during labor, in rats, E870

V

Vagosympathetic interaction
dynamic, H2180

Vagotomy
and estrous cycles, in Syrian hamsters, R400, R406
and motilin biosignaling, G224
and ventilatory control, in bullfrog, R497

Vagovagal reflex
regulation of gastrointestinal function, G654

Vagus nerve
see also **Vagosympathetic interaction**
afferents
in intestinal action of cholecystokinin, G100
left ventricular, in ATP-triggered cardiocardiac reflex, H1898

dorsal motor nucleus
responsiveness to thyrotropin-releasing hormone, and gastrointestinal motility, G1372
synaptic connection with commissural portion of nucleus of solitary tract, in rats, G654
in duodenal acid neutralization, in anesthetized pigs, G154
efferents
excitation by TRH, central somatostatin and, G351
and inhibition of food intake by cholecystokinin, R1245
electrical stimulation, effect on pancreaticobiliary and duodenal bicarbonate secretion, G154
in febrile response, in guinea pigs, R675
and fluid intake, in capsaicin-treated rats, R704
function, cardiac effects of, in humans, R896
in gastric acid secretion, in male anesthetized rats, G335
interactions with cardiac sympathetic efferents, H2843
and pancreatic secretion, in dogs, G1550
phasic stimulation, and atrial pacing site, effects on atrioventricular conduction time, H2289
response to cholecystokinin vs. gastrin-releasing peptide, in rats, R1726
visceral afferents
activation, and glutamate release in parabrachial nucleus, R1631
and food intake during diet switch in rats, R1657
and gastric distension-induced *c-fos* expression in rat brain, R59
and inhibition of food intake by cholecystokinin, R1245

Valine
kinetics, in leucine-infused humans, E1037

Valsalva maneuver
right-left heart interaction with, modeling, H1499
and R-R intervals in atrial fibrillation, H1643

Vanadate
oxidation, activation of smooth muscle contraction, C278

Vanadium compounds
actions in L6 myocytes, C156

Vascular cell adhesion molecule
VCAM-1, and leukocyte influx into lung, L219

Vascular endothelial growth factor
inflammatory effect of, platelet-activating factor and, H2746

Vascular remodeling
see also **Heart ventricles, remodeling**
aortic, flow-induced, H851
in rats, H517

Vasculature
see also **Arteries; Arterioles; Microvasculature**
coronary, sympathetic influences on, in dogs, R821
femoral, sympathetic influences on, in dogs, R821
mesenteric, sympathetic influences on, in dogs, R821

- renal, sympathetic influences on, in dogs, R821
- Vas deferens**
 - smooth muscle cells, A-type potassium channels in, arachidonic acid and, C860
- Vasoactive intestinal peptide receptors**
 - VIP/PACAP
 - in gallbladder muscle, signaling by, G1433
 - in gastric muscle, signaling by, G1391
- Vasoactive intestinal polypeptide**
 - adrenal catecholamine response to, inhibition by PACAP-(6—27), in vivo studies in dogs, R1606
 - and duodenal bicarbonate secretion, G646
 - and lymphocyte migration in Peyer's patches of rat small intestine, G92
 - and nitric oxide synthase gene expression, C1790
 - in portal plasma, during electrical vagal stimulation in anesthetized pigs, G154
- Vasoconstriction**
 - in active skeletal muscle, during exercise, R386
 - angiotensin II-induced, sympathectomy and, H648
 - C5a-induced, in isolated coronary arteries, H12
 - central control of, R615
 - cholinergic reflex, in response to hypoxia, in teleost fish, R576
 - coronary
 - with high arterial oxygen tension, mechanisms of, H67
 - novel model of, H2054
 - cross-linked hemoglobin administration and, in dogs, R793
 - endothelin-1 in, H2385
 - endothelium-dependent, in hypertensive rats, H493
 - in hypertensive lungs, T-type calcium channels and, H2616
 - in mesenteric arteries, vasopressin and, H1087
 - noncatecholamine-induced, in mesenteric circulation, H207
 - in perfused rat hindlimb, H2146
 - in pulmonary hypertension, nitro-L-arginine and, L807
 - renal, agonist-induced, during hypoxia, H1945
 - splenic, endotoxin and, studies in rats, R2048
 - sympathetic, uterine arterial, in virgin and postpartum rats, R318
- Vasodilation**
 - see also **Vasorelaxation**
 - active thermoregulatory, cGMP and cAMP in, R975
 - arteriolar, endothelium-dependent, nicotine and, H2337
 - bradykinin-induced, in rat hindquarters vascular bed, R631
 - cerebral, hypoxia-induced, in neonatal pig, H1323
 - conducted
 - electromechanical transduction of, H2895
 - pressure effects on, H2395
 - sustained, H1364
 - cutaneous
 - aging and, H1609
 - during dorsal column stimulation, H950
 - ear skin, in rabbits, nitric oxide and, R1691
 - endothelium-dependent
 - exercise training and, H1070
 - isoflurane and, H290
 - nicotine and, H2337
 - in pulmonary hypertension, H806
 - hypoxic
 - in bovine coronary resistance arteries, H1462
 - cAMP and opioids in, H1350
 - integrin-mediated, calcium dependence of, H2065
 - neurogenic, in lingual artery, H1582
 - nitric oxide-mediated, in human pregnancy, H748
 - potentiated by nitric oxide synthase blockade, organ specificity of, G507
 - in pulmonary vasculature, in response to 20-HETE, L823
 - T-kinin and, in cats, H1491
- Vasomotion**
 - chaotic, H1826
 - in resistance arteries, smooth muscle calcium stores and, H1696
 - conducted, extracellular ATP and, H1886
 - sympathetic modulation of, and systemic arterial pressure, H485
- Vasopressin**
 - administration to area postrema, effects on response of NTS neurons to afferent inputs, R519
 - and adrenergic responses in human mesenteric arteries, H1087
 - antisense oligodeoxynucleotides, effects on vasopressin release from hypothalamoneurohypophysial explants, R1441
 - and aquaporin-2 gene expression, F443
 - calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954
 - cardiovascular and renal actions of, sex differences in, in rats, R370
 - cell surface aminopeptidase activity toward, in adipocytes, insulin stimulation of, E600
 - and central Fos immunoreactivity, in rats, R750
 - effects
 - on medullary blood flow and pressure-natriuresis-diuresis, in decerebrated rat, R1472
 - on outer medullary descending vasa recta, from rat kidneys, F147
 - and experimental colitis, studies in rats, G84
 - and heart rate, after converting enzyme inhibition in normal humans, E429
 - interaction with thromboxane, in hydropnephrosis, F40
 - osmotically stimulated, glucocorticoid regulation of, studies in rats, R158
 - in pathogenesis of hypertension, F229
 - plasma, in motion sickness, G853
 - regulation of aquaporins, F3, F183, F816
 - release, during hemorrhage, in NTS-lesioned rats, R1540
 - secretion
 - and central administration of endothelin-1, in rats, E126
 - during dehydration, studies in humans, R1740
 - and signal transduction by PGE₂, in rat medullary thick ascending limb, F624
 - and sodium-dependent hypertension in dogs, R1162
 - sustained elevation, fetal effects, studies in sheep, R1069
 - vasoreactivity to, in hypoxia, H1945
 - ventral septal release, and sex differences in PGE₂ fever, in rats, R1664
- Vasopressin receptors**
 - V₁
 - in hydronephrosis, F40
 - and intracellular calcium, in LLC-PK₁ cells, C810
 - V_{1A}, antagonism, modulation of genetic hypertension by, F229
 - V₂
 - activation, and aquaporin-2 gene expression, F443
 - antagonism, modulation of genetic hypertension by, F229
 - gene expression, in aging rat kidney, R1775
 - in inner medullary collecting duct cells, in rats, F192
- Vasopressin-regulated urea transporter**
 - in renal tubules, F531
- Vasopressors**
 - arteriolar hyporesponsiveness to, in septic rats, R969
- Vasoreactivity**
 - see also **Vasoconstriction**; **Vasodilation**; **Vasorelaxation**
 - angiotensin II-induced, sympathectomy and, H648
 - arteriolar, nicotine and, H2337
 - cerebral arterial, traumatic brain injury and, H1406
 - coronary artery, hypoxia-induced hyperpolarization and, H1462
 - ovarian hormones and, H1819
 - renal
 - to arginine vasopressin, in hydronephrosis, F40
 - to nitric oxide, F312
- Vasorelaxation**
 - see also **Vasodilation**
 - endothelium-dependent, in isolated coronary arteries, H12
- Vasospasm**
 - coronary
 - endothelin-1 in, H2054
 - prostaglandin F_{2α} in, H2054
 - endothelin-1 in, H2385
- Ventilatory control**
 - in bullfrog, R497
- Ventricles**
 - cardiac, see **Heart ventricles**
- Ventricular fibrillation**
 - defibrillation success, refractoriness extension and, H1011
- Venules**
 - coronary, ventricular contraction and, H2963
 - endothelium, vasoactive function of, H2541
 - permeability, myosin light chain phosphorylation and, H1437

Venules (continued)

- pulmonary, endothelial gap formation and closure, time course of, in rats, L155
- skeletal muscle, response to acetylcholine, H2541

Verapamil

- and active transport enzymes in turtle bladder epithelial cells, R1379
- and preglomerular response to angiotensin II, during intrarenal nitric oxide synthesis inhibition, R1670
- and pulmonary vasoreactivity to serotonin, H740

Veratridine

- and rat soleus muscle contractility, R1402

Very low density lipoprotein

- β -, apo E-enriched, binding and uptake properties of, C369

Vesicular transport

- in atrial myocytes, C1594

Vestibul sympathetic reflexes

- and muscle sympathetic nerve activity, with head-down neck flexion, H1780

Videomicroscopy

- of arteriolar responsiveness to vasopressors, in septic rats, R969

Vimentin

- and airway smooth muscle hypertrophy induced by mechanical stress, L20

Visceral pain

- in acute inflammation, neurokinin receptors and, G141
- in experimental calculosis, in rats, R1409

Viscerosomatic reflex

- nicotine-evoked, H827

Vitamin A

- see also **Retinoic acid**
- in embryonic development, and neonatal survival, E25

Vitamin D₃, see 1,25-Dihydroxyvitamin D₃

Vitamin E

- and early cytotoxicity after oxidant stress, in LLC-PK₁ cells, F729
- and hepatic fibrogenesis in chronic dietary iron overload, G116

Voiding

- in rats, neurophysiological model of, R413

Voltage-clamp studies

- in *Xenopus* oocytes, H1309

Volume receptors

- in older adults, R148

Volume replacement

- with oxygen vs. nonoxygen carriers, for fluid resuscitation in hemorrhagic shock, H525

Volume-sensitive organic osmolyte anion channel, see VSOAC

Volume status

- regulation, G1285

Vomiting

- in motion sickness, G853

VSOAC

- in mouse zygotes, C1854
- volume set point, regulation, by intracellular electrolytes, C1766

W

Walking

- low- and high-intensity, physiological response to cold stress during, R2025
- prolonged, cold exposure and, R226

Wasting

- cytokine-induced, mechanisms of, in rats, E333

Water

- deprivation, plasma renin levels during, R1197
- excretion, regulation, F3
- intake
 - epidermal growth factor and, in rats, R1853
 - intravenous angiotensin II and, in rabbits, R1515
 - AT₁ receptor antagonist and, studies in cattle, R1940
- load, and aquaporin trafficking, F183
- pharyngeal stimulation, see **Pharyngeal water stimulation**
- reabsorption, in eel, R1143
- transport
 - osmotic, across outer medullary descending vasa recta, F579, F587
 - in perfused rat liver, G563

Water, doubly labeled

- for measurement of daily energy expenditure, in heart failure, E469
- for measuring energy budget in free-living animals, R1336

Water balance

- myocardial, regulation of, H706
- and vasopressin V₂ receptor expression in aging kidney, R1775

Water channels

- see also **Aquaporin**
- in vasa recta of renal medulla, F505

Water permeability

- of collecting duct cells, mechanisms of, F443
- of nephron segments, adrenomedullin and, F691
- in renal collecting ducts, F235
- of renal principal cells, vasopressin-induced increase in, F816

Weightlessness

- simulated, effects on sympathetic response to exercise, R570

Western blot assay

- of murine polycystin, F451
- of protein kinase C isoforms in airway smooth muscle, L603
- of protein tyrosine phosphorylation in bronchial epithelial cells, L426

White blood cells, see Leukocytes

Wistar-Kyoto rats, see Rats, Wistar-Kyoto

Wistar rats, see Rats, Wistar

Women

- see also **Gender differences**
- menopause in, and development of chronic mountain sickness, R90

Wood frog

- freezing-induced genes in, R1480

Wortmannin

- properties, comparison to properties of ME-3407, G1122

Wound healing

- and macrophage arginine metabolism, E181
- WY-50295**
 - and alveolarization in neonatal rats, L433

X

Xanthine oxidase

- and contractile function of diaphragm, in aging rats, E201
- in hepatic inflammation, G207
- and intracellular reactive oxygen species, in hypoxia-reoxygenation, L897
- and lung-gut injury, G845

Xenin

- relaxant effect on rat ileum, via apamin-sensitive neurotensin-type receptors, G190

Xenopus oocytes

- AE2 anion exchanger activation in, C1232
- G protein-coupled potassium channel (GIRK1/GIRK4) expressed in, ATP-dependent regulation of, H195
- human α_{1C} -adrenoceptor in, modulation of potassium channels coexpressed with, H1275
- L-type calcium channel expression in, H1372
- secondary regulatory volume increase in, with AE2 anion exchanger expression, C191
- single HERG delayed rectifier potassium channels expressed in, H1309

Z

Zaprinast

- and osteoclast formation, F283

ZD-7288

- effects within sinoatrial node, H2782

Zinc

- deficiency, uroguanylin expression in, G972
- dietary, restriction, effects on intestinal uroguanylin expression, in rats, G972
- and immune function, in humans, E952, E1002
- intracellular free, in cardiomyocytes, oxidants and, H2095
- metabolism, endotoxin effects on, in humans, E952

Zinc finger proteins

- in rat small intestine, G751

Zinc protoporphyrin IX

- and biliary transport, in perfused rat liver, G1268

Zoarces viviparus

- white muscle, temperature-related regulation of intracellular pH in, R84

Zucker rats, see Rats, Zucker

Zygotes

- ascidian, gap junctional units expressed in, C1445
- volume regulation by, in mouse, C1854

Zymogenic cells

- in normal and transgenic mice, G1209

1. The first part of the report is a general introduction to the subject of the study.

2. The second part of the report is a detailed description of the methods used in the study.

3. The third part of the report is a discussion of the results of the study.

4. The fourth part of the report is a conclusion and a list of references.

5. The fifth part of the report is a summary of the findings of the study.
